## EC-COUNCIL EC Council Certified Incident Handler (ECIH v3) Sample Questions (Q98-Q103):

### NEW QUESTION # 98

If a hacker cannot find any other way to attack an organization, they can influence an employee or a disgruntled staff member. What type of threat is this?

- A. Insider attack
- B. Identity theft
- C. Footprinting
- D. Phishing attack

**Answer: A**

Explanation:

If a hacker influences an employee or a disgruntled staff member to gain access to an organization's resources or sensitive information, this is classified as an insider attack. Insider attacks are perpetrated by individuals within the organization, such as employees, contractors, or business associates, who have inside information concerning the organization's security practices, data, and computer systems. The threat from insiders can be intentional, as in the case of a disgruntled employee seeking to harm the organization, or unintentional, where an employee is manipulated or coerced by external parties without realizing the implications of their actions.

Phishing attacks, footprinting, and identity theft represent different types of cybersecurity threats where the attacker's method or objective differs from that of insider attacks.

References: The ECIH v3 certification program addresses various types of threats, including insider threats, emphasizing the importance of recognizing and mitigating risks posed by individuals within the organization.

### NEW QUESTION # 99

James is a professional hacker and is employed by an organization to exploit their cloud services. In order to achieve this, James created anonymous access to the cloud services to carry out various attacks such as password and key cracking, hosting malicious data, and DDoS attacks. Which of the following threats is he posing to the cloud platform?

- A. Data breach/loss
- B. Insecure interface and APIs
- C. Abuse and nefarious use of cloud services
- D. Insufficient due diligence

**Answer: C**

Explanation:

James's activities, including creating anonymous access to cloud services to carry out attacks such as password and key cracking, hosting malicious data, and conducting DDoS attacks, exemplify the abuse and nefarious use of cloud services. This threat involves exploiting cloud computing resources to conduct malicious activities, which can impact the cloud service provider as well as other users of the cloud services.

This abuse ranges from using the cloud platform's resources for computationally intensive tasks like cracking passwords or encryption keys to conducting DDoS attacks that can disrupt services for legitimate users.

References: The Incident Handler (ECIH v3) certification emphasizes understanding cloud-specific security challenges, including the abuse of cloud services, and recommends strategies for mitigating such risks, highlighting the need for comprehensive security measures to protect cloud environments.

### NEW QUESTION # 100

Which of the following is an Inappropriate usage incident?

- A. Access-control attack
- B. Denial-of-service attack
- C. Reconnaissance attack
- **D. Insider threat**

**Answer: D**

Explanation:

An Inappropriate Usage incident refers to instances where computing resources are misused or abused, often violating organizational policies or laws. While access-control attacks, reconnaissance attacks, and denial-of-service (DoS) attacks represent different types of external threats or methods of attack, an Insider Threat is an example of inappropriate usage. Insider threats come from individuals within the organization, such as employees or contractors, who misuse their access to harm the organization's interests. This can include stealing confidential information, intentionally disrupting systems, or other malicious activities that leverage their legitimate access to the organization's resources. References: EC-Council's Incident Handler (ECIH v3) materials often discuss various types of security incidents, including inappropriate usage, and emphasize the importance of recognizing and preparing for insider threats as a critical component of an organization's incident response strategy.

#### **NEW QUESTION # 101**

Ikeo Corp. hired an incident response team to assess the enterprise security. As part of the incident handling and response process, the IR team is reviewing the current security policies implemented by the enterprise. The IR team finds that employees of the organization do not have any restrictions on Internet access: they are allowed to visit any site, download any application, and access a computer or network from a remote location. Considering this as the main security threat, the IR team plans to change this policy as it can be easily exploited by attackers.

Which of the following security policies is the IR team planning to modify?

- A. Permissive policy
- B. Paranoid policy
- **C. Promiscuous policy**
- D. Prudent policy

**Answer: C**

#### **NEW QUESTION # 102**

Nervous Nat often sends emails with screenshots of what he thinks are serious incidents, but they always turn out to be false positives. Today, he sends another screenshot, suspecting a nation-state attack. As usual, you go through your list of questions, check your resources for information to determine whether the screenshot shows a real attack, and determine the condition of your network. Which step of IR did you just perform?

- **A. Detection and analysis (or identification)**
- B. Remediation
- C. Preparation
- D. Recovery

**Answer: A**

#### **NEW QUESTION # 103**

.....

The ExamPrepAway is committed to making the Channel Partner Program 212-89 exam preparation journey simple, smart, and swift. To meet this objective the ExamPrepAway is offering EC-COUNCIL 212-89 practice exam questions with top-rated features. These features are updated and real EC Council Certified Incident Handler (ECIH v3) 212-89 exam questions, availability of Channel Partner Program EC Council Certified Incident Handler (ECIH v3) 212-89 Exam real questions in three easy-to-use and compatible formats, three months free updated EC Council Certified Incident Handler (ECIH v3) 212-89 exam questions download facility, affordable price and 100 percent EC Council Certified Incident Handler (ECIH v3) 212-89 exam passing money back guarantee.
