# We will Help You in Passing the Workday Workday-Prism-Analytics Certification Exam

What's more, part of that FreeCram Workday-Prism-Analytics dumps now are free: https://drive.google.com/open?id=1bkyiLNkWtHuj9GtaqOSuGLeZd-AnltYx

With our Workday-Prism-Analytics pdf torrent, you will minimize your cost on the exam preparation and be ready to pass your Workday-Prism-Analytics actual test on your first try. FreeCram will provide you the easiest and quickest way to get the Workday-Prism-Analytics certification without headache. We will offer the update service for one year. In addition, you will instantly download the Workday-Prism-Analytics PDF VCE after you complete the payment. With the help of Workday-Prism-Analytics study dumps, you can just spend 20-30 hours for the preparation. Then you will be confident in the actual test.

In order to serve you better, we have a complete system to you if you buy Workday-Prism-Analytics study materials from us. We offer you free demo for you to have a try before buying. If you are satisfied with the exam, you can just add them to cart, and pay for it. You will obtain the downloading link and password for Workday-Prism-Analytics Study Materials within ten minutes, if you don't, just contact us, we will solve the problem for you. After you buy, if you have some questions about the Workday-Prism-Analytics exam braindumps after buying you can contact our service stuff, they have the professional knowledge and will give you reply.

>> Real Workday-Prism-Analytics Exam Dumps <<

Workday-Prism-Analytics Exam Training & Latest Workday-Prism-Analytics Exam Book

As the industry has been developing more rapidly, our Workday-Prism-Analytics exam dumps have to be updated at irregular intervals in case of keeping pace with changes. To give you a better using environment, our experts have specialized in the technology with the system upgraded to offer you the latest Workday-Prism-Analytics Exam practices. What's more, we won't charge you in one-year cooperation; if you are pleased with it, we may have further cooperation. We will inform you of the latest preferential activities about our Workday-Prism-Analytics test braindumps to express our gratitude towards your trust.

Workday Pro Prism Analytics Exam Sample Questions (Q35-Q40):

NEW QUESTION # 35

When using a window function to calculate averages in Prism, what field type must the function operate on?

- A. Text
- B. Boolean
- C. Numeric
- D. Date

Answer: C

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
In Workday Prism Analytics, window functions are used to perform calculations across a set of rows, such as calculating averages with a function like AVG. According to the official Workday Prism Analytics study path documents, the AVG window function, which computes the average, must operate on a field of type Numeric.
This is because averaging requires numerical values to perform arithmetic operations (e.g., summing the values and dividing by the count of rows). Non-numeric field types, such as Text or Date, cannot be averaged, and Boolean fields (true/false) are not suitable for this type of calculation. For example, a window function like AVG(salary) OVER (PARTITION BY department) would calculate the average salary per department, where "salary" must be a Numeric field.
The other options are incorrect:
* A. Text: Text fields cannot be used for arithmetic operations like averaging.
* B. Boolean: Boolean fields (true/false) are not suitable for calculating averages.
* D. Date: Date fields cannot be directly averaged; they require conversion to a numeric representation (e.
g., days since a reference date) first.
The requirement for a Numeric field type ensures that the AVG window function can perform the necessary mathematical computations accurately.

NEW QUESTION # 36

What task or report should you access to view a Prism data source?

- A. View Prism Data Source report
- B. Edit Data Source Security task
- C. Edit Dataset Transformations task
- D. View Dataset Details report

Answer: A

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
In Workday Prism Analytics, a Prism data source represents the published dataset that is available for reporting and analytics within the Workday ecosystem. According to the official Workday Prism Analytics study path documents, the "View Prism Data Source" report is the specific task or report designed to allow users to view the details of a Prism data source. This report provides comprehensive information about the data source, including its metadata, structure, and associated attributes, enabling users to understand the data available for reporting purposes.
The other options do not serve this purpose. The "Edit Dataset Transformations task" is used to modify the transformation logic applied to a dataset, not to view a data source. The "Edit Data Source Security task" focuses on managing security settings for a data source, such as access permissions, rather than viewing its contents. Similarly, the "View Dataset Details report" provides information about a dataset (including its metadata and sample rows) but does not specifically address the published Prism data source, which is a distinct entity created after a dataset is published.
The "View Prism Data Source" report is the correct choice as it directly aligns with the need to inspect the properties and structure of a Prism data source, ensuring users can verify its suitability for reporting or integration with Workday reports.

NEW QUESTION # 37
You want to use a custom report containing prompts as a source connection for a table. What must you ensure to make this possible?

- A. The prompts are mapped at the data change task level.
- B. The prompts are marked as required.
- C. The report is built on an indexed data source.
- D. The custom report prompts have default values assigned on the report definition.

Answer: D

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
In Workday Prism Analytics, when using a custom report with prompts as a source connection for a table, the custom report must be configured to ensure compatibility with the Prism data ingestion process. According to the official Workday Prism Analytics study path documents, the key requirement is that the custom report prompts have default values assigned in the report definition. This is necessary because Prism Analytics does not support interactive prompting during data ingestion. Default values ensure that the report can run automatically without requiring user input, allowing the Data Change task to retrieve the data consistently and load it into the target table.
The other options are not correct in this context:
* A. The report is built on an indexed data source: While indexed data sources can enhance performance for certain reports, they are not a requirement for using a custom report as a source for a Prism table.
* B. The prompts are mapped at the data change task level: Prompts are not mapped in the Data Change task; instead, the task relies on the report's default values to execute the data retrieval.
* D. The prompts are marked as required: Marking prompts as required does not address the need for automatic execution; default values are still needed to avoid manual intervention.
By assigning default values to prompts in the custom report definition, the report can be seamlessly integrated as a source connection for Prism Analytics, ensuring reliable data loading into the table.

NEW QUESTION # 38
You have to blend two sources of data. Your matching field is Employee ID, which is a text-type field in Pipeline 1, but is numeric in Pipeline 2. How do you prepare your data for blending?

- A. Add a Manage Fields to change the field type and then Union.
- B. Add a Filter first and then a Manage Fields to change the field type.
- C. Add first a Manage Fields to change the field type and then Join.
- D. Add a Join first and then a Manage Fields to change the field type.

Answer: C

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
In Workday Prism Analytics, blending two data sources typically involves joining them on a common field, such as Employee ID in this case. However, the Employee ID field is text in Pipeline 1 and numeric in Pipeline 2, which means the field types must be aligned before a join can be performed to avoid data mismatches or errors. According to the official Workday Prism Analytics study path documents, the correct approach is to first use a Manage Fields stage to change the field type of Employee ID in one of the pipelines to match the other (e.g., convert the numeric Employee ID in Pipeline 2 to text, as text can safely store numeric values without data loss), and then perform a Join stage to blend the data (option C). Converting from numeric to text is preferred because converting text to numeric risks data loss if the text field contains non- numeric characters.
The other options are not appropriate:
* A. Add a Manage Fields to change the field type and then Union: A Union appends rows vertically and does not blend data based on a matching field like Employee ID; blending typically requires a Join.
* B. Add a Filter first and then a Manage Fields to change the field type: Adding a Filter stage is unnecessary for preparing the field types for a join and does not address the blending requirement.

* D. Add a Join first and then a Manage Fields to change the field type: Performing the Join first will fail or produce incorrect results because the field types (text and numeric) are incompatible for joining; the types must be aligned before the Join.
By using a Manage Fields stage to change the field type first and then performing a Join, the data from both pipelines can be blended accurately on the Employee ID field.
References:
Workday Prism Analytics Study Path Documents, Section: Data Prep and Transformation, Topic: Preparing Data for Joins in Prism Analytics Workday Prism Analytics Training Guide, Module: Data Prep and Transformation, Subtopic: Field Type Transformations for Data Blending

NEW QUESTION # 39
You want your derived dataset to only show rows that meet the following criteria: Agent ID is not null AND Location is Dallas OR Location is Montreal. How can you achieve this?

- A. By creating a Custom Example.
- B. By using Simple Filter conditions.
- C. By using Advanced Filter conditions.
- D. By adding a Manage Fields stage.

Answer: C

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
In Workday Prism Analytics, filtering a derived dataset to meet specific criteria involving multiple conditions with mixed logical operators (AND, OR) requires careful configuration. The criteria here are: Agent ID is not null AND (Location is Dallas OR Location is Montreal). According to the official Workday Prism Analytics study path documents, this can be achieved by using Advanced Filter conditions (option C).
A Simple Filter in Prism Analytics allows for basic conditions with a single operator ("If All" for AND, "If Any" for OR), but it cannot handle nested logic like AND combined with OR in a single filter. For example, a Simple Filter with "If All" would require all conditions to be true (Agent ID is not null AND Location is Dallas AND Location is Montreal), which is too restrictive. A Simple Filter with "If Any" would include rows where any condition is true (Agent ID is not null OR Location is Dallas OR Location is Montreal), which is too broad. The Advanced Filter, however, allows for complex expressions with nested logic, such as ISNOTNULL(Agent_ID) AND (Location = "Dallas" OR Location = "Montreal"), ensuring the correct rows are included.
The other options are incorrect:
* A. By adding a Manage Fields stage: The Manage Fields stage modifies field properties (e.g., type, visibility) but does not filter rows based on conditions.
* B. By using Simple Filter conditions: As explained, a Simple Filter cannot handle the combination of AND and OR logic required for this criteria.
* D. By creating a Custom Example: Custom Examples are used to provide sample data for testing, not to filter rows in a dataset.
Using Advanced Filter conditions allows for the precise application of the required logic to filter the dataset accurately.

NEW QUESTION # 40
......

In this social-cultural environment, the Workday-Prism-Analytics certificates mean a lot especially for exam candidates like you. To some extent, these Workday-Prism-Analytics certificates may determine your future. With respect to your worries about the practice exam, we recommend our Workday-Prism-Analytics Preparation materials which have a strong bearing on the outcomes dramatically. For a better understanding of their features, please follow our website and try on them.

Workday-Prism-Analytics Exam Training: https://www.freecram.com/Workday-certification/Workday-Prism-Analytics-exam-dumps.html

It can make your preparation very phenomenal for the exam and it will surely keep on helping you from start till the end of your preparation and you will be FreeCram experts and tools are willing to help candidates in their preparation for the online Workday Workday-Prism-Analytics Workday Pro Prism Analytics Exam (Reporting and Analytics) computer based training, Workday Workday-Prism-Analytics Exam Training Certified Network Associate is an associate-level certification that demonstrates the skills

required of expert-level network engineers in order to plan, operate, and troubleshoot complex, converged the network infrastructure.

Applying use cases to project planning, prototyping, and estimating, Latest Workday-Prism-Analytics Exam Book Mac laptops are obviously designed to be mobile, so you already have everything you need to roam freely.

It can make your preparation very phenomenal for the exam Latest Workday-Prism-Analytics Exam Book and it will surely keep on helping you from start till the end of your preparation and you will be FreeCram experts and tools are willing to help candidates in their preparation for the online Workday Workday-Prism-Analytics Workday Pro Prism Analytics Exam (Reporting and Analytics) computer based training.

Free PDF 2026 Workday Workday-Prism-Analytics Latest Real Exam Dumps

Workday Certified Network Associate is an associate-level certification that Workday-Prism-Analytics demonstrates the skills required of expert-level network engineers in order to plan, operate, and troubleshoot complex, converged the network infrastructure.

If you don't have enough time to study for your certification exam, FreeCram provides Workday Pro Prism Analytics Exam Workday-Prism-Analytics Pdf questions, Because it contains all the questions of Workday Workday-Prism-Analytics examination.

FreeCram Workday Pro Prism Analytics Exam (Workday-Prism-Analytics) web-based practice software is supported by all well-known browsers like Chrome, Firefox, Opera, Internet Explorer, etc.
