SAP E-S4CON-2505 Exam Syllabus Topics:

Topic	Details
Topic 1	• Activities before starting a system conversion: This section of the exam measures the skills of SAP System Administrators and covers the essential tasks required before beginning a system conversion. It focuses on preparing the system environment, checking compatibility, and ensuring that both technical and business prerequisites are fulfilled to minimize risks during the conversion process.
Topic 2	• Manual interventions during a system conversion: This section of the exam measures the skills of SAP System Administrators and covers the manual steps required during a system conversion. It includes tasks that cannot be automated and require technical oversight, ensuring that system stability and data integrity are maintained throughout the process.
Topic 3	• Downtime optimization and execution: This section of the exam measures the skills of Technical Consultants and covers methods to optimize downtime during a system conversion. It emphasizes strategies to reduce business disruption, ensure smooth execution, and apply best practices for time-efficient conversion activities.
Topic 4	• Preparing for the usage of Software Update Manager: This section of the exam measures the skills of Technical Consultants and covers preparation for working with the Software Update Manager tool. It focuses on understanding SUM's role in executing conversions, configuring its settings, and applying it effectively to achieve successful project outcomes.

SAP Certified Specialist - SAP S/4HANA Conversion and SAP System Upgrade Sample Questions (Q28-Q33):

NEW QUESTION # 28
During the upgrade of your development system, you run into the adjustment of non-dictionary objects, handled by transaction SPAAU. There you find programs that are shown in status "automatic adjustment" (green traffic light).
What will happen with these programs when you continue with your upgrade without performing any other actions inside your SAP system?

- A. SUM refuses to continue unless you have marked a transport request as modification adjustment transport.
- B. SUM continues with the next phase, and the coding of your modified objects are set to the new SAP standard.
- C. SUM continues with the next phase and your modifications are kept as in the start release.
- D. Before continuing with the next phase, SUM asks for a modification adjustment transport.

Answer: D
