Do some fresh things each day that moves you out of your comfort zone. If you stay cozy every day, you will gradually become lazy. Now, you have the opportunity to change your current conditions. Our CMMC-CCP real exam dumps are specially prepared for you. Try our CMMC-CCP study tool and absorb new knowledge. After a period of learning, you will find that you are making progress. The knowledge you have studied on our CMMC-CCP Exam Question will enrich your life and make you wise. Do not reject challenging yourself. Your life will finally benefit from your positive changes. Let us struggle together and become better. Then you will do not need to admire others' life. Our CMMC-CCP real exam dumps will fully change your life.

## Cyber AB CMMC-CCP Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li><b>CMMC Assessment Process (CAP):</b> This section of the exam measures the planning and execution skills of audit and assessment professionals, covering the end-to-end CMMC Assessment Process. This includes planning, executing, documenting, reporting assessments, and managing Plans of Action and Milestones (POA&amp;M) in alignment with DoD and CMMC-AB methodology.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li><b>CMMC Ecosystem:</b> This section of the exam measures the skills of consultants and compliance professionals and focuses on the different roles and responsibilities across the CMMC ecosystem. Candidates must understand the functions of entities such as the Department of Defense, CMMC-AB, Organizations Seeking Certification, Registered Practitioners, and Certified CMMC Professionals, as well as how the ecosystem supports cybersecurity standards and certification.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li><b>Scoping:</b> This section of the exam measures the analytical skills of cybersecurity practitioners, highlighting their ability to properly define assessment scope. Candidates must demonstrate knowledge of identifying and classifying Controlled Unclassified Information (CUI) assets, recognizing the difference between in-scope, out-of-scope, and specialized assets, and applying logical and physical separation techniques to determine accurate scoping for assessments</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li><b>CMMC-AB Code of Professional Conduct (Ethics):</b> This section of the exam measures the integrity of cybersecurity professionals by evaluating their understanding of the CMMC-AB Code of Professional Conduct. It emphasizes ethical responsibilities, including confidentiality, objectivity, professionalism, conflict-of-interest avoidance, and respect for intellectual property, ensuring candidates can uphold ethical standards throughout their CMMC-related duties.</li> </ul>

## Cyber AB CMMC-CCP Valid Exam Objectives & Real CMMC-CCP Exam Dumps

The evergreen field of Cyber AB is so attractive that it provides non-stop possibilities for the one who passes the Cyber AB CMMC-CCP exam. So, to be there on top of the IT sector, earning the Certified CMMC Professional (CCP) Exam (CMMC-CCP) certification is essential. Because of using outdated CMMC-CCP Study Material, many candidates don't get success in the CMMC-CCP exam and lose their resources. The CMMC-CCP PDF Questions of DumpsReview are authentic and real.

### Cyber AB Certified CMMC Professional (CCP) Exam Sample Questions (Q55-Q60):

#### NEW QUESTION # 55

A Level 2 Assessment of an OSC is winding down and the final results are being prepared to present to the OSC. When should the final results be delivered to the OSC?

- A. At the end of every day of the assessment
- B. Either after approval from the C3PAO, or during a separately scheduled final recommended findings review
- C. Either at the final Daily Checkpoint, or during a separately scheduled findings and recommendation review
- D. Daily and during a final separately scheduled review

**Answer: C**

Explanation:

Understanding the Reporting Process in a CMMC 2.0 Level 2 Assessment A CMMC Level 2 Assessment conducted by a Certified Third-Party Assessor Organization (C3PAO) follows a structured approach to gathering evidence, evaluating compliance, and reporting findings to the Organization Seeking Certification (OSC). The reporting process is outlined in the CMMC Assessment Process (CAP) Guide, which specifies how findings should be communicated.

Daily Checkpoints:

Throughout the assessment, the assessor team holds daily checkpoint meetings with the OSC to provide updates on progress, observations, and preliminary findings.

These checkpoints help ensure transparency and allow the OSC to address minor issues as they arise.

Final Results Delivery:

The final assessment results are typically shared during the final daily checkpoint OR in a separately scheduled findings and recommendations review meeting.

This ensures that the OSC receives a structured and complete summary of the assessment findings before the official report is submitted.

The CMMC Assessment Process (CAP) Guide, Section 4.5 clearly states that assessment findings should be presented either at the last daily checkpoint or during a separately scheduled final review.

This aligns with best practices for maintaining transparency and ensuring the OSC has clarity on their assessment results before the final report submission.

Option A (End of every day) is incorrect because while assessors do provide updates, they do not deliver the "final results" daily.

Option B (Daily and a separate final review) is misleading, as the CAP Guide allows assessors to choose between the final daily checkpoint OR a separate findings review-not both.

Option D (After C3PAO approval) is incorrect because the C3PAO does not approve findings before they are communicated to the OSC. The assessment team directly presents the results first.

CMMC Assessment Process (CAP) Guide, Section 4.5: Reporting and Findings Communication CMMC 2.0 Level 2 Assessment Process Overview CMMC Assessment Final Report Guidelines Assessment Communication Structure Why Option C is Correct Official CMMC Documentation References Final Verification Based on official CMMC 2.0 documentation, the final assessment results should be presented to the OSC either at the last daily checkpoint or in a separately scheduled review session, making Option C the correct answer.

#### NEW QUESTION # 56

Who is responsible for identifying and verifying Assessment Team Member qualifications?

- A. Lead Assessor

- B. C3PAO
- C. CMMC-AB
- D. CMMC Marketplace

**Answer: A**

Explanation:

Understanding the Role of the Lead Assessor in CMMC Assessments The Lead Assessor is responsible for managing the Assessment Team and ensuring that all team members meet the required qualifications as defined by the CMMC Accreditation Body (CMMC-AB) and the Cybersecurity Maturity Model Certification (CMMC) Assessment Process (CAP) Guide.

\* Lead Assessor's Key Responsibilities (Per CAP Guide)

\* Verify team member qualifications to ensure compliance with CMMC-AB guidelines.

\* Assign appropriate assessment tasks based on team members' expertise.

\* Ensure that the assessment is conducted in accordance with CMMC procedures.

\* Why Not the Other Options?

\* A. C3PAO (Certified Third-Party Assessor Organization) #Incorrect

\* A C3PAO is responsible for organizing assessments and ensuring their execution, but it does not verify individual team member qualifications—that responsibility belongs to the Lead Assessor.

\* B. CMMC-AB (CMMC Accreditation Body) #Incorrect

\* The CMMC-AB establishes training and certification requirements, but it does not verify individual assessment team members—that responsibility is given to the Lead Assessor.

\* D. CMMC Marketplace #Incorrect

\* The CMMC Marketplace lists authorized C3PAOs, Registered Practitioners (RPs), and Certified Professionals (CCPs) but does not verify assessment team qualifications.

\* CMMC Assessment Process (CAP) Guide- Defines the Lead Assessor's responsibility for verifying assessment team qualifications.

\* CMMC-AB Certification Guide- Specifies that the Lead Assessor must ensure all assessment team members meet CMMC-AB qualification standards.

Why the Correct Answer is "C. Lead Assessor"? Relevant CMMC 2.0 References: Final Justification:

Since the Lead Assessor is responsible for verifying assessment team member qualifications, the correct answer is C. Lead Assessor.

## NEW QUESTION # 57

What type of criteria is used to answer the question "Does the Assessment Team have the right evidence?"

- A. Sufficiency criteria
- B. Objectivity criteria
- C. Subjectivity criteria
- D. Adequacy criteria

**Answer: A**

Explanation:

In the context of CMMC 2.0 assessments, the sufficiency criteria are used to determine whether the assessment team has gathered enough evidence to support their conclusions about compliance with a given requirement.

\* Definition of Sufficiency Criteria:

\* Sufficiency refers to the quantity and completeness of the evidence collected during an assessment.

\* This ensures that the evidence collected is enough to support an objective and valid determination of compliance.

\* Why Sufficiency Matters in CMMC 2.0:

\* Assessors must ensure that the amount of evidence collected is adequate to substantiate findings without doubt or gaps.

\* This prevents situations where an organization might claim compliance but lacks the necessary documentation, technical evidence, or procedural validation to prove it.

\* Official CMMC 2.0 References:

\* The CMMC Assessment Process (CAP) Guide defines sufficiency as a key factor in validating assessment findings.

\* According to CMMC 2.0 Level 2 Scoping Guidance, assessors must apply sufficiency criteria when reviewing artifacts, documentation, interviews, and system configurations.

\* The DoD CMMC Assessment Guide (aligned with NIST SP 800-171A) emphasizes that compliance decisions must be supported by a sufficient amount of verifiable evidence.

\* Comparison with Other Criteria:

\* Adequacy Criteria # Focuses on quality of the evidence, not the quantity.

\* Objectivity Criteria # Ensures evidence is unbiased and impartial, not necessarily complete.

\* Subjectivity Criteria # Not applicable in CMMC since assessments must be objective and based on factual evidence.

Step-by-Step Breakdown: Conclusion: To verify compliance in CMMC 2.0 assessments, the assessment team must ensure sufficient evidence is available to support a determination. This makes "Sufficiency Criteria" (Option C) the correct answer.

#### NEW QUESTION # 58

The Audit and Accountability (AU) domain has practices in:

- A. Levels 1 and 3.
- **B. Level 2.**
- C. Level 1.
- D. Levels 1 and 2.

**Answer: B**

Explanation:

The Audit and Accountability (AU) domain is one of the 14 families of security requirements in NIST SP 800-171 Rev. 2, which is fully adopted by CMMC 2.0 Level 2.

\* A. Level 1 #Incorrect

\* CMMC Level 1 only includes 17 basic FAR 52.204-21 safeguarding requirements and does not cover Audit and Accountability (AU) practices.

\* B. Level 2 #Correct

\* The AU domain is required at Level 2, which aligns with NIST SP 800-171.

\* CMMC 2.0 Level 2 includes 110 security controls, among which AU-related controls focus on logging, monitoring, and accountability.

\* C. Levels 1 and 2 #Incorrect

\* Level 1 does not require audit and accountability practices.

\* D. Levels 1 and 3 #Incorrect

\* CMMC 2.0 only has Levels 1, 2, and 3, and AU is present in Level 2, making Level 3 irrelevant for this answer.

\* NIST SP 800-171 Rev. 2 (Audit and Accountability - Family 3.3)

\* The AU domain consists of security controls 3.3.1 - 3.3.8, focusing on audit log generation, retention, and accountability.

\* CMMC 2.0 Level 2 Practices (Aligned with NIST SP 800-171)

\* AU practices (Audit and Accountability) are only required at Level 2.

Analysis of the Given Options: Official References Supporting the Correct Answer: Conclusion: The AU domain applies only to CMMC 2.0 Level 2, making the correct answer:

#B. Level 2.

#### NEW QUESTION # 59

A CCP is working as an Assessment Team Member on a CMMC Level 2 Assessment. The Lead Assessor has assigned the CCP to assess the OSC's Configuration Management (CM) domain. The CCP's first interview is with a subject-matter expert for user-installed software. With respect to user-installed software, what facet should the CCP's interview focus on?

- A. Controlled and monitored
- B. Removed from the system
- **C. Limited to mission-essential use only**
- D. Scanned for malicious code

**Answer: C**

#### NEW QUESTION # 60

.....

Our CMMC-CCP training materials make it easier to prepare exam with a variety of high quality functions. We are committed to your achievements, so make sure you try preparation exam at a time to win. Our CMMC-CCP exam prep is of reasonably great position from highly proficient helpers who have been devoted to their quality over ten years to figure your problems out. Their quality function of our CMMC-CCP learning quiz is observably clear once you download them.
