

# 1Z0-1072-25 Exam Cram Questions - 1Z0-1072-25 Demo Test

BONUS!!! Download part of Dumpkiller 1Z0-1072-25 dumps for free: [https://drive.google.com/open?id=1IwLaYaZ0ZhYtF\\_tVDeUeicbpRxi2NFQ](https://drive.google.com/open?id=1IwLaYaZ0ZhYtF_tVDeUeicbpRxi2NFQ)

The browser-based version has all features of the desktop 1Z0-1072-25 practice exam. You don't need special plugins or software installations to operate the web-based Oracle Cloud Infrastructure 2025 Architect Associate (1Z0-1072-25) practice exam. This Oracle Cloud Infrastructure 2025 Architect Associate (1Z0-1072-25) practice test is compatible with every browser such as MS Edge, Chrome, Internet Explorer, Firefox, Opera, and Safari. Dumpkiller's web-based 1Z0-1072-25 practice exam promotes self-assessment and self-study.

As you know that a lot of our new customers will doubt about our website or our 1Z0-1072-25 exam questions though we have engaged in this career for over ten years. So the trust and praise of the customers is what we most want. We will accompany you throughout the review process from the moment you buy 1Z0-1072-25 Real Exam. We will provide you with 24 hours of free online services to let you know that our 1Z0-1072-25 study materials are your best tool to pass the exam.

## 1Z0-1072-25 Demo Test | 1Z0-1072-25 Real Torrent

Dumpkiller has hired a team of experts who keeps an eye on the Oracle Cloud Infrastructure 2025 Architect Associate real exam content and updates our 1Z0-1072-25 study material according to new changes on daily basis. Moreover, you will receive free Oracle Cloud Infrastructure 2025 Architect Associate exam questions updates if there are any updates in the content of the Oracle Cloud Infrastructure 2025 Architect Associate test. These updates will be given within up to 1 year of your purchase. The 24/7 support system has been made for your assistance to solve your technical problems while using our product. Don't wait anymore. Buy real Oracle Cloud Infrastructure 2025 Architect Associate questions and start preparation for the 1Z0-1072-25 test today!

## Oracle Cloud Infrastructure 2025 Architect Associate Sample Questions (Q37-Q42):

NEW QUESTION # 37

Which TWO statements are NOT correct regarding the Oracle Cloud Infrastructure (OCI) burstable instances?

- A. Baseline utilization is a fraction of each CPU core.
- B. If the instance's average CPU utilization is below the baseline, it can burst above the baseline.
- C. **Burstable instances are charged according to the baseline OCPU.**
- D. **Burstable instances cost less than regular instances.**

**Answer: C,D**

Explanation:

The following statements about OCI burstable instances are NOT correct:

A . Burstable instances cost less than regular instances: This is incorrect because burstable instances are not necessarily cheaper; the cost depends on the baseline utilization. While they allow for cost efficiency when running at a lower CPU baseline, they can become more expensive if frequently bursting above the baseline.

B . Burstable instances are charged according to the baseline OCPU: This is incorrect because burstable instances are billed based on actual OCPU usage, which includes both baseline and burst usage. If an instance frequently operates above its baseline, the cost will reflect this higher usage.

Correct Concepts:

C . Burstable instances can temporarily use more CPU than their baseline if the average CPU utilization is below the baseline.

D . Baseline utilization is a fraction of each CPU core, which determines the level of consistent performance available without bursting.

Oracle Cloud Infrastructure Documentation: Burstable Instances

#### NEW QUESTION # 38

What would be the total meteredBytes shown by the File Storage service after the hourly update cycle is complete when you overwrite 0.5 GB of a 1 GB file?

- A. 1 GB
- B. 0.5 GB
- C. **1.5 GB**
- D. 2.5 GB

**Answer: C**

Explanation:

In Oracle Cloud Infrastructure (OCI) File Storage, when you overwrite a portion of a file, the service does not immediately reclaim the space occupied by the previous version of the file. The total meteredBytes reflects both the original data and the new data written.

Scenario Explanation: You start with a 1 GB file. When you overwrite 0.5 GB of this file, the file system retains both the 0.5 GB of the original file and the new 0.5 GB you wrote.

Calculation: The original 1 GB file contributes 1 GB to meteredBytes. When 0.5 GB is overwritten, the total usage becomes 1.5 GB (1 GB original + 0.5 GB new).

Thus, after the hourly update cycle, the total meteredBytes shown by the File Storage service will be 1.5 GB.

#### NEW QUESTION # 39

Which components are required for establishing remote peering between two Virtual Cloud Networks (VCNs) in Oracle Cloud Infrastructure (OCI)?

- A. Two VCNs with overlapping CIDRS in different regions, a virtual private network (VPN) gateway attached to each VCN, and a direct connection between the VPN gateways.
- B. **Two VCNs with nonoverlapping CIDRS in different regions, a dynamic routing gateway (DRG) attached to each VCN, a remote peering connection (RPC) on each DRG, and a connection established between the RPCs.**
- C. Two VCNs with nonoverlapping CIDRS in the same region, a dynamic routing gateway (DRG) attached to each VCN, and a direct connection between the DRGs.
- D. A single VCN with nonoverlapping CIDRS in each region, a dynamic routing gateway (DRG) attached to each VCN, and a direct connection between the DRGS.

**Answer: B**

**Explanation:**

Remote peering in Oracle Cloud Infrastructure allows two VCNs in different regions to communicate securely. To establish remote peering, the following components are required:

Two VCNs with Nonoverlapping CIDRs:

The CIDR blocks of the two VCNs must not overlap. This is crucial to avoid routing conflicts and ensure that traffic is correctly routed between the VCNs.

Dynamic Routing Gateway (DRG) Attached to Each VCN:

A DRG is a virtual router that provides a path for traffic between the VCN and networks outside the VCN, such as other VCNs via remote peering, on-premises networks, or other cloud services. Each VCN needs its own DRG.

Remote Peering Connection (RPC):

An RPC is a specialized connection on the DRG used specifically for remote peering. You need to create an RPC on each DRG associated with the VCNs you wish to peer.

Connection Between RPCs:

Finally, a connection must be established between the RPCs of the two DRGs. This connection facilitates the secure and private exchange of traffic between the VCNs over Oracle's backbone network.

Incorrect Options:

Option A involves a single VCN, which does not fulfill the requirement of remote peering between two VCNs.

Option B involves overlapping CIDRs and VPN gateways, which are incorrect for remote peering.

Option C suggests peering within the same region, which would be considered local peering rather than remote peering.

Relevant OCI Documentation:

OCI Remote VCN Peering

Dynamic Routing Gateway (DRG) Overview

These resources provide a detailed guide on configuring remote peering in OCI, ensuring secure and effective communication between VCNs across regions.

**NEW QUESTION # 40**

How will moving a database instance to a different compartment impact user access?

- A. IAM policies are not tied to compartments.
- B. Compartments are not covered by IAM policies.
- C. Access will be revoked for all users.
- D. Compartments prevent resource movement.

**Answer: C**

**Explanation:**

In Oracle Cloud Infrastructure (OCI), when you move a database instance to a different compartment, the following impact on user access occurs:

Impact of Moving Resources: When you move a resource, like a database instance, to a different compartment, the IAM policies that grant access to that resource in the original compartment no longer apply. This effectively revokes access for users or groups unless equivalent policies are in place in the new compartment.

Restoring Access: To restore access, you would need to create new IAM policies in the destination compartment that grant the necessary permissions to the users or groups who need access.

Relevant OCI Documentation:

Managing Compartments

Moving Resources

These resources provide detailed steps on how compartment changes impact resource access and management.

**NEW QUESTION # 41**

What is the primary function of the Network Path Analyzer (NPA) tool provided by Oracle Cloud Infrastructure (OCI)?

- A. Collecting and analyzing network configuration to identify virtual network configuration issues impacting connectivity
- B. Optimizing network performance by dynamically adjusting routing paths based on traffic patterns
- C. Providing real-time monitoring of network traffic to detect security threats and unauthorized access attempts
- D. Sending actual traffic between source and destination to diagnose connectivity issues

**Answer: A**

Explanation:

The primary function of the Network Path Analyzer (NPA) tool in Oracle Cloud Infrastructure (OCI) is to help users troubleshoot and diagnose network connectivity issues by analyzing the network path between a source and a destination within OCI. The tool collects and analyzes the configuration of the virtual network, identifying any misconfigurations or issues that might impact connectivity.

NPA Usage: The Network Path Analyzer allows administrators to trace the network path and check for issues such as incorrect security list rules, route table misconfigurations, or any other factors that could prevent network traffic from reaching its destination.

## NEW QUESTION # 42

.....

The accuracy rate of Dumpkiller 1Z0-1072-25 exam certification training materials is high with wide coverage. It not only can improve your cultural knowledge, but also improve your operation level. It not only makes you become IT elite, but also make you have a well-paid job that others admire. Before buying our 1Z0-1072-25 Certification Training materials, you can download 1Z0-1072-25 free demo and answers on probation on Dumpkiller website.

**1Z0-1072-25 Demo Test:** [https://www.dumpkiller.com/1Z0-1072-25\\_braindumps.html](https://www.dumpkiller.com/1Z0-1072-25_braindumps.html)

Necessary certificates are indispensable to success, which show your ability to solve problems when confront with them with pressure, so we are here to help you with our 1Z0-1072-25 sure pass torrent, Why we give a promise that once you fail the exam with our dump, we guarantee a 100% full refund of the dump cost to you, as all those who have pass the exam successfully with our 1Z0-1072-25 exam dumps give us more confidence to make the promise of "No help, full refund", Oracle 1Z0-1072-25 Exam Cram Questions If you are a training school, it is suitable for your teachers to present and explain casually.

Three versions for your convenience, So, to underline a 1Z0-1072-25 sentence you've already typed, highlight the sentence and press Ctrl+U, Necessary certificates are indispensable to success, which show your ability to solve problems when confront with them with pressure, so we are here to help you with our 1Z0-1072-25 Sure Pass torrent.

## Free PDF Quiz High-quality 1Z0-1072-25 - Oracle Cloud Infrastructure 2025 Architect Associate Exam Cram Questions

Why we give a promise that once you fail the exam Reliable 1Z0-1072-25 Exam Blueprint with our dump, we guarantee a 100% full refund of the dump cost to you, as all those who have pass the exam successfully with our 1Z0-1072-25 exam dumps give us more confidence to make the promise of "No help, full refund".

If you are a training school, it is suitable for your teachers to present and explain 1Z0-1072-25 Exam Cram Questions casually, This reflects our confidence on our product and on their practical importance that each dump with add to your skills and professional expertise.

You can easily clear the Oracle Cloud Infrastructure 2025 Architect Associate (1Z0-1072-25) examination in one go and accelerate your career with our genuine and updated Oracle 1Z0-1072-25 exam dumps, which come in 1Z0-1072-25 questions PDF file, desktop practice exam software, and 1Z0-1072-25 web-based practice test formats.
