IAPP Certified Information Privacy Manager (CIPM) Sample Questions (Q274-Q279):

NEW QUESTION # 274

When vetting third-party processors of data protected by the GDPR, why is it important to know the physical location of stored personal data from clients?

- A. To determine the country laws that would govern the contract.
- B. To determine the likelihood of a security breach in the location.
- C. To determine their incidence response time.
- **D. To ensure the country has adequate protection or if safeguards are required.**

Answer: D

NEW QUESTION # 275

Which of the following is an example of Privacy by Design (PbD)?

- A. A company hires a professional to structure a privacy program that anticipates the increasing demands of new laws.
- B. The human resources group develops a training program for employees to become certified in privacy policy.
- **C. The information technology group uses privacy considerations to inform the development of new networking software.**
- D. A labor union insists that the details of employers' data protection methods be documented in a new contract.

Answer: C

Explanation:

This is an example of Privacy by Design (PbD), which is an approach to systems engineering that integrates privacy into the design and development of products, services, and processes from the outset⁷ PbD aims to ensure that privacy is embedded into the core functionality of any system or service, rather than being added as an afterthought or a trade-off. PbD is based on seven foundational principles: proactive not reactive; preventive not remedial; privacy as the default setting; privacy embedded into design; full functionality - positive-sum, not zero-sum; end-to-end security - full lifecycle protection; visibility and transparency - keep it open; and respect for user privacy - keep it user-centric⁸

NEW QUESTION # 276

Under the General Data Protection Regulation (GDPR), international data transfer is allowed using the mechanisms in all of the following scenarios EXCEPT between companies who?

- **A. Have put in place a binding confidentiality agreement.**
- B. Are part of the same group of enterprise using approved Binding Corporate Rules (BCRs).
- C. Have signed up to the EU Standard Contractual Clauses.
- D. Have put in place an approved code of conduct.

Answer: A

NEW QUESTION # 277

A privacy maturity model provides all of the following EXCEPT?

- A. A way to highlight what functions a company lacks for proper program management.
- **B. A way to guarantee that a company is compliant with applicable laws and regulations.**
- C. An example of the methods and practices necessary to evaluate a company's level of risk.
- D. A standard reference to assess a privacy program's current level of development.

Answer: B

Explanation:

Comprehensive and Detailed Explanation:

A privacy maturity model helps organizations assess, benchmark, and improve their privacy programs, but it does not guarantee compliance with laws and regulations.

Option A (A standard reference to assess a privacy program's current level of development) - Maturity models provide structured frameworks for evaluation.

Option B (A way to highlight what functions a company lacks for proper program management) - Maturity models identify gaps and areas for improvement.

Option D (An example of the methods and practices necessary to evaluate a company's level of risk) - Maturity models help in risk assessment and management.

Option C (A way to guarantee compliance) is incorrect because compliance depends on actual implementation and enforcement, not just assessment.

NEW QUESTION # 278

SCENARIO

Please use the following to answer the next QUESTION:

Perhaps Jack Kelly should have stayed in the U.S. He enjoys a formidable reputation inside the company, Special Handling Shipping, for his work in reforming certain "rogue" offices. Last year, news broke that a police sting operation had revealed a drug ring operating in the Providence, Rhode Island office in the United States. Video from the office's video surveillance cameras leaked to news operations showed a drug exchange between Special Handling staff and undercover officers.

In the wake of this incident, Kelly had been sent to Providence to change the "hands off" culture that upper management believed had let the criminal elements conduct their illicit transactions. After a few weeks under Kelly's direction, the office became a model of efficiency and customer service. Kelly monitored his workers' activities using the same cameras that had recorded the illegal conduct of their former co-workers.

Now Kelly has been charged with turning around the office in Cork, Ireland, another trouble spot. The company has received numerous reports of the staff leaving the office unattended. When Kelly arrived, he found that even when present, the staff often spent their days socializing or conducting personal business on their mobile phones. Again, he observed their behaviors using surveillance cameras. He issued written reprimands to six staff members based on the first day of video alone.

Much to Kelly's surprise and chagrin, he and the company are now under investigation by the Data Protection Commissioner of Ireland for allegedly violating the privacy rights of employees. Kelly was told that the company's license for the cameras listed facility security as their main use, but he does not know why this matters. He has pointed out to his superiors that the company's training programs on privacy protection and data collection mention nothing about surveillance video.

You are a privacy protection consultant, hired by the company to assess this incident, report on the legal and compliance issues, and recommend next steps.

What should you advise this company regarding the status of security cameras at their offices in the United States?

- A. Restrict access to surveillance video taken by the security cameras and destroy the recordings after a designated period of time.
- B. Add security cameras at facilities that are now without them.
- C. Reduce the number of security cameras located inside the building.
- **D. Set policies about the purpose and use of the security cameras.**

Answer: D

NEW QUESTION # 279

.....
