HPE2-E84考試證照 & HPE2-E84指南

KaoGuTi的HPE2-E84考古題是經過眾多考生檢驗過的資料，可以保證有很高的成功率。如果你用過考古題以後仍然沒有通過考試，KaoGuTi會全額退款。或者你也可以選擇為你免費更新考試考古題。有了這樣的保障，實在沒有必要擔心了。

最新的 HPE Sales Certified HPE2-E84 免費考試真題 (Q14-Q19):

問題 #14

A retail customer experiences massive, unpredictable spikes in e-commerce traffic during holiday seasons. Their current infrastructure is sized for average use, leading to slow performance and lost sales during peak times. They need a solution that can handle these spikes without forcing them to overpay for idle capacity the rest of the year.

Customer Requirements:

- Workload: E-commerce platform with highly variable demand.
- Problem: Poor performance during unpredictable traffic spikes.
- Financial Constraint: Avoid paying for peak-level capacity year-round.

Which HPE GreenLake offering is specifically designed to solve this business problem?

- A. HPE Financial Services Asset Upcycling.
- **B. HPE GreenLake Flex Solution, with a committed capacity for normal operations and a pay-for-use buffer for peak demand.**
- C. HPE GreenLake for Private Cloud Business Edition with a fixed monthly cost.
- D. A three-year fixed lease on HPE ProLiant servers sized for peak capacity.

答案： B

問題 #15

A customer with strong Environmental, Social, and Governance (ESG) goals wants to understand how HPE can help them build a more sustainable IT strategy. They are particularly concerned about energy consumption and overprovisioning in their data center. Which HPE offerings and capabilities should a sales professional highlight to address these sustainability concerns? (Select all that apply.)

- A. The HPE Sustainability Dashboard, which provides visibility into IT energy consumption, carbon footprint, and utilization metrics.
- B. The ability to purchase servers with the maximum possible number of CPUs and memory modules to ensure future capacity.
- C. HPE's Asset Upcycling Services, which provide a secure and environmentally responsible way to retire old IT equipment.
- D. The use of older, less efficient hardware that has already been fully depreciated to avoid new manufacturing.
- E. The HPE GreenLake consumption model, which helps eliminate overprovisioning by aligning capacity with real-time needs.

答案： A,C,E

問題 #16

A new customer is exploring HPE GreenLake for the first time. Their IT team is small and focused on application development, not infrastructure management. They have expressed the following needs:

Customer Initiative: "IT Modernization"

Business Goal: Free up IT staff from routine hardware management.

Key Challenge: Limited in-house expertise for managing advanced storage arrays.

Financial Model: Preference for OpEx to preserve capital for innovation projects.

Based on these requirements, which HPE IaaS solution is the most appropriate initial recommendation?

- A. A fully-managed public cloud provider.
- B. HPE Alletra Storage MP array purchased with a traditional support contract.
- C. HPE GreenLake for Block Storage.
- D. HPE MSA Storage array purchased outright.

答案： C

問題 #17

A sales professional is presenting to a customer with a mix of virtualized workloads. The customer is trying to decide between two HPE IaaS solutions offered through GreenLake. Review the customer's workload summary:

Workload Profile:

- Primary: General purpose virtual machines (VMs) for development, test, and corporate applications.
- Key Driver: Extreme operational simplicity and VM-centric management.
- Secondary: A mission-critical SQL database requiring 99.9999% guaranteed availability.
- Constraint: The customer wants a single vendor for both workload environments but needs to understand the ideal placement for each.

How should the sales professional position HPE's IaaS offerings to address this customer's needs?

- A. Propose HPE SimpliVity for the SQL database and HPE Alletra for the general purpose VMs.
- B. Position HPE GreenLake for Private Cloud Business Edition, which uses HPE SimpliVity, for the general purpose VMs due to its hyperconverged simplicity, and HPE GreenLake for Block Storage, using HPE Alletra, for the mission-critical SQL database.
- C. Suggest the customer use a public cloud for the VMs and HPE GreenLake for the database to create a hybrid solution.
- D. Recommend HPE GreenLake for Block Storage using HPE Alletra for all workloads to standardize on a single platform.

答案： B

問題 #18

A customer's primary driver for considering an as-a-service model is to move IT spending from large, unpredictable capital expenditures (CapEx) to predictable, recurring operational expenditures (OpEx).

Which core benefit of HPE's IaaS solutions, like HPE GreenLake, directly addresses this financial objective?

- A. Access to the latest hardware technology without ownership.
