

# SAP C-S4PM-2504 Vce Test Simulator - Test C-S4PM-2504 Prep

BONUS!!! Download part of Prep4sureGuide C-S4PM-2504 dumps for free: <https://drive.google.com/open?id=1Ud-uM2GsnYH8LjoDCW2Tkwyg5NDyvJxQ>

Maybe you often come up with great new ideas from daydream, but you can not do anything. Do you have some trouble passing SAP C-S4PM-2504 Exam? Turn on your computer, click Prep4sureGuide. Then, you will find the dumps torrent you need. After you purchase our products, we provide free updates for a year. 100% guarantee to get the certification.

## SAP C-S4PM-2504 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>• SAP Activate Methodology: This section of the exam measures skills of Business Process Architects and covers the structure and practical application of SAP Activate. It includes understanding the phases of the methodology: Discover, Prepare, Explore, Realize, Deploy, and Run, and the use of supporting tools such as SAP Roadmap Viewer and SAP Best Practices. Candidates are expected to demonstrate the ability to apply this methodology to streamline cloud implementation processes and ensure agile delivery.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>• SAP S</li><li>• 4HANA Cloud Public Edition Implementation: This section of the exam measures the skills of Implementation Consultants and covers the foundational aspects of deploying SAP S</li><li>• 4HANA Cloud Public Edition in a business environment. It focuses on understanding system architecture, scope definition, and the technical and functional setup required for a successful implementation. The candidate is expected to have a strong grasp of how to execute the necessary configuration and adoption tasks that align with customer-specific requirements.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>• Project Management</li><li>• Organizational Change Management (OCM): This section of the exam measures the skills of Project Managers and covers the key principles of managing SAP cloud implementation projects, including team coordination, stakeholder communication, and change management. It evaluates the ability to lead project activities, manage expectations, and handle resistance during digital transformation. Emphasis is placed on aligning organizational goals with implementation strategies to ensure effective user adoption and project success.</li></ul>

## Test C-S4PM-2504 Prep, C-S4PM-2504 Free Exam Questions

With only one SAP C-S4PM-2504 exam you can do this job nicely and easily. To do this just enroll in the SAP C-S4PM-2504

certification exam and download the updated and real SAP C-S4PM-2504 Exam now and start this journey today. We are quite confident that with C-S4PM-2504 exam dumps you can pass the upcoming SAP Certified Associate - Managing SAP S/4HANA Cloud Public Edition Projects exam in the first attempt.

## SAP Certified Associate - Managing SAP S/4HANA Cloud Public Edition Projects Sample Questions (Q60-Q65):

### NEW QUESTION # 60

Which of the following Accelerators can you find in the SAP Signavio Process Navigator? Note: There are 2 correct answers to this question.

- A. Test Script
- B. Process Diagram
- C. Data Migration plan
- D. Stakeholder Identification Guide

**Answer: A,B**

Explanation:

SAP Signavio Process Navigator is a tool that provides access to SAP Best Practice process models and accelerators to support SAP S/4HANA Cloud Public Edition implementations, particularly during the Explore phase for process validation.

\* Option A: Data Migration plan Incorrect. Data migration plans are managed through the SAP S

/4HANA Migration Cockpit, not SAP Signavio Process Navigator. The SAP S/4HANA Cloud Migration Guide states, "Data migration plans are created using the Migration Cockpit, not included as accelerators in SAP Signavio Process Navigator."

\* Option B: Stakeholder Identification Guide Incorrect. Stakeholder identification guides are part of organizational change management (OCM) accelerators, typically found in SAP Cloud ALM or SAP Activate resources, not SAP Signavio. The SAP S/4HANA Cloud OCM Guide notes, "Stakeholder identification guides are OCM tools, not part of SAP Signavio Process Navigator's process-focused accelerators."

\* Option C: Test Script Correct. SAP Signavio Process Navigator includes test scripts to support process validation and testing. The SAP Signavio Documentation explains, "SAP Signavio Process Navigator provides accelerators like test scripts, which outline steps to validate SAP Best Practice processes during implementation."

\* Option D: Process Diagram Correct. Process diagrams, often in BPMN format, are core accelerators in SAP Signavio Process Navigator, illustrating standard processes. The SAP S/4HANA Cloud Implementation Guide confirms, "SAP Signavio Process Navigator offers process diagrams as accelerators, providing visual representations of SAP Best Practices to support Fit-to-Standard workshops." Extract from Official Documentation:

\* SAP Signavio Documentation (SAP Help Portal, <https://help.sap.com>): "SAP Signavio Process Navigator includes accelerators such as test scripts and process diagrams, which support process validation and implementation planning for SAP S/4HANA Cloud Public Edition."

\* SAP S/4HANA Cloud Implementation Guide (SAP Community, <https://community.sap.com>):

"Accelerators in SAP Signavio Process Navigator, including process diagrams and test scripts, enable teams to understand and validate SAP Best Practice processes during the Explore phase." Additional Context:

SAP Signavio Process Navigator enhances the Fit-to-Standard process by providing visual and actionable accelerators like process diagrams and test scripts, which help customers align their requirements with SAP Best Practices, ensuring a standardized and efficient implementation.

:

SAP Help Portal: SAP Signavio Documentation (<https://help.sap.com>).

SAP Community: SAP S/4HANA Cloud Implementation Guide (<https://community.sap.com>).

SAP S/4HANA Cloud Study Guide: Details Signavio accelerators.

SAP Activate Methodology: Outlines process validation tools.

### NEW QUESTION # 61

In which phase do you verify the SAP Best Practices content that meets the customer's business needs, and capture delta requirements? Note: There are 2 correct answers to this question.

- A. Realize
- B. Explore
- C. Prepare
- D. Discovery

**Answer: B,D**

Explanation:

Verifying SAP Best Practices content and capturing delta requirements are critical activities in the SAP Activate methodology to ensure the SAP S/4HANA Cloud Public Edition solution aligns with customer needs. These activities occur in specific phases to set the project scope and identify gaps.

\* Option A: ExploreCorrect. The Explore phase involves Fit-to-Standard workshops where SAP Best Practices are verified against customer needs, and delta requirements (gaps) are captured. TheSAP S

/4HANA Cloud Implementation Guidestates, "In the Explore phase, Fit-to-Standard workshops verify SAP Best Practices content to meet customer business needs and capture delta requirements for further configuration."

\* Option B: DiscoveryCorrect. The Discovery phase uses tools like the Digital Discovery Assessment to initially verify Best Practices and identify high-level delta requirements. TheSAP Activate Methodology Guideexplains, "During the Discovery phase, customers verify SAP Best Practices content through assessments like the Digital Discovery Assessment, capturing preliminary delta requirements to define the project scope."

\* Option C: RealizeIncorrect. The Realize phase focuses on configuring the solution and addressing delta requirements, not verifying Best Practices. TheSAP S/4HANA Cloud Study Guidenotes, "Realize phase activities build on the delta requirements captured in Explore, not verifying Best Practices content."

\* Option D: PrepareIncorrect. The Prepare phase sets up the project and initiates change management, not verifies Best Practices or captures delta requirements. TheSAP Activate Methodology Guide clarifies, "The Prepare phase focuses on project setup and planning, with Best Practices verification occurring in Discovery and Explore." Extract from Official Documentation:

\* SAP S/4HANA Cloud Implementation Guide(SAP Help Portal,<https://help.sap.com>): "The Explore phase verifies SAP Best Practices content through Fit-to-Standard workshops, capturing delta requirements, while the Discovery phase initiates this process with tools like the Digital Discovery Assessment."

\* SAP Activate Methodology Guide(SAP Community,<https://community.sap.com>): "In the Discovery phase, customers use assessments to verify Best Practices and identify delta requirements, followed by detailed validation and gap capture in the Explore phase's Fit-to-Standard process." Additional Context:

The Discovery phase provides a high-level validation of Best Practices to scope the project, while the Explore phase dives deeper through Fit-to-Standard workshops, ensuring a comprehensive understanding of gaps. This two-phase approach aligns with SAP's cloud mindset, emphasizing standard processes and early identification of necessary customizations to streamlineimplementation.

SAP Help Portal: SAP S/4HANA Cloud Implementation Guide (<https://help.sap.com>).

SAP Community: SAP Activate Methodology Guide (<https://community.sap.com>).

SAP S/4HANA Cloud Study Guide: Details phase activities.

SAP Digital Discovery Assessment Guide: Outlines Discovery phase tasks.

## NEW QUESTION # 62

When estimating effort required for an SAP S/4HANA Cloud Public Edition implementation project, what can you use to validate your estimates? Note: There are 2 correct answers to this question.

- A. Existing WBS structures
- B. Integration scenarios via the Business Accelerator Hub
- C. Joule studio
- D. The Digital Discovery Assessment

Answer: A,D

## NEW QUESTION # 63

Why does SAP recommend to document alternative processes when implementing SAP S/4HANA Cloud Public Edition?

- A. To allow the system to be fully customized for the customer
- B. To ensure alternative processes are permanently used instead of standard features
- C. To allow for future deprecation of alternative processes when standard solutions become available
- D. To suggest new feature alternative business processes for SAP inclusion in future upgrades

Answer: C

Explanation:

Documenting alternative processes during SAP S/4HANA Cloud Public Edition implementation is a best practice to manage deviations from SAP Best Practices while maintaining a cloud-compliant approach.

\* Option A: To allow for future deprecation of alternative processes when standard solutions become availableCorrect.

Documenting alternative processes enables customers to transition to standard processes in future releases, reducing customizations. The SAP S/4HANA Cloud Implementation Guide states, "SAP recommends documenting alternative processes to facilitate their deprecation when standard solutions become available in future upgrades, aligning with the cloud mindset."

\* Option B: To suggest new feature alternative business processes for SAP inclusion in future upgrades Incorrect. Alternative processes are for customer-specific needs, not for suggesting features to SAP. The SAP Activate Methodology Guide notes, "Alternative processes are documented for customer use, not for proposing new features, which is handled through SAP's innovation feedback process."

\* Option C: To ensure alternative processes are permanently used instead of standard features Incorrect. The goal is to minimize deviations, not make alternative processes permanent. The SAP S/4HANA Cloud Study Guide clarifies, "Alternative processes are temporary solutions, with the aim of adopting standard processes as they become available."

\* Option D: To allow the system to be fully customized for the customer Incorrect. Full customization contradicts the cloud mindset of standardization. The SAP S/4HANA Cloud Implementation Guide explains, "Documenting alternative processes supports limited deviations, not full customization, to maintain cloud compliance." Extract from Official Documentation:

\* SAP S/4HANA Cloud Implementation Guide (SAP Help Portal, <https://help.sap.com>): "Documenting alternative processes allows customers to track deviations from SAP Best Practices, enabling future deprecation when standard solutions are introduced in subsequent releases, ensuring alignment with the cloud strategy."

\* SAP Activate Methodology Guide (SAP Community, <https://community.sap.com>): "Alternative processes are documented to manage temporary deviations, with the goal of transitioning to standard processes as they become available, reducing long-term customization." Additional Context:

SAP's cloud-first approach emphasizes standardization, and documenting alternative processes ensures transparency and flexibility, allowing customers to adopt standard solutions as they evolve, minimizing technical debt and maintenance costs.

:

SAP Help Portal: SAP S/4HANA Cloud Implementation Guide (<https://help.sap.com>).

SAP Community: SAP Activate Methodology Guide (<https://community.sap.com>).

SAP S/4HANA Cloud Study Guide: Explains alternative process management.

SAP Best Practices: Outlines cloud-compliant customization.

#### NEW QUESTION # 64

A mid-market customer wants to add a small sales agency (15 employees) office to their existing SAP S/4HANA Cloud Public Edition system. The sales agency is located in a country that was localized two years ago. The sales agency plans to use SAP Best Practice scope items and the org structure as is. The original Digital Discovery Assessment (DDA) did not identify any integration or extensibility requirements. Using the "Simple" configuration transport mode for the deployment of the sales agency, how should the project manager proceed?

- A. Plan the last active sprint for any previous deployment wave to be completed so that all open transports are released before turning on Simple Transport Mode via the Extensibility Settings App
- B. Plan the last active sprint for any previous deployment wave to be completed and fully tested before turning on Simple Transport Mode via the Export Software Collection App
- C. Plan the last active sprint for any previous deployment wave to be completed so that all open transports are released before turning on Simple Transport Mode via the Custom Logic App
- D. Plan to have multiple deployment waves open at the same time using both Simple and Flexible transport modes via the Export Software Collection App

**Answer: A**

#### NEW QUESTION # 65

.....

Many people dream about occupying a prominent position in the society and being successful in their career and social circle. Thus owning a valuable certificate is of paramount importance to them and passing the test C-S4PM-2504 certification can help them realize their goals. If you are one of them buying our C-S4PM-2504 Exam Prep will help you pass the C-S4PM-2504 exam successfully and easily. Our C-S4PM-2504 guide torrent provides free download and tryout before the purchase and our purchase procedures are safe.
