High-quality ISO-IEC-27001-Foundation Online Test - Win Your APMG-International Certificate with Top Score

We have the ISO-IEC-27001-Foundation Questions and answers with high accuracy and timely update. Our professional team checks ISO-IEC-27001-Foundation answers and questions carefully with their professional knowledge. We also have the latest information about the exam center, and will update the version according to the new requirements. Pass guarantee and money back guarantee are also our principles, and if you have any questions, you can also consult the service staff.

APMG-International ISO/IEC 27001 (2022) Foundation Exam Sample Questions (Q21-Q26):

NEW QUESTION # 21

Who is required to ensure that staff are supported so that they can contribute to the information security management system?

- A. Top management of the organization
- B. Management responsible for each area of operation
- C. Auditors who audit each area of operation
- D. ISO/IEC 27001 practitioners within the organization

Answer: A

Explanation:

Clause 5.1 (Leadership and Commitment) requires that:

"Top management shall demonstrate leadership and commitment with respect to the information security management system by... ensuring that the resources needed for the ISMS are available... and supporting persons to contribute to the effectiveness of the ISMS." This makes it explicit that top management has the responsibility to ensure personnel are supported so they can contribute to the ISMS. Option B (line management) may provide local support, but ultimate accountability rests with top management. Auditors (C) only evaluate compliance, not provide support.

Practitioners (D) help implement, but they don't bear formal responsibility under the standard.

Thus, the verified answer is A: Top management of the organization.

NEW QUESTION # 22

Identify the missing word(s) in the following sentence.

When planning the ISMS, the organization is specifically required to plan actions to address risks and opportunities and how to [?] these actions.

- A. improve the effectiveness of
- B. apply competent resources to
- C. communicate
- D. evaluate the effectiveness of

Answer: D

Explanation:

Clause 6.1.1 (Planning) states:

"The organization shall plan:

d) actions to address these risks and opportunities; and

e) how to:

* integrate and implement the actions into its ISMS processes; and

* evaluate the effectiveness of these actions."

This confirms the missing words are "evaluate the effectiveness of". Communication (A), applying resources (B), and improving effectiveness (C) are important concepts elsewhere but not the direct requirement stated in this clause.

NEW QUESTION # 23

Which of the following statements about the differences between an internal audit and a certification audit is true?

An internal audit is conducted at planned intervals and a certification audit is conducted annually. An internal audit is known as a 1st party audit and a certification audit is known as a 3rd party audit.

- A. Only 1 is true
- **B. Only 2 is true**
- C. Neither 1 or 2 is true
- D. Both 1 and 2 are true

Answer: B

Explanation:

ISO/IEC 27001 Clause 9.2 requires internal audits to be conducted at planned intervals, but it does not specify an annual frequency. Certification audits, under ISO/IEC 17021 rules, typically occur on a 3-year cycle with annual surveillance, not strictly "annually." This makes statement 1 inaccurate.

Audit types are defined in ISO/IEC 19011:

First-party audits: conducted internally by or on behalf of the organization (internal audits).

Third-party audits: conducted by independent external certification bodies.

Thus, statement 2 is correct. Therefore, the accurate choice is B: Only 2 is true.

NEW QUESTION # 24

Which factor is required to be determined when understanding the organization and its context?

- A. The ISO/IEC 27001 clauses which apply to the management system
- B. The processes that will be required to operate the ISMS
- C. The information security objectives relevant to the ISMS
- **D. Internal issues affecting the purpose of the ISMS**

Answer: D

Explanation:

Clause 4.1 specifies exactly what must be determined when establishing context: "The organization shall determine external and internal issues that are relevant to its purpose and that affect its ability to achieve the intended outcome(s) of its information security management system." This requirement is about understanding internal and external issues (e.g., culture, capabilities, regulatory environment) that influence the ISMS's effectiveness. Objectives (option B) are addressed later in Clause 6.2; processes (option C) are addressed in Clause 4.4 and operational planning; and "which clauses apply" (option D) is not a determination step—ISO/IEC 27001's requirements in Clauses 4–10 are not optional. Therefore, the direct, required factor per 4.1 is determining internal (and external) issues relevant to the organization's purpose and ISMS outcomes.

NEW QUESTION # 25

Which action is an organization required to take to ensure that personnel are competent to perform their assigned tasks within the ISMS?

- **A. Hold up-to-date records on training, skills, experience and qualifications**
- B. Ensure that the controls for compliance with legal and contractual requirements are implemented
- C. Ensure all personnel are trained to ISO/IEC 27001 Foundation level
- D. Identify products which could be used in the organization to improve ISMS performance and effectiveness

Answer: A

Explanation:

Clause 7.2 (Competence) requires the organization to:

* "determine the necessary competence of person(s) doing work under its control that affects its information security performance;"

* "ensure that these persons are competent on the basis of appropriate education, training, or experience;"

* "retain appropriate documented information as evidence of competence." This makes holding up-to-date records on training, skills, experience, and qualifications (D) the correct answer. Option A is irrelevant to competence. Option B is incorrect since ISO does not require Foundation-level training - competence is context-based. Option C is related to compliance but does not ensure individual competence.
Thus, the verified correct answer is D.

NEW QUESTION # 26

.....

There are ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) exam questions provided in ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) PDF questions format which can be viewed on smartphones, laptops, and tablets. So, you can easily study and prepare for your ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) exam anywhere and anytime. You can also take a printout of these APMG-International PDF Questions for off-screen study. To improve the ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) exam questions, Itcertmaster always upgrades and updates its ISO-IEC-27001-Foundation dumps PDF format and it also makes changes according to the syllabus of the ISO/IEC 27001 (2022) Foundation Exam (ISO-IEC-27001-Foundation) exam
