## LEED-Green-Associate Reliable Exam Price, Examcollection LEED-Green-Associate Vce

As you know, our v practice exam has a vast market and is well praised by customers. All you have to do is to pay a small fee on

our LEED-Green-Associate practice materials, and then you will have a 99% chance of passing the exam and then embrace a good life. We are confident that your future goals will begin with this successful exam. So choosing our LEED-Green-Associate Training Materials is a wise choice. Our LEED-Green-Associate practice materials will provide you with a platform of knowledge to help you achieve your dream.

## USGBC LEED Green Associate Exam Sample Questions (Q75-Q80):

### NEW QUESTION # 75

Which is an example of regenerative design?

- A. Passive house energy building
- B. A building with a recycling program
- C. A building that generates electricity and sends the excess to the grid
- D. A project that uses sustainable materials

**Answer: C**

Explanation:

Regenerative design is a type of design that goes beyond sustainability and aims to restore or enhance the natural systems that support life. Regenerative design projects not only minimize their environmental impact, but also contribute positively to the environment and society. An example of regenerative design is a building that generates electricity from renewable sources, such as solar panels or wind turbines, and sends the excess electricity to the grid, thereby reducing greenhouse gas emissions and supporting the transition to a clean energy economy.

### NEW QUESTION # 76

Which of the following processes should a project team use to establish synergy among systems and components?

- A. Integrative
- B. Comprehensive
- C. Interactive
- D. Systematic

**Answer: A**

Explanation:

The Integrative Process enables collaboration across disciplines from the earliest project phases, promoting synergy among systems and components. This leads to optimized performance and aligns with LEED's emphasis on holistic design.

### NEW QUESTION # 77

Which third party certification is recommended to use when specifying sustainable cleaning products?

- A. Green Seal<sup>®</sup>
- B. Design for the Environment
- C. Green Label Plus<sup>®</sup>
- D. Greenguard<sup>®</sup>

**Answer: A**

Explanation:

Explanation

Green Seal is a third-party certification program that evaluates the environmental impacts of cleaning products and services. It has standards for various categories of products, such as cleaners, paper products, hand soaps, and floor care. Green Seal certified products meet rigorous performance, health, and environmental criteria.

By using Green Seal certified products, projects can reduce the exposure of building occupants and maintenance personnel to potentially harmful chemicals, improve indoor air quality, and support sustainable purchasing practices. References: LEED v4

### NEW QUESTION # 78

What organization reviews and provides final LEED certification report to projects?

- A. U.S. Green Building Council
- B. Green Building Initiative (GBI)
- C. Green Business Certification Inc.
- D. ASHRAE

**Answer: C**

Explanation:

Explanation

The Green Business Certification Inc. (GBCI) reviews and provides the final LEED certification report to projects. GBCI was established in 2008 as a separately incorporated entity with the support of the U.S. Green Building Council (USGBC). GBCI administers project certifications for LEED and other green business certification programs. References: LEED Green Associate Candidate Handbook, U.S. Green Building Council resources

### NEW QUESTION # 79

Which of the following standards addresses guidance for sustainable construction in complying with building codes?

- A. ASHRAE 72
- B. ASHRAE 90.1
- C. ASHRAE 62.1
- D. ASHRAE 189.1

**Answer: D**

Explanation:

ASHRAE 189.1 is a standard that provides guidance for the design, construction, and operation of high-performance green buildings that comply with building codes and voluntary rating systems. The standard covers topics such as site sustainability, water efficiency, energy efficiency, indoor environmental quality, and the impact of materials and resources<sup>12</sup>. Reference: LEED v4 Green Associate Candidate Handbook<sup>1</sup>, ASHRAE's Standard 189.1<sup>2</sup>

### NEW QUESTION # 80

.....

In the process of using the LEED-Green-Associate study materials, once users have any questions about our study materials, the user can directly by E-mail us, our products have a dedicated customer service staff to answer for the user, they are 24 hours service for you, we are very welcome to contact us by E-mail and put forward valuable opinion for us. Our LEED-Green-Associate Study Materials already have many different kinds of learning materials, users may be confused about the choice, what is the most suitable LEED-Green-Associate study materials? Believe that users will get the most satisfactory answer after consultation.
