

Test C_ACDET_2506 Pdf, C_ACDET_2506 Test Engine

What's more, part of that TrainingDump C_ACDET_2506 dumps now are free: https://drive.google.com/open?id=10O9kRcuRbHG_mxYHntKoYe4BX8mMTv_a

In this way, the SAP C_ACDET_2506 certified professionals can not only validate their skills and knowledge level but also put their careers on the right track. By doing this you can achieve your career objectives. To avail of all these benefits you need to pass the SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite (C_ACDET_2506) exam which is a difficult exam that demands firm commitment and complete SAP C_ACDET_2506 exam questions preparation.

SAP C_ACDET_2506 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> Deploy and Migration: This part of the exam assesses the expertise of an SAP Deployment Specialist and focuses on the final deployment of the configured solution and the data migration process. Candidates should demonstrate a solid grasp of how to move configurations from a testing environment into production while minimizing disruption. It also includes knowledge of tools and strategies used for data extraction.
Topic 2	<ul style="list-style-type: none"> Project Overview, Roles and Responsibilities: This section of the exam measures the skills of an SAP Cloud Consultant and covers the fundamental understanding of SAP Activate methodology within the context of a cloud implementation project. Candidates are expected to be familiar with the project lifecycle, including phases such as Prepare, Explore, Realize, Deploy, and Run. This part also focuses on identifying key roles and responsibilities within a cloud project team, ensuring clarity in collaboration between consultants, clients, and SAP. It checks whether the consultant understands governance, stakeholder management, and the high-level structure of cloud deployment using SAP best practices.
Topic 3	<ul style="list-style-type: none"> Field Configuration: This domain evaluates the knowledge of an SAP Deployment Specialist and focuses on customizing and configuring business fields in the SAP system according to client-specific needs. This includes adjusting system settings for master data, transaction data, and other essential field-level controls to support business processes effectively. The section tests the candidate's ability to use configuration tools, apply SAP standard templates, and ensure that the field configurations align with the desired operational workflows of the business. It also touches upon validation, testing, and documenting the configuration changes made during the implementation.

Real C_ACDET_2506 Exam Dumps, C_ACDET_2506 Exam prep, Valid C_ACDET_2506 Braindumps

The TrainingDump is one of the leading platforms that has been offering real and valid SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite (C_ACDET_2506) exam practice test questions. These C_ACDET_2506 exam questions are designed and verified by SAP C_ACDET_2506 subject matter experts. They work closely together and put all their expertise to check the TrainingDump C_ACDET_2506 Exam Questions one by one. So we can say that the TrainingDump C_ACDET_2506 exam practice questions are real, valid, and updated SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite (C_ACDET_2506) exam questions that will provide you with everything that you need to learn to prepare and pass the C_ACDET_2506 exam.

SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite Sample Questions (Q34-Q39):

NEW QUESTION # 34

Which read-only files show the key and English translations for custom field labels and help tips?

- A. The JSON files that can be exported through AML & Translations Upload
- B. The JSON files that can be exported through ICM
- C. The customer Resource files that can be exported through AML & Translations Upload
- D. The customerResource files that can be exported through ICM

Answer: C

NEW QUESTION # 35

During which SAP Activate Methodology phase do you define the customer requirements?

- A. Design
- B. Define
- C. Explore
- D. Discover

Answer: C

NEW QUESTION # 36

What system is provided by SAP free of charge and provides an outline of how to deploy SAP Ariba solutions with a task list and project management format?

- A. SAP for Me
- B. SAP Cloud Application Lifecycle Management
- C. SAP Cloud Project Studio
- D. SAP Ariba Enablement Workbook

Answer: D

Explanation:

The SAP Ariba Enablement Workbook is an Excel-based project management tool provided free by SAP to assist customers and implementation partners in deploying SAP Ariba solutions. It contains detailed task lists, timelines, and activities aligned to the SAP Activate methodology and is designed to guide project teams through deployment steps such as data collection, configuration, and testing. Other options like SAP for Me are customer portals, not deployment tools, and SAP Cloud Application Lifecycle Management is a broader lifecycle tool not focused specifically on Ariba deployments.

NEW QUESTION # 37

What actions can typically be performed on existing fields? (Select 3 correct answers)

- A. Add a Visibility, Editability, or Validity Condition
- B. Change the internal name
- C. Change the field type
- D. Make the field mandatory
- E. Change the help tip

Answer: A,D,E

Explanation:

In SAP Ariba, existing fields can be made mandatory by setting the Required property, help tips can be edited to clarify field usage, and visibility, editability, and validity conditions can be added or modified to control when and how fields appear or accept values. However, the internal field name is immutable once the field is created, and the field data type cannot be changed post-creation. These restrictions ensure system consistency and prevent data corruption. These limitations are well documented in SAP Ariba configuration best practices.

NEW QUESTION # 38

What is the key role of the SAP Deployment Lead assigned to the project?

- A. To act as the liaison between the customer and SAP Support in resolving technical issues and manage customer escalations
- B. To advise the customer and partner in solution configurations
- C. To test and validate the solution prior to go-live
- D. To perform configuration changes required to the SAP Ariba Strategic Sourcing suite solutions

Answer: A

Explanation:

The SAP Deployment Lead acts as the primary liaison between the customer and SAP Support, managing technical issues, escalations, and coordination during the deployment lifecycle. They oversee environment readiness, migration activities, and issue resolution. Advising on configurations is typically the Functional Lead's role, configuration changes are done by consultants, and testing is led by the customer or testing teams. The Deployment Lead focuses on technical project management and communication.

NEW QUESTION # 39

.....

The SAP C_ACDET_2506 practice exam software of TrainingDump has questions that have a striking resemblance to the queries of the SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite (C_ACDET_2506) real questions.
