### NEW QUESTION # 34

Which of the following statements is FALSE in relation to the hierarchy of requirements?

- A. The requirements hierarchy shows the order in which requirements should be developed.
- B. Requirements are driven by the organisation's values, strategy and objectives.
- C. The requirements hierarchy enables detailed requirements to be linked to the business need.
- D. The requirements hierarchy links different requirements to each other.

**Answer: A**

Explanation:

The hierarchy of requirements organizes requirements into levels (e.g., business needs, stakeholder requirements, solution requirements) to ensure alignment and traceability. Let's evaluate each statement to determine which is false .

Key Characteristics of the Requirements Hierarchy:

Linking Requirements: The hierarchy ensures that detailed requirements are connected to higher-level business needs and objectives.  
Order of Development: The hierarchy does not dictate the sequence in which requirements should be developed; it focuses on relationships and dependencies.

Driven by Strategy: Requirements are derived from the organization's values, strategy, and objectives.

Traceability: The hierarchy links different types of requirements to ensure consistency and alignment.

Evaluation of Each Statement:

A . The requirements hierarchy enables detailed requirements to be linked to the business need:

This is true; the hierarchy ensures traceability between high-level and detailed requirements.

Conclusion: This is true .

B . The requirements hierarchy shows the order in which requirements should be developed:

The hierarchy does not specify the development order; it focuses on relationships and dependencies.

Conclusion: This is false .

C . Requirements are driven by the organisation's values, strategy and objectives:

This is true; requirements must align with organizational goals.

Conclusion: This is true .

D . The requirements hierarchy links different requirements to each other:

This is true; the hierarchy ensures traceability and alignment across levels.

Conclusion: This is true .

Final Recommendation:

The false statement is:

B . The requirements hierarchy shows the order in which requirements should be developed.
