## NEW QUESTION # 29
Which is a characteristic of the Vision Statement?

- A. Documents detailed processes for the P3O
- B. Defines how to deliver the P3O model
- C. Describes the current state
- D. Links the P3O model to achievement of business goals

**Answer: D**

Explanation:
The P3O Foundation (2013) manual defines the Vision Statement as linking the P3O model to business goals. Section 4.3.2 states, "The Vision Statement articulates the future state of the P3O and links it directly to the achievement of the organization's business goals, providing a strategic foundation for implementation." This differs from describing the current state (A), which is part of the baseline assessment, defining delivery methods (B), which is the Blueprint's role, or documenting processes (D), which occurs later. The 2013 edition emphasizes this strategic linkage to ensure alignment with organizational objectives, guiding the P3O' s development. This focus supports effective change management and resource allocation.

This differs from the Project Officer (B), who supports execution, Head of Project (C), who oversees projects, and Secretariat (D), who provides administrative support. among geographically dispersed teams." This contrasts with co-location (B), same-location roles (C), or sophisticated tools (D), which are impractical or less critical in distributed settings. Section 4.2.2 states, "The Business Case must articulate the reasons why any form of P3O is required, including the benefits and justification for investment, to gain senior management approval." This contrasts with staff roles (B), processes (C), or the Head's appointment (D), which are implementation details. The
