DASCA SDS Pre-Exam Practice Tests | BraindumpsIT

P.S. Free & New SDS dumps are available on Google Drive shared by BraindumpsIT: https://drive.google.com/open?id=1qJeRTaQxi6EBsoxiUbHnvLwDZwQWIM-h

If you are preparing for the Senior Data Scientist (SDS) exam dumps our SDS Questions help you to get high scores in your DASCA SDS exam. Test your knowledge of the Senior Data Scientist exam dumps with BraindumpsIT DASCA SDS Practice Questions. The software is designed to help with SDS exam dumps preparation.

We are stable and Reliable SDS Exam Questions providers for persons who need them for their exam. We have been staying and growing in the market for a long time, and we will be here all the time, because our excellent quality and high pass rate. As for the safe environment and effective product, there are thousands of candidates are willing to choose our Senior Data Scientist study question, why don't you have a try for our study materials, never let you down!

>> SDS Exam Overview <<

Senior Data Scientist Updated Training Material & SDS Study Pdf Vce & Senior Data Scientist Actual Exam Questions

With the number of people who take the exam increasing, the SDS exam has become more and more difficult for many people. A growing number of people have had difficulty in preparing for the SDS exam, and they have a tendency to turn to the study materials. However, a lot of people do not know how to choose the suitable study materials. We are willing to recommend the SDS Study Materials from our company to you.

DASCA Senior Data Scientist Sample Questions (Q15-Q20):

NEW QUESTION # 15
HDFS supports which quotas?

- A. Space quotas
- B. Name quotas
- C. Both A and B
- D. None of the above

Answer: C

Explanation:
HDFS (Hadoop Distributed File System) provides quota management to control and monitor resource usage across directories:
Name Quotas (Option A): Limits the number of files and directories that can be created in a given HDFS directory. Helps prevent excessive metadata growth.
Space Quotas (Option B): Limits the total disk space consumed by files within a directory. Helps in capacity planning and avoiding

storage overuse.

Since HDFS supports both types, the correct answer is Option C (Both A and B).

Reference:

DASCA Data Scientist Knowledge Framework (DSKF) - Big Data Ecosystem: HDFS Management and Quotas.

NEW QUESTION # 16

Which of the following is a trend analysis component of time series decomposition?

- **A. All of the above**
- B. Seasonal
- C. Both A and B
- D. Cyclical
- E. Irregular

Answer: A

Explanation:

Time series decomposition breaks down data into components to better understand underlying patterns and support forecasting. The main components are:

Trend: Long-term progression (upward or downward).

Seasonal: Repeating short-term patterns (e.g., monthly or quarterly).

Cyclical (Option A): Medium- to long-term cycles (e.g., business cycles).

Irregular/Residual (Option C): Random, unpredictable variations.

Since trend analysis involves examining cyclical, seasonal, and irregular components, the correct answer is Option E (All of the above).

Reference:

DASCA Data Scientist Knowledge Framework (DSKF) - Analytics: Time Series Decomposition and Trend Analysis.

NEW QUESTION # 17

Which of the following is an SLAs specification in case of Internet Service Provider (ISP)?

- **A. All of the above**
- B. Mean Time To Recovery (MTTR)
- C. Turnaround Time (TAT)
- D. Mean Time Between Failures (MTBF)

Answer: A

Explanation:

Service Level Agreements (SLAs) define performance commitments between service providers (like ISPs) and customers. Key SLA metrics include:

MTBF (Option A): Measures reliability by defining the expected average time between service failures.

MTTR (Option B): Measures availability by defining how quickly service can be restored after a failure.

TAT (Option C): Measures responsiveness in resolving customer requests or incidents.

All three are standard SLA performance specifications. Hence, the correct answer is Option D (All of the above).

Reference:

DASCA Data Scientist Knowledge Framework (DSKF) - Data Engineering and IT Practices: SLAs and Performance Metrics.

NEW QUESTION # 18

Which of the following is an example of graphical model?

- A. Geographical Networks
- **B. Both A and B**
- C. Both A and C
- D. Bayesian Networks
- E. Markov Random Fields

Answer: B

Explanation:

Graphical models are probabilistic models that represent variables and dependencies using graphs:

Markov Random Fields (Option A): Undirected graphical models that capture joint distributions over variables with neighborhood dependencies.

Bayesian Networks (Option B): Directed acyclic graphical models that encode conditional dependencies between random variables.

Geographical Networks (Option C): While they are graphs, they are not probabilistic graphical models used in statistics/ML.

Thus, the correct answer is Option D (Both A and B).

Reference:

DASCA Data Scientist Knowledge Framework (DSKF) - Analytics: Graphical Models (Bayesian Networks & Markov Random Fields).

NEW QUESTION # 19

Which of the following is TRUE for Chief Data Monetization Officer (CDMO)?

i. CDMO should focus on driving and deriving value from the organization's data and analytic assets.

ii. The CDMO should own the organization's investment decisions with respect to data and analytics.

iii. CDMO should have revenue and margin responsibilities.

- A. All of the above
- B. ii, iii
- C. i, ii

Answer: A

Explanation:

The Chief Data Monetization Officer (CDMO) is a C-level executive role emerging in data-driven organizations. Their focus is on turning data into business value and revenue growth.

Statement i: Correct. The CDMO is responsible for value realization from data and analytics investments.

Statement ii: Correct. The CDMO owns decisions around investment prioritization for data initiatives.

Statement iii: Correct. Since monetization is directly linked to business performance, the CDMO must be accountable for revenue and margin impact.

Hence, all three statements are correct, making the right answer Option C (All of the above).
