## IAPP Certified Information Privacy Professional/Europe (CIPP/E) Sample Questions (Q74-Q79):

### NEW QUESTION # 74

According to the E-Commerce Directive 2000/31/EC, where is the place of "establishment" for a company providing services via an Internet website confirmed by the GDPR?

- A. Where the decisions about processing are made
- B. Where the technology supporting the website is located
- C. Where the customer's Internet service provider is located
- D. Where the website is accessed

**Answer: C**

Explanation:

Explanation/Reference: <https://www.ohiobar.org/member-tools-benefits/publications/Ohio-Lawyer/the-european-general-data-protection-regulation-gdpr/>

**NEW QUESTION # 75****SCENARIO**

Please use the following to answer the next question:

Dynaroux Fashion ('Dynaroux') is a successful international online clothing retailer that employs approximately 650 people at its headquarters based in Dublin, Ireland. Ronan is their recently appointed data protection officer, who oversees the company's compliance with the General Data Protection Regulation (GDPR) and other privacy legislation.

The company offers both male and female clothing lines across all age demographics, including children. In doing so, the company processes large amounts of information about such customers, including preferences and sensitive financial information such as credit card and bank account numbers.

In an aggressive bid to build revenue growth, Jonas, the CEO, tells Ronan that the company is launching a new mobile app and loyalty scheme that puts significant emphasis on profiling the company's customers by analyzing their purchases. Ronan tells the CEO that: (a) the potential risks of such activities means that Dynaroux needs to carry out a data protection impact assessment to assess this new venture and its privacy implications; and (b) where the results of this assessment indicate a high risk in the absence of appropriate protection measures, Dynaroux may have to undertake a prior consultation with the Irish Data Protection Commissioner before implementing the app and loyalty scheme.

Jonas tells Ronan that he is not happy about the prospect of having to directly engage with a supervisory authority and having to disclose details of Dynaroux's business plan and associated processing activities.

Which of the following facts about Dynaroux would trigger a data protection impact assessment under the GDPR?

- A. The company employs approximately 650 people and will therefore be carrying out extensive processing activities.
- B. The company intends to shift their business model to rely more heavily on online shopping.
- C. **The company plans to undertake profiling of its customers through analysis of their purchasing patterns.**
- D. The company will be undertaking processing activities involving sensitive data categories such as financial and children's data.

**Answer: C**

Explanation:

According to the Free CIPP/E Study Guide, page 14, "the GDPR requires controllers to carry out a data protection impact assessment (DPIA) prior to processing where a type of processing, in particular using new technologies, and taking into account the nature, scope, context and purposes of the processing, is likely to result in a high risk to the rights and freedoms of natural persons." The GDPR also provides a list of examples of processing operations that require a DPIA, such as "a systematic and extensive evaluation of personal aspects relating to natural persons which is based on automated processing, including profiling, and on which decisions are based that produce legal effects concerning the natural person or similarly significantly affect the natural person" (Article 35(3)(a)). Therefore, the fact that Dynaroux plans to undertake profiling of its customers through analysis of their purchasing patterns would trigger a DPIA under the GDPR, as it involves a systematic and extensive evaluation of personal aspects based on automated processing that may significantly affect the customers. The other options are not necessarily cases where a DPIA is required, although they may involve other obligations under the GDPR, such as obtaining a valid legal basis, providing adequate safeguards, or informing the data subjects. **NEW QUESTION # 76**

Which mechanism, new to the GDPR, now allows for the possibility of personal data transfers to third countries under Article 42?

- A. Law enforcement requests.
- B. Standard contractual clauses.
- C. Binding corporate rules.
- D. **Approved certifications.**

**Answer: D**

Explanation:

According to Article 42 of the GDPR, the Commission may approve certification mechanisms, seals and marks for the purpose of demonstrating the existence of appropriate safeguards for personal data transfers to third countries or international organisations. These certification mechanisms, seals and marks are voluntary and transparent, and are issued by accredited certification bodies or by the competent supervisory authorities.

They are subject to the general provisions on certification in Articles 42 and 43 of the GDPR. They are intended to enhance the trust of data subjects and facilitate the free flow of personal data within the Union and beyond. They are also subject to periodic review and withdrawal or suspension if the conditions for certification are not or are no longer met. References:

\* Article 42 of the GDPR

\* European Data Protection Law & Practice textbook, Chapter 8: Transfers of Personal Data to Third Countries, Section 8.3: Appropriate Safeguards, Subsection 8.3.4: Certification Mechanisms, Seals and Marks

\* Guidelines 1/2018 on certification and identifying certification criteria in accordance with Articles 42 and 43 of the Regulation

## NEW QUESTION # 77

Which type of personal data does the GDPR define as a "special category" of personal data?

- A. Financial information.
- B. **Trade-union membership.**
- C. Closed Circuit Television (CCTV) footage.
- D. Educational history.

**Answer: B**

Explanation:

According to Article 9 of the GDPR, special category data is personal data that needs more protection because it is sensitive. The GDPR defines 10 types of personal data as special categories, which are:

- \* personal data revealing racial or ethnic origin;
- \* personal data revealing political opinions;
- \* personal data revealing religious or philosophical beliefs;
- \* personal data revealing trade union membership;
- \* genetic data;
- \* biometric data (where used for identification purposes);
- \* data concerning health;
- \* data concerning a person's sex life; and
- \* data concerning a person's sexual orientation.

Among the answer choices, only option B falls under one of these categories, as trade union membership is considered to reveal political opinions or beliefs. Option A, C and D are not considered as special category data, as they do not reveal any sensitive information about the data subject. However, they are still subject to the general principles and rules of the GDPR, such as lawfulness, fairness, transparency, accuracy, security, etc. References:

## NEW QUESTION # 78

Since blockchain transactions are classified as pseudonymous, are they considered to be within the material scope of the GDPR or outside of it?

- A. Outside the material scope of the GDPR, because transactions are for personal or household purposes
- B. **Within the material scope of the GDPR to the extent that transactions include data subjects in the European Union.**
- C. Outside the material scope of the GDPR, because transactions do not include personal data about data subjects in the European Union.
- D. Within the material scope of the GDPR but outside of the territorial scope, because blockchains are decentralized.

**Answer: B**

## NEW QUESTION # 79

.....
