## Quiz Marvelous Veeam - VMCE\_v12 - Questions Veeam Certified Engineer v12 Pdf

VCETorrent's web-based Veeam VMCE\_v12 practice test also contains mock exams just like the desktop practice exam software with some extra features. As this is a web-based software, this is accessible through any browser like Opera, Safari, Chrome, Firefox and MS Edge with a good internet connection. Veeam Certified Engineer v12 (VMCE\_v12) practice test is also

customizable so that you can easily set the timings and change the number of questions according to your ease.

## Veeam VMCE\_v12 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• Verifying recoverability: This section of the exam covers the creation of automated tests to ensure recoverability from backups and replicas.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• Backup data optimizations: This section covers the need for object storage to be backed up and the supported object storage solutions while utilizing repositories.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>• Recovery scenarios and features: This section covers the impact of various recovery procedures and choosing the most viable recovery technique.</li></ul>
Topic 4	<ul style="list-style-type: none"><li>• Initial security considerations: This section defines ways and tools to secure the Veeam backup server.</li></ul>
Topic 5	<ul style="list-style-type: none"><li>• Virtual machine backup: This section of the exam covers protecting the VMware and Hyper V to safeguard VMware that follows SLAs.</li></ul>
Topic 6	<ul style="list-style-type: none"><li>• Replication: This section of the exam covers the description of use cases, architectures, and elements of replication jobs.</li></ul>
Topic 7	<ul style="list-style-type: none"><li>• Agent backup: This section of the exam covers the identification of protection groups for automating the installation of Veeam Agents.</li></ul>
Topic 8	<ul style="list-style-type: none"><li>• Veeam Data Platform: This section deals with the identification and description of the goal of each major product in the Veeam Data Platform.</li></ul>
Topic 9	<ul style="list-style-type: none"><li>• Data protection strategies: This section of the exam covers an overview of data protection strategies.</li></ul>
Topic 10	<ul style="list-style-type: none"><li>• Incident Response Planning: This section of the exam covers integrating Veeam Backup and Replication into the incident response strategy.</li></ul>

## Veeam Certified Engineer v12 Sample Questions (Q135-Q140):

### NEW QUESTION # 135

What is necessary prior to configuring replica mapping?

- A. A Veeam backup in the disaster recovery site
- B. A Veeam backup in the production site
- C. A Veeam replica in the disaster recovery site
- D. A Veeam replica in the production site

**Answer: C**

Explanation:

Explanation

### NEW QUESTION # 136

A critical server in a Hyper-V environment has crashed and will not reboot. What is the fastest way to bring this server back online so employees can continue to work?

- A. Staged restore
- B. Instant VM Recovery
- C. Entire VM restore
- D. Instant VM Disk Recovery

**Answer: B**

Explanation:

Explanation

[https://helpcenter.veeam.com/archive/backup/110/vsphere/instant\\_recovery.html](https://helpcenter.veeam.com/archive/backup/110/vsphere/instant_recovery.html)

#### **NEW QUESTION # 137**

It the Backup Administrator has to perform a backup over a high-latency, low bandwidth network link, how can the disruptions to the backup process be avoided?

- A. By making a direct backup using WAN accelerator.
- B. By adjusting the compression and deduplication settings for this Job.
- C. By adding additional WAN accelerators to the target site.
- **D. By making a backup locally and utilizing WAN accelerators for a backup copy Job.**

**Answer: D**

#### **NEW QUESTION # 138**

A backup of a Windows VM running on a VMware cluster has been created. In which scenario can the Quick Rollback option be used during a Full VM Restore of the VM?

- A. Migration of VM to Hyper-V host in the same data center
- B. Migration of VM to VMware host in a different data center
- C. Issues caused by storage data corruption
- **D. Issues caused by VM guest user error**

**Answer: D**

Explanation:

The Quick Rollback feature can be used during a Full VM Restore to restore only the changed blocks of data since the last backup. This is typically used when the issues are minor and have been caused by VM guest user error, rather than full-scale data corruption or migrations to a different virtualization host. Quick Rollback can efficiently restore the VM to its previous state without the need to transfer the entire VM's data.

#### **NEW QUESTION # 139**

Which two service offerings can a Veeam Cloud Service Provider provide to Veeam's customers?

(Choose two.)

- A. Application Development as a Service
- B. On premise tape
- C. Physical site security as a Service
- **D. Backup as a Service**
- **E. Disaster Recovery as a Service**

**Answer: D,E**

Explanation:

Veeam Cloud Service Providers (VCSPs) are equipped to offer a range of services designed to extend Veeam's data protection capabilities to the cloud, enhancing the flexibility and reliability of backup and disaster recovery strategies for Veeam's customers.

The two service offerings that align with VCSP capabilities are:

A) Backup as a Service (BaaS) - This service allows Veeam customers to offload their on-premises backup operations to the cloud, leveraging cloud resources for storage and management of backups. BaaS simplifies backup processes, reduces the need for extensive on-premises infrastructure, and provides an added layer of data protection and accessibility.

E) Disaster Recovery as a Service (DRaaS) - DRaaS extends beyond basic backup services to offer a more comprehensive disaster recovery solution. It ensures not only the availability of backups but also the capability to rapidly restore and run critical workloads in the cloud in the event of a disaster, minimizing downtime and ensuring business continuity.

These services leverage the robust capabilities of Veeam Backup & Replication, tailored for cloud environments, to offer scalable,
