## Oracle Planning and Collaboration Cloud 2025 Implementation Professional Sample Questions (Q110-Q115):

### NEW QUESTION # 110

Planner 1 works in Europe and needs to see three measures in kilograms (the default UOM). Planner 2 is US- based and needs to see those same three measures in pounds. Both planners need to use five tables in their plan analyses on a regular basis. At the moment, all five tables are displayed in kilograms.

Which two options would most efficiently address this requirement?

- A. Duplicate all five tables, then format the three measures in the copied tables to be displayed in pounds.
- B. Planner 2 opens a table, formats each measure to be displayed in pounds. When Planner 1 opens the same table, they reformat back to be displayed in kilograms.
- C. There is no efficient solution to this requirement.
- D. Create duplicates of the three measures in Manage Planning Measures and change each new measure's UOM from

kilograms to pounds, then duplicate the five tables but use the new measures.

- E. Open each table and format measures to duplicate the three measures and then format the duplicated measures to be displayed in pounds.

**Answer: D,E**

Explanation:

The most efficient way to accommodate both planners' needs is to create duplicates of the required measures in pounds and then duplicate the tables to include the reformatted measures. This allows both planners to access tables in their preferred units without repetitive reformatting MY ORACLE SUPPORT

#### NEW QUESTION # 111

You plan to fulfill customer demand from internal organizations or from a contract manufacturer. Which are the four types of planned orders that can be generated?

- A. Return orders for items being manufactured in the contract manufacturer organization.
- B. Buy orders for components purchased at internal organizations and contract manufacturer organizations.
- C. Transfer orders for finished goods being transferred from contract manufacturer organizations to internal organizations.
- D. Transfer orders for internally owned components being transferred from contract manufacturer to internal organizations.
- E. Make orders for items being manufactured in the contract manufacturer organization.
- F. Transfer orders for internally owned components being transferred from internal organizations to contract manufacturer organizations.

**Answer: B,C,E,F**

Explanation:

For fulfilling customer demand through both internal and contract manufacturing, planned orders can include buy orders for components, make orders at contract manufacturers, and transfer orders to move components or finished goods between internal and contract manufacturing locations. Return orders are not applicable as they are typically used for returns rather than regular supply chain activities MY ORACLE SUPPORT

#### NEW QUESTION # 112

You've decided to opt into the Customer Demand Collaboration feature. Which three statements describe what that enables?

- A. The information they share with you is informational and only available to you in the portal.
- B. A customer can use B2B messaging to share their expected needs and historical consumption for the products you sell them.
- C. You can post to the portal your statistical forecast for the products you sell them so they can see your forecast for them.
- D. A customer can log in to a portal and manually enter their expected needs for the products you sell them.

**Answer: B,C,D**

Explanation:

The Customer Demand Collaboration feature enables customers to share their demand forecasts via B2B messaging or manually through a portal. Additionally, you can share your forecast with them through the portal, facilitating mutual insight into supply chain needs and expectations, as detailed in Oracle's customer demand collaboration features documentation MY ORACLE SUPPORT

#### NEW QUESTION # 113

Each of your planners is responsible for a different geography and set of product lines, so each planner needs to see just their own set of data, analyses and dashboards.
