It will provide them with the C_ACDET_2506 exam pdf questions updates free of charge if the C_ACDET_2506 certification exam issues the latest changes. If you work hard using our top-rated, updated, and excellent SAP C_ACDET_2506 PDF Questions, nothing can refrain you from getting the SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite (C_ACDET_2506) certificate on the maiden endeavor.

SAP C_ACDET_2506 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> Deploy and Migration: This part of the exam assesses the expertise of an SAP Deployment Specialist and focuses on the final deployment of the configured solution and the data migration process. Candidates should demonstrate a solid grasp of how to move configurations from a testing environment into production while minimizing disruption. It also includes knowledge of tools and strategies used for data extraction.
Topic 2	<ul style="list-style-type: none"> Field Configuration: This domain evaluates the knowledge of an SAP Deployment Specialist and focuses on customizing and configuring business fields in the SAP system according to client-specific needs. This includes adjusting system settings for master data, transaction data, and other essential field-level controls to support business processes effectively. The section tests the candidate's ability to use configuration tools, apply SAP standard templates, and ensure that the field configurations align with the desired operational workflows of the business. It also touches upon validation, testing, and documenting the configuration changes made during the implementation.
Topic 3	<ul style="list-style-type: none"> Project Overview, Roles and Responsibilities: This section of the exam measures the skills of an SAP Cloud Consultant and covers the fundamental understanding of SAP Activate methodology within the context of a cloud implementation project. Candidates are expected to be familiar with the project lifecycle, including phases such as Prepare, Explore, Realize, Deploy, and Run. This part also focuses on identifying key roles and responsibilities within a cloud project team, ensuring clarity in collaboration between consultants, clients, and SAP. It checks whether the consultant understands governance, stakeholder management, and the high-level structure of cloud deployment using SAP best practices.

Save Money and Time with DumpsValid SAP C_ACDET_2506 Exam Questions

Our accurate, reliable, and top-ranked SAP C_ACDET_2506 exam questions will help you qualify for your SAP C_ACDET_2506 certification on the first try. Do not hesitate and check out excellent SAP C_ACDET_2506 Practice Exam to stand out from the rest of the others.

SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite Sample Questions (Q43-Q48):

NEW QUESTION # 43

Which read-only files show the key and English translations for custom field labels and helptips?

- A. The JSON files that can be exported through AML & Translations Upload
- B. The JSON files that can be exported through ICM
- C. The customerResource files that can be exported through AML & Translations Upload
- D. The customerResource files that can be exported through ICM

Answer: A

Explanation:

SAP Ariba stores translations for custom field labels and help tips in JSON files exported and imported via AML (Advanced Metadata List) & Translations Upload. These JSON files contain key-value pairs representing the translation keys and their English or localized strings. This mechanism supports language management and bulk updates of translated content.

ICM exports configuration bundles but does not handle translation files in JSON format. CustomerResource files are not the standard format for translation export/import.

Using AML & Translations Upload allows administrators to maintain and update translations across multiple languages efficiently, ensuring consistent user experience in multi-lingual deployments.

NEW QUESTION # 44

The full SAP Ariba Strategic Sourcing suite baseline (Greenfield baseline scenario) has been applied to the customer Test site. The customer and project team will configure SAP Ariba Sourcing and deploy that to the Production site, then configure and deploy the remaining solutions in stages. What does this mean for subsequent migration activities?

- A. Both SAP Ariba Sourcing as well as subsequent migration activities would be Brownfield deployments.
- B. If the baseline applied the full suite, the full suite must be configured and migrated to production at the same time.
- C. Subsequent migration activities follow Bluefield deployment scenario.
- D. Subsequent migration activities will require a complete reconfiguration of existing solutions.

Answer: C

Explanation:

In SAP Ariba deployments, when a full Greenfield baseline has been applied initially—meaning a fresh, full suite setup on the Test site—and the customer deploys a single solution (like Sourcing) to Production first, all subsequent deployments follow a Bluefield scenario. This means that later stages of deployment (e.g., Contracts, Supplier Risk) involve selective migration and incremental configuration changes to Production without rebuilding everything from scratch. Bluefield scenarios specifically accommodate environments where Production may already be live with transactions, requiring careful selective migration to avoid disruption. This contrasts with Brownfield, which typically involves upgrading or reusing existing deployments without full baseline resets. Also, Greenfield deployments do not require all suite components to migrate simultaneously; phased deployments are supported.

This approach ensures minimal risk during deployment and provides flexibility to roll out additional modules progressively.

Extract summary: SAP Ariba documentation highlights Bluefield for phased, incremental deployments post Greenfield baseline application to accommodate live production environments.

NEW QUESTION # 45

What are the key characteristics of a Bluefield deployment scenario? Note: There are 2 correct answers to this question.

- A. The Test site has been configured using the SAP Bluefield template
- B. Many team members have a naive perception of deploying software solutions
- C. The customer already has an SAP Ariba Strategic Sourcing suite solution deployed
- D. The Production site may have live transactions

Answer: C,D

NEW QUESTION # 46

A customer requests a dynamic list from CSV.

Which field type supports that?

- A. Flex Master Data-based field

- B. Hyperlink
- C. Single-Select Enum
- D. Computed Field

Answer: A

NEW QUESTION # 47

The customer wants to have a field to hold Contract Storage Locations and the address. Those locations are loaded from an external system, and the user should be able to search for storage locations.

What should be used to hold the valid storage locations?

- A. You should load a new Enumeration Type and call it Storage Location and load the location addresses. Create a new field of type Enumeration with a custom filter to only Enumerations of type show Storage Locations.
- B. Create a new field of type Text, with a custom Validation where the available Storage Locations are listed.
- C. Create a new field of type Date, where each date entry is tied to a unique Storage Location and its corresponding address, allowing users to select locations based on historical data entries.
- **D. You should create a new Flex Master Data (FMD) Template with appropriate attributes and call it Storage Location. Once the template is published and sample data loaded, you can create a custom field and select the type Storage Location**

Answer: D

NEW QUESTION # 48

.....

Our C_ACDET_2506 exam material boosts both the high passing rate which is about 98%-100% and the high hit rate to have few difficulties to pass the test. Our C_ACDET_2506 exam simulation is compiled based on the resources from the authorized experts' diligent working and the real exam and confer to the past years' exam papers thus they are very practical. The content of the questions and answers of C_ACDET_2506 Exam Questions is refined and focuses on the most important information. To let the clients be familiar with the atmosphere and pace of the real C_ACDET_2506 exam we provide the function of stimulating the exam.
