100% Pass Quiz Microsoft - Trustable Free AB-730 Exam Dumps

If you get our AB-730 training guide, you will surely find a better self. As we all know, the best way to gain confidence is to do something successfully. With our AB-730 study materials, you will easily pass the AB-730 examination and gain more confidence. As there are three versions of our AB-730 preparation questions: the PDF, Software and APP online, so you will find you can have a wonderful study experience with your favorite version.

Microsoft AI Business Professional Sample Questions (Q15-Q20):

NEW QUESTION # 15

While using Microsoft 365 Copilot, content is returned from a website.

You need to verify the exact search query used to find the website.

What should you use? To answer, select the appropriate options in the answer area.

☐

Answer:

Explanation:

☐

NEW QUESTION # 16

Select the answer that correctly completes the sentence.

☐

Answer:

Explanation:

☐

NEW QUESTION # 17

You are a medical researcher.

You need to ensure that Microsoft 365 Copilot responds to you in a professional manner that is appropriate to your field. What is the best approach to achieve the goal?

- A. In the conversation, attach an example to your prompts.
- B. From Settings, configure Custom instructions.
- C. From Settings, configure Copilot Memory.
- D. In the conversation, create a sample prompt and save it to the Copilot Prompt Gallery.

Answer: B

Explanation:

Custom instructions allow users to define persistent preferences for tone, style, and response behavior across conversations.

Microsoft documentation explains that Custom instructions help tailor Copilot responses to professional roles, communication styles, and domain expectations.

For a medical researcher requiring consistently professional, field-appropriate responses, configuring Custom instructions in Settings ensures that Copilot maintains the desired tone and terminology in future interactions.

Attaching examples influences only a single conversation. Saving prompts to the Prompt Gallery aids reuse but does not enforce tone globally. Copilot Memory stores factual preferences but is not intended for style configuration.

Therefore, the best and most comprehensive approach is to configure Custom instructions in Settings.

NEW QUESTION # 18

You use Microsoft 365 Copilot to generate a training plan.

You need to check if there are any existing training plans in your organization that are similar to the new training plan. What should you use in Copilot?

- A. Apps
- B. Pages
- C. Search
- D. Designer

Answer: C

Explanation:

Microsoft 365 Copilot integrates with Microsoft Search to help users discover relevant content across their organization's Microsoft 365 data estate, including SharePoint, OneDrive, Teams, and Exchange. When the objective is to determine whether similar training plans already exist, the appropriate action is to perform a search across organizational content.

Using Search allows Copilot to query indexed enterprise documents and return files, plans, or related materials that the user has permission to access. This supports content reuse, avoids duplication of work, and aligns with Microsoft's guidance on leveraging organizational knowledge efficiently.

Designer is focused on visual content creation, Apps provides access to Microsoft 365 applications, and Pages is used for creating and organizing content within Copilot. None of these options are intended for discovering existing documents across the tenant. Therefore, to identify similar existing training plans within your organization, the correct tool to use in Copilot is Search.

NEW QUESTION # 19

In a Microsoft 365 Copilot conversation, you generate a report, and then edit the report in a page. You need to collaborate with a colleague on the report.

What are two ways to achieve the goal?

- A. Open the page in Microsoft Word.
- B. Add the page to a notebook.
- C. Share the page link.
- D. @mention the colleague in the page.

Answer: C,D

Explanation:

Microsoft 365 Copilot Pages supports collaboration similarly to other Microsoft 365 documents. Collaboration requires notifying or granting access to colleagues.

Using @mentions within the page (Option A) directly notifies the colleague and facilitates collaborative engagement. Sharing the page link (Option D) allows others to access and edit the content according to permissions. These two methods provide complete collaboration workflows.

Adding the page to a notebook does not grant collaborative access. Opening the page in Word changes the editing surface but does not inherently enable collaboration unless shared.

Therefore, the correct answers are A and D.

NEW QUESTION # 20

.....

The only aim of our company is to help each customer pass their exam as well as getting the important certification in a short time. If you want to pass your exam and get the AB-730 certification which is crucial for you successfully, I highly recommend that you should choose the AB-730 Study Materials from our company so that you can get a good understanding of the exam that you are going to prepare for.
