In order to pass the exam and fight for a brighter future, these people who want to change themselves need to put their ingenuity and can do spirit to work. More importantly, it is necessary for these people to choose the convenient and helpful NCP-CN test questions as their study tool in the next time. Because their time is not enough to prepare for the exam, and a lot of people have difficulty in preparing for the exam, so many people who want to pass the NCP-CN exam and get the related certification in a short time have to pay more attention to the study materials. In addition, best practice indicates that people who have passed the NCP-CN Exam would not pass the exam without the help of the NCP-CN reference guide. So the study materials will be very important for all people. If you also want to pass the exam and get the related certification in a short, the good study materials are the best choice for you. Now we are going to make an introduction about the NCP-CN exam prep from our company for you.

Nutanix NCP-CN Exam Syllabus Topics:

Topic	Details

Topic 1	• Prepare the Environment for an NKP Deployment: This section of the exam measures the skills of infrastructure engineers and cloud administrators and covers the initial setup tasks needed for NKP deployment. Candidates must demonstrate the ability to seed a private container registry, create a bootstrap Kubernetes cluster, and determine license tiers suitable for clusters. They also need to prepare a bastion host for secure access, build machine images or prepare nodes for deployment, and gather all necessary information to build a cluster on the target cloud or on-premises provider.
Topic 2	• Perform Day 2 Operations: This part assesses the expertise of site reliability engineers and cluster operators in ongoing cluster management tasks after deployment. It includes configuring authentication and authorization mechanisms, setting up logging systems, and implementing cluster backup and recovery procedures. Candidates also need to demonstrate skills in monitoring cluster performance and health, configuring autoscaling to handle workload changes, and performing lifecycle management functions such as upgrades and maintenance.
Topic 3	• Conduct NKP Fleet Management: This section tests the abilities of platform administrators and cloud operations engineers in managing multiple clusters as a fleet. It focuses on configuring workspaces to organize clusters, deploying workload clusters within these workspaces, and attaching or detaching clusters as needed. Additionally, candidates must be able to configure projects for workload segmentation and manage platform applications that support the overall NKP environment.
Topic 4	• Manage Building an NKP Cluster: This section evaluates the skills of Kubernetes administrators and platform engineers in customizing and deploying NKP clusters. Candidates must show proficiency in tailoring cluster configurations to meet specific requirements and deploying Kommander, the management platform, while applying the appropriate licenses to enable cluster features and management capabilities.

Fresh NCP-CN Dumps, Valid NCP-CN Exam Dumps

Due to its unique features, it is ideal for the majority of the students. It provides them complete assistance for understanding of the syllabus. It contains the comprehensive NCP-CN exam questions that are not difficult to understand. By using these aids you will be able to modify your skills to the required limits. Your NCP-CN Certification success is just a step away and is secured with 100% money back guarantee.

Nutanix Certified Professional - Cloud Native v6.10 Sample Questions (Q42-Q47):

NEW QUESTION # 42
An administrator has been tasked with deploying NKP as the Kubernetes platform and needs to deploy their first cluster with the following requirements:
Dark site (no Internet connectivity)
Nutanix-provided Rocky Linux VM image
AHV-based clusterWhat are two prerequisites to accomplish the deployment? (Choose two)

- A. Self-managed AWS cluster
- B. Existing local container registry
- C. Konvoy Image Builder
- D. Air-Gapped Bundle

Answer: B,D

NEW QUESTION # 43
A Platform Engineer needs to do an air-gapped installation of NKP. This environment needs to run without Internet access and be fully operational, including updates. Docker has been installed, and the NKP bundle exists on a bastion host. What is the first command that the engineer must run to begin the process?

- A. nkp push bundle --bundle
- B. docker load -i konvoy-bootstrap-image-v2.12.0.tar
- C. tar -xzvf nkp-air-gapped-bundle_v2.12.0_linux_amd64.tar.gz
- D. nkp create cluster nutanix

Answer: C

NEW QUESTION # 44

Recently, the reliability of some developer platforms has been impacted by out-of-memory errors, causing pods to crash and then remain in a pending state. A Cloud Engineer has been tasked with collecting and reviewing centralized metrics across the various platform environments to identify differences between them and better understand what is causing these performance issues. What should the engineer do to address this request?

- A. Utilize Thanos to collect and present centralized metrics on NKP attached and managed clusters. Then visualize these collected and centralized metrics in Grafana.
- B. Utilize Prometheus to collect and present centralized metrics on NKP attached and managed clusters. Then configure Thanos Query to monitor and send out alerts based on the metric thresholds that have been configured within it.
- C. Utilize Fluentd and Fluent Bit to collect and present centralized metrics on NKP attached and managed clusters. Then visualize these collected and centralized metrics in Grafana.
- D. Utilize Fluentd and Fluent Bit to collect and present centralized metrics on NKP attached and managed clusters. Then configure Thanos Query to monitor and send out alerts based on the metric thresholds that have been configured within it.

Answer: B

NEW QUESTION # 45

An administrator is provisioning an NKP cluster. After the VM creation task, the error shown in the exhibit is produced.
What could be the reason?

- A. VM does not have the Linux version.
- B. NKP Software is not loaded in the registry.
- C. VM doesn't have communication to the registry.
- D. Private registry software or version is not the recommended.

Answer: C

NEW QUESTION # 46

A company has been modernizing on cloud-native platforms for the past few years and has been running some small consumer support utilities on their production NKP cluster. After a thorough testing and QA cycle with simulated workloads on a development cluster, the company is ready to bring their online retail application into the fold. While they have sufficient system resources to scale the NKP cluster properly from a performance standpoint, they also want to ensure they properly scale their monitoring stack's resource settings to retain a sufficient amount of data to see how overall system resource utilization trends for the NKP cluster over several months' time with the added workloads. Which NKP Platform Application component should the company be most concerned with adjusting, and how should their Platform Engineer adjust it?

- A. Adjust the number of replicas for the Fluent Bit deployment, as well as increase the amount of storage available for use by the NKP cluster.
- B. Adjust the resource settings for Prometheus by increasing its container resource limits and memory settings, as well as its storage.
- C. Adjust the number of replicas for the Prometheus deployment, as well as increase the amount of storage available for use by the NKP cluster.
- D. Adjust the resource settings for Fluent Bit by increasing its container resource limits and memory settings, as well as its storage.

Answer: B

NEW QUESTION # 47

......

Our service and Nutanix Certified Professional - Cloud Native v6.10 exam questions are offered to exam candidates who are in demand of our products which are marvelous with the passing rate up to 98 percent and so on. So this result invariably makes our NCP-CN torrent prep the best in the market. We can assure you our NCP-CN test guide will relax the nerves of the exam without charging substantial fees. So we are always very helpful in arranging our Nutanix Certified Professional - Cloud Native v6.10 exam questions with both high quality and reasonable price. And you can choose them without hesitation. What is more, we give discounts upon occasions and send you the new version of our NCP-CN Test Guide according to the new requirements of the exam for one year from the time you place your order. One of our many privileges offering for exam candidates is the update. So we have received tremendous compliments which in return encourage us to do better. So please keep faithful to our NCP-CN torrent prep and you will prevail in the exam eventually.
