P.S. Free & New FCSS\_SASE\_AD-25 dumps are available on Google Drive shared by FreeCram: [https://drive.google.com/open?id=1YkZtLsOeSf8g\\_2jNhJxoawCBAWKejnZQ](https://drive.google.com/open?id=1YkZtLsOeSf8g_2jNhJxoawCBAWKejnZQ)

It is universally accepted that the competition in the labor market has become more and more competitive in the past years. In order to gain some competitive advantages, a growing number of people have tried their best to pass the FCSS\_SASE\_AD-25 exam. Because a lot of people hope to get the certification by the related exam, now many leaders of companies prefer to the candidates who have the FCSS\_SASE\_AD-25 Certification. In their opinions, the certification is a best reflection of the candidates' work ability, so more and more leaders of companies start to pay more attention to the FCSS\_SASE\_AD-25 certification of these candidates.

## Fortinet FCSS\_SASE\_AD-25 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li><b>SASE Architecture and Components:</b> This section of the exam measures the skills of Network Engineers and introduces the fundamentals of SASE within enterprise environments. Candidates are expected to understand the SASE architecture, identify FortiSASE components, and build deployment cases for real-world scenarios. The content emphasizes how SASE can be integrated into a hybrid network, showcasing secure design principles and the use of FortiSASE capabilities to support business and security objectives.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li><b>SASE Deployment:</b> This section of the exam measures the knowledge of Implementation Consultants and focuses on the practical aspects of deploying FortiSASE. Candidates will explore user onboarding methods, configuration of administration settings, and the application of security posture checks with compliance rules. The exam also includes key functions such as SIA, SSA, and SPA, alongside the design of security profiles that perform effective content inspection. By combining these tasks, learners demonstrate readiness to roll out secure and scalable deployments.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li><b>Advanced FortiSASE Solutions:</b> This section of the exam measures the expertise of Solution Architects and validates the ability to work with advanced FortiSASE features. It covers deployment of SD-WAN using FortiSASE, implementation of Zero Trust Network Access (ZTNA), and the overall role of FortiSASE in optimizing enterprise connectivity. The section highlights how these advanced solutions improve flexibility, enforce zero-trust principles, and extend security controls across distributed networks and cloud systems.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li><b>Analytics and Monitoring:</b> This section of the exam measures the skills of Security Analysts and emphasizes the monitoring and reporting aspects of FortiSASE. Candidates are expected to configure dashboards, logging settings, and analyze reports for user traffic and security issues. Additionally, they must use FortiSASE logs to identify potential threats and provide insights into incidents or abnormal behavior. The focus is on leveraging analytics for operational visibility and strengthening the organization's security posture.</li> </ul>

A calm judgment is worth more than a thousand hasty discussions. I know that when you choose which our FCSS\_SASE\_AD-25 exam materials to buy, it will be very tangled up. This is a responsible performance for you. But you can't casually make a choice because of tangle. And our FCSS\_SASE\_AD-25 Study Materials won't let you regret. You can just free download the demos of the FCSS\_SASE\_AD-25 practice guide to have a check our quality.

### Fortinet FCSS - FortiSASE 25 Administrator Sample Questions (Q21-Q26):

#### NEW QUESTION # 21

When configuring FortiSASE administration settings, which option is critical for ensuring compliance with data protection regulations?

- A. Enabling file sharing
- B. Disabling encryption
- C. Setting up geographic restrictions
- D. Limiting the number of user sessions

**Answer: C**

#### NEW QUESTION # 22

Refer to the exhibit.

An organization must inspect all the endpoint internet traffic on FortiSASE, and exclude Google Maps traffic from the FortiSASE VPN tunnel and redirect it to the endpoint physical interface.

Which configuration must you apply to achieve this requirement?

- A. Add the Google Maps URL in the zero trust network access (ZTNA) TCP access proxy forwarding rule.
- B. Exempt Google Maps in URL filtering in the web filter profile.
- C. Configure a steering bypass tunnel firewall policy using Google Maps FQDN to exclude and redirect the traffic.
- D. Add the Google Maps URL as a steering bypass destination in the endpoint profile.

**Answer: D**

Explanation:

To exclude specific internet traffic (such as Google Maps) from being tunneled through FortiSASE and instead direct it out the local endpoint interface, you must configure it as a steering bypass destination in the FortiClient endpoint profile. This ensures traffic matching the URL bypasses the FortiSASE tunnel.

#### NEW QUESTION # 23

A customer wants to upgrade their legacy on-premises proxy to a cloud-based proxy for a hybrid network.

Which two FortiSASE features would help the customer achieve this outcome? (Choose two.)

- A. secure web gateway (SWG)
- B. zero trust network access (ZTNA)
- C. inline-CASB
- D. sandbox cloud

**Answer: A,C**

Explanation:

The secure web gateway (SWG) serves as the cloud-based proxy that inspects and controls web traffic, replacing the on-premises proxy. The inline-CASB provides additional visibility and control over cloud application usage, enhancing security in hybrid environments.

### NEW QUESTION # 24

Which event log subtype captures FortiSASE SSL VPN user creation?

- A. VPN Events
- B. Endpoint Events
- C. Administrator Events
- **D. User Events**

**Answer: D**

Explanation:

The event log subtype that captures FortiSASE SSL VPN user creation is User Events . This subtype is specifically designed to log activities related to user management, such as creating, modifying, or deleting user accounts. When an SSL VPN user is created, it falls under this category because it involves adding a new user to the system.

Here's why the other options are incorrect:

A . Endpoint Events: These logs pertain to activities related to endpoint devices, such as device registration, compliance checks, or security posture assessments. SSL VPN user creation is unrelated to endpoint events.

B . VPN Events: These logs capture activities related to VPN connections, such as session establishment, termination, or errors. While SSL VPN usage generates VPN events, the creation of a user account itself is not logged under this subtype.

D . Administrator Events: These logs track actions performed by administrators, such as configuration changes or policy updates. While an administrator might create the SSL VPN user, the specific event of user creation is categorized under User Events, not Administrator Events.

### NEW QUESTION # 25

Which service is included in a secure access service edge (SASE) solution, but not in a security service edge (SSE) solution?

- A. SWG
- B. ZTNA
- C. CASB
- **D. SD-WAN**

**Answer: D**

Explanation:

SD-WAN is a networking component included in a SASE solution but not in an SSE solution. SSE focuses solely on security services (like ZTNA, SWG, and CASB), while SASE combines both networking (e.g., SD- WAN) and security into a unified cloud-delivered service.

### NEW QUESTION # 26
