Top New C-THR81-2505 Mock Test | High Pass-Rate SAP C-THR81-2505: SAP Certified Associate - SAP SuccessFactors Employee Central Core 100% Pass

This C-THR81-2505 exam material contains all kinds of actual SAP C-THR81-2505 exam questions and practice tests to help you to ace your exam on the first attempt. A steadily rising competition has been noted in the tech field. Countless candidates around the globe aspire to be SAP C-THR81-2505 individuals in this field.

SAP C-THR81-2505 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Scenario 2: Approvals for Self-Service: This section of the exam assesses the competency of SAP Consultants in configuring self-service approval workflows. It covers the setup of dynamic approval chains and ensures policy compliance for employee-initiated actions. The focus is on enabling seamless and scalable workflow automation tailored to organizational structures and user roles.
Topic 2	<ul style="list-style-type: none">Scenario 1: HR Transaction Rules: This section of the exam tests the proficiency of HRIS Analysts in applying HR transaction rules within the system. It focuses on the creation and use of business rules for automating actions, enforcing data accuracy, and streamlining HR processes. Candidates demonstrate the ability to define rule contexts and apply logic relevant to specific HR transactions.

Topic 3	<ul style="list-style-type: none"> Employee Central Core: This section of the exam measures the skills of HRIS Analysts and covers the essential components of the SAP SuccessFactors Employee Central Core module. It assesses the ability to configure foundational system features, including data models, business rules, event reasons, and workflows. Emphasis is placed on navigating the core employee data lifecycle, managing personal and employment information, and maintaining organizational structure within Employee Central.
Topic 4	<ul style="list-style-type: none"> Position Management: This section of the exam evaluates the knowledge of SAP Consultants in configuring and managing Position Management functionality. It focuses on understanding position hierarchy, relationship assignments, and synchronization with job information. Candidates are assessed on how effectively they support organizational planning through accurate position data setup and integration with other SAP modules.

SAP Certified Associate - SAP SuccessFactors Employee Central Core Sample Questions (Q27-Q32):

NEW QUESTION # 27

The HR admin has to change the salary of an employee, which will trigger a workflow for the employee's manager. The employee's manager should be able to edit the transaction if the proposed amount is NOT correct.

Where in the workflow do you need to define this?

Refer to the screenshot to answer the question

□

- A. No Approver Behavior
- B. Edit Transaction
- C. Context
- D. Respect Permission

Answer: B

Explanation:

To allow the employee's manager to edit a transaction in a workflow if the proposed salary change is incorrect, you must configure the "Edit Transaction" setting in the workflow.

The "Edit Transaction" option is part of the workflow configuration in Step 1 (as shown in the screenshot).

When enabled, it allows the approver (in this case, the manager) to make adjustments to the transaction before approving it.

Scenario 2: Approvals for Self-Service

NEW QUESTION # 28

In which of the following HRIS elements do you assign workflow derivation rules for new hires?

- A. Compensation Information
- B. Biographical Information
- C. Job Information
- D. Personal Information

Answer: C

Explanation:

Workflow derivation rules for new hires are assigned in the Job Information HRIS element.

The Job Information section contains employment-specific details and is the primary place where workflows for hiring processes are configured.

This ensures that workflows for approvals or other processes are correctly derived and triggered during the hire action.

NEW QUESTION # 29

How should you build the IF condition to identify the user when the employee is updating their own Personal Information?

□

- A. Option B
- B. Option C

- C. Option A
- D. Option D

Answer: B

Explanation:

To identify the user when the employee is updating their own personal information, the IF condition in Option C is correct. This configuration:

Checks if the Context.Current User is equal to the Login User.

Ensures that the rule applies only when the employee is making changes to their own personal data.

This approach is aligned with SAP SuccessFactors logic for self-service scenarios, enabling accurate identification of the user in such workflows.

Scenario 2: Approvals for Self-Service

NEW QUESTION # 30

Which rule can effectively catch all unspecified events in a transaction?

- A. Option C
- **B. Option B**
- C. Option A
- D. Option D

Answer: B

Explanation:

The rule in Option B effectively captures all unspecified events in a transaction because:

It sets the Event Reason Value to "Data Change" whenever the Event Reason Value is null.

This ensures that all unplanned or unspecified events are assigned a default action, which is crucial for maintaining data consistency and avoiding errors during transactions.

Scenario 1: HR Transaction Rules

NEW QUESTION # 31

You want the Timezone field to be pre-populated when the location record is changed in Job Info. How do you configure this?

- A. Base Object: Location; Assigned to Timezone field as onSave
- B. Base Object: Location; Assigned to Timezone field as onChange
- **C. Base Object: Job Information; Assigned to Location field as onChange**
- D. Base Object: Job Information; Assigned to Timezone field as onChange

Answer: C

Explanation:

To pre-populate the Timezone field when the location record is changed in Job Information, you need to configure the association as follows:

* Base Object: Job Information

* Trigger Event: Assigned to the Location field with the event set to onChange. This configuration ensures that whenever the Location field is updated in Job Information, the system triggers the logic to update and pre-populate the Timezone field based on the associated Location. The onChange event drives this functionality.

NEW QUESTION # 32

.....

With rapid development of IT industry, more and more requirements have been taken on those who are working in IT industry. So if you don't want to be eliminated in the competition, to pass C-THR81-2505 exam is a necessary for you.
