

Free Download OGEA-101 Test Certification Cost - How to Download for OGEA-101 Exam Flashcards Free of Charge

What's more, part of that FreeCram OGEA-101 dumps now are free: https://drive.google.com/open?id=1dYojqN2W_EE48FBnaomX3gK2YSR9eGqM

At the FreeCram, we guarantee that our customers will receive the best possible TOGAF Enterprise Architecture Part 1 Exam (OGEA-101) study material to pass the The Open Group OGEA-101 certification exam with confidence. Joining this site for the OGEA-101 Exam Preparation would be the greatest solution to the problem of outdated material.

FreeCram insists on providing you with the best and high quality exam dumps, aiming to ensure you 100% pass in the actual test. Being qualified with The Open Group certification will bring you benefits beyond your expectation. Our The Open Group OGEA-101 practice training material will help you to enhance your specialized knowledge and pass your actual test with ease. OGEA-101 Questions are all checked and verified by our professional experts. Besides, the OGEA-101 answers are all accurate which ensure the high hit rate.

New OGEA-101 Test Certification Cost 100% Pass | Professional OGEA-101: TOGAF Enterprise Architecture Part 1 Exam 100% Pass

To meet the needs of users, and to keep up with the trend of the examination outline, our products will provide customers with latest version of our products. Our company's experts are daily testing our OGEA-101 study guide for timely updates. So we solemnly promise the users, our products make every effort to provide our users with the latest learning materials. As long as the users choose to purchase our OGEA-101 Exam Dumps, there is no doubt that he will enjoy the advantages of the most powerful update. Most importantly, these continuously updated systems are completely free to users. As long as our OGEA-101 learning material updated, users will receive the most recent information from our OGEA-101 learning materials. So, buy our products immediately!

The Open Group TOGAF Enterprise Architecture Part 1 Exam Sample Questions (Q91-Q96):

NEW QUESTION # 91
Exhibit

Consider the illustration showing an architecture development cycle. Which description matches the phase of the ADM labeled as item 1?

- A. Establishes procedures for managing change to the new architecture
- **B. Operates the process of managing architecture requirements**
- C. Provides architectural oversight for the implementation
- D. Conducts implementation planning for the architecture defined in previous phases

Answer: B

Explanation:

The illustration shows an architecture development cycle based on the TOGAF ADM (Architecture Development Method), which is a method for developing and managing an enterprise architecture.

The ADM consists of nine phases, each with a specific purpose and output. The phases are:

Preliminary Phase: To prepare and initiate the architecture development cycle, including defining the architecture framework, principles, and governance.

Phase A: Architecture Vision: To define the scope, vision, and stakeholders of the architecture initiative, and to obtain approval to proceed.

Phase B: Business Architecture: To describe the baseline and target business architecture, and to identify the gaps between them.

Phase C: Information Systems Architectures: To describe the baseline and target data and application architectures, and to identify the gaps between them.

Phase D: Technology Architecture: To describe the baseline and target technology architecture, and to identify the gaps between them.

Phase E: Opportunities and Solutions: To identify and evaluate the opportunities and solutions for implementing the target architecture, and to define the work packages and transition architectures.

Phase F: Migration Planning: To finalize the implementation and migration plan, and to ensure alignment with the enterprise portfolio and project management.

Phase G: Implementation Governance: To provide architecture oversight and guidance for the implementation projects, and to manage any architecture change requests.

Phase H: Architecture Change Management: To monitor the changes in the business and technology environment, and to assess the impact and performance of the architecture.

In addition to these phases, there is a central process called Requirements Management, which is labeled as item 1 in the illustration. This process operates throughout the ADM cycle, and its purpose is to manage the architecture requirements throughout the architecture development, ensuring that they are aligned with the business requirements and the stakeholder concerns².

Therefore, the description that matches the phase of the ADM labeled as item 1 is C. Operates the process of managing architecture requirements.

2: The TOGAF Standard, Version 9.2, Chapter 17: Requirements Management

NEW QUESTION # 92

Consider the illustration.

What are the items labelled A, B and C?

- A. A-Enterprise Continuum, B-Architecture Continuum, C-Solutions Continuum
- B. A-Architecture Vision, B-Business Architecture, C-Information Systems Architecture
- C. A-Enterprise Architecture, B-Architecture Building Blocks, C-Solutions Building Blocks
- D. A-Enterprise Strategic Architecture, B-Segment Architecture, C-Solutions Architecture

Answer: A

Explanation:

The illustration shows the relationship between the Enterprise Continuum, the Architecture Continuum, and the Solutions Continuum, which are key concepts in the TOGAF framework. The Enterprise Continuum is a view of the Architecture Repository that shows how generic foundation architectures can be leveraged and specialized to support the requirements of an individual organization. The Architecture Continuum specifies a structured classification for architectural artifacts, such as models, patterns, and descriptions, that can be reused and adapted across different domains and levels of abstraction. The Solutions Continuum identifies implemented solutions that support various stages of business and IT capability evolution, such as common systems, industry solutions, and organization-specific solutions. The illustration also shows how the architecture context and requirements are influenced by external factors, such as business drivers, stakeholders, and standards, and how they shape the generic and specific architectures and solutions. The illustration also shows how the deployed solutions become part of the architecture context for future iterations of the

architecture development cycle. References:

*TOGAF Standard, 10th Edition, Part II: Architecture Development Method, Chapter 6: Architecture Repository, Section 6.2 Enterprise Continuum

*TOGAF Standard, 10th Edition, Part IV: Architecture Content Framework, Chapter 35: Enterprise Continuum and Tools, Section 35.1 Introduction.

NEW QUESTION # 93

Complete the sentence. The dimensions used to scope an architecture are time period, depth, and

- A. capability, budget
- **B. breadth, architecture domains**
- C. operating model, resources
- D. strategy, cost

Answer: B

Explanation:

When scoping an architecture in TOGAF, three key axes (dimensions) are used to frame the extent of the architecture work. The first is time period (how far into the future or over what timeframe to plan). The second is depth-how detailed or granular the architecture models will be (e.g., high level, mid level, very detailed). The third is breadth, which refers to which parts (domains, business units, functions) of the enterprise will be included, and which architecture domains (business, data, application, technology) will be in scope. This triple#dimension model helps architects, stakeholders, and governance bodies understand how wide, deep, and forward#looking the architecture effort will be. Thus "breadth, architecture domains" is the correct third dimension.

NEW QUESTION # 94

Complete the sentence The Architecture Landscape is divided into levels known as _____.

- A. Baseline. Transition and To Be Architectures
- **B. Segment Strategic and Capability Architectures**
- C. Gaps Plateaus, and Target Architectures
- D. Transitional Complete and incremental Architectures

Answer: B

Explanation:

The Architecture Landscape is divided into levels known as Segment Strategic and Capability Architectures. These levels correspond to different scopes and purposes of architectures within an enterprise. Segment Architectures are architectures that address specific business units, functions, or processes within an enterprise. Strategic Architectures are architectures that provide a high-level view of the enterprise's vision, goals, and direction. Capability Architectures are architectures that address specific business capabilities or services that span multiple segments or domains. Reference: The TOGAF Standard | The Open Group Website, Section 2.4 Architecture Repository.

NEW QUESTION # 95

Complete the sentence. Risk management involves: risk classification, identification,

- **A. assessment, monitoring, mitigation and**
- B. auditing, evaluation
- C. reporting, treatment
- D. measurement, response

Answer: A

Explanation:

In TOGAF's treatment of risk within architecture governance and ADM Guidelines & Techniques, risk management is seen as a continuous process including several phases. First one classifies potential risk types. Then one identifies specific risks. After identification comes assessment (evaluating likelihood and impact), monitoring (tracking over time), mitigation (taking actions to reduce the risk), and related response or treatment options to decide what to do with residual risk. That sequence-classification, identification, assessment, monitoring, mitigation, and response-completes the risk management life

cycle. It does not stop at evaluation or reporting; it includes active monitoring, control, and reaction to risks over time.

NEW QUESTION # 96

.....

Our company is a professional certificate study materials provider. We have occupied in this field for years, we are in the leading position of providing exam materials. OGEA-101 training materials of us is high-quality and accurate, for we have a profession team to verify and update the OGEA-101 answers and questions. We have received many good feedbacks from our customers for helping pass the exam successfully. Furthermore, we provide you free update for one year after purchasing OGEA-101 exam dumps from us.

OGEA-101 Exam Flashcards: <https://www.freecram.com/TheOpenGroup-certification/OGEA-101-exam-dumps.html>

Our product is available in The Open Group OGEA-101 dumps PDF, a desktop The Open Group OGEA-101 dumps practice test, and a web-based The Open Group OGEA-101 dumps practice test, This software is very beneficial for all those applicants who want to prepare in a scenario which is similar to the OGEA-101 Exam Flashcards - TOGAF Enterprise Architecture Part 1 Exam real examination, If the OGEA-101 braindumps products fail to deliver as promised, then you can get your money back.

Adjust the handles to fine-tune the area to be OGEA-101 Exam Flashcards cropped, Timing and selection cream investors over time, Our product is available in The Open Group OGEA-101 dumps PDF, a desktop The Open Group OGEA-101 Dumps practice test, and a web-based The Open Group OGEA-101 dumps practice test.

Free PDF OGEA-101 - TOGAF Enterprise Architecture Part 1 Exam Accurate Test Certification Cost

This software is very beneficial for all OGEA-101 those applicants who want to prepare in a scenario which is similar to the TOGAF Enterprise Architecture Part 1 Exam real examination, If the OGEA-101 braindumps products fail to deliver as promised, then you can get your money back.

Nowadays, seldom do the exam banks have such an integrated system OGEA-101 Exam Flashcards to provide you a simulation test, Never worry, we can offer 3 different versions for you to choose: PDF, Soft and APP versions.
