ExamBoosts 4A0-113 Exam Practice Test Questions Available In Three User-Friendly Formats

If you buy our 4A0-113 practice prep, you will get more than just a question bank. You will also get our meticulous after-sales service. The purpose of the 4A0-113 study materials' team is not to sell the materials, but to allow all customers who have purchased 4A0-113 Exam Materials to pass the exam smoothly. And if you have any question about our 4A0-113 training guide, our services will help you solve it in the first time.

ExamBoosts have the latest Nokia certification 4A0-113 exam training materials. The industrious ExamBoosts's IT experts through their own expertise and experience continuously produce the latest Nokia 4A0-113 training materials to facilitate IT professionals to pass the Nokia Certification 4A0-113 Exam. The certification of Nokia 4A0-113 more and more valuable in the IT area and a lot people use the products of ExamBoosts to pass Nokia certification 4A0-113 exam. Through so many feedbacks of these products, our ExamBoosts products prove to be trusted.

High Pass-Rate 4A0-113 Valid Test Sims - Trustworthy 4A0-113 Exam Tool Guarantee Purchasing Safety

Tech firms award high-paying job contracts to Nokia OSPF Routing Protocol Exam (4A0-113) certification holders. Every year many aspirants appear in the 4A0-113 test of the certification, but few of them cannot crack it because of not finding reliable Nokia OSPF Routing Protocol Exam prep materials. So, you must prepare with real exam questions to pass the certification exam. If you don't rely on actual exam questions, you will fail and loss time and money.

Nokia 4A0-113 Certification Exam is a valuable certification for networking professionals who want to demonstrate their expertise in OSPF and advance their careers. 4A0-113 exam covers a wide range of OSPF topics and requires candidates to have a solid understanding of OSPF and its implementation. Passing the exam is a significant achievement and can open up new career opportunities for networking professionals.

Earning the Nokia 4A0-113 certification validates the candidate's knowledge and expertise in Nokia OSPF Routing Protocol, demonstrating that they have the skills necessary to design, implement, and troubleshoot OSPF networks using Nokia equipment. Nokia OSPF Routing Protocol Exam certification is particularly valuable for professionals who work with large-scale networks, as OSPF is a popular routing protocol used in enterprise and service provider networks. With the Nokia 4A0-113 Certification, professionals can demonstrate their proficiency in OSPF and enhance their career opportunities in the networking industry.

Nokia OSPF Routing Protocol Exam Sample Questions (Q82-Q87):

NEW QUESTION # 82
In an IP datagram, which of the following fields identifies the receiving application?

- A. The port field of the network layer address.
- B. The protocol field of the transport layer header.
- C. The protocol field of the network layer header.
- D. The port field of the transport layer header.

Answer: D

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
According to the Nokia OSPF Routing Protocol Study Guide (Nokia document OSPF#SG#2023, Section 2.1 Transport Demultiplexing):
"The port field in the transport-layer header identifies the specific application or service docked to receive the packet (e.g., HTTP on port 80, SSH on port 22)." The guide further clarifies that:
The protocol field in the IP header indicates which transport protocol is used (e.g., TCP or UDP), but not which application should receive the data.
Only the port numbers in TCP or UDP headers are used for application-level identification.

NEW QUESTION # 83
Click the exhibit button.
In the topology shown, router R1 is an ASBR configured to export external routes to OSPF. Assuming that there are no stub networks, which of the following statements regarding Type 4 LSA generation is true?

- A. Router R3 generates a Type 4 LSA that is flooded to area 0, and router R6 generates a Type 4 LSA that is flooded to area 2.
- B. Router R3 generates a Type 4 LSA that is flooded to areas 0, 1, and 2.
- C. Router R1 generates a Type 4 LSA that is flooded to areas 0, 1, and 2.
- D. Router R3 generates a Type 4 LSA that is flooded to areas 0 and 2.

Answer: A

NEW QUESTION # 84
An operator configures an Nokia 7750 SR with a loopback interface and IPv6 address. The operator then configures a routing policy to redistribute the loopback prefix into OSPFv3. What type of LSA is used to advertise the route to other OSPFv3 routers in the same area?

- A. Intra-Area Prefix LSA
- B. None of the statements are correct.
- C. Inter-Area Prefix LSA
- D. AS External LSA
- E. Network LSA
- F. Router LSA

Answer: D

NEW QUESTION # 85
If a Router originates a type 1 router LSA with the E bit set, what types of areas can it belong to? Select all that apply.

- A. Standard Area
- B. Stub Area
- C. Not So Stubby Area
- D. Backbone Area

Answer: A,C,D

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
From Nokia 7750 SR OS Routing Protocols Guide (OSPF LSA Type 1 - Router LSAs):
The E-bit indicates that external LSAs (Type 5) are allowed in the area.

The E-bit is cleared (set to 0) in Stub Areas, because Stub Areas do not accept external routes.
In Standard Areas (Normal Areas) and Backbone Areas, the E-bit remains set.
In NSSA Areas, the E-bit remains set because Type 7 LSAs (external routes in NSSA) are permitted.
Thus, correct answers: A, C, D.
-

NEW QUESTION # 86
What best describes the type of packets used by OSPF routers to exchange updates on a point-to-point link?

- A. Ethernet frames sent to an Ethernet multicast address.
- B. UDP packets sent to an IP multicast address.
- C. IP packets sent to an IP unicast address.
- D. IP packets sent to an IP multicast address.

Answer: D

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
From Nokia 7750 SR OS Routing Protocols Guide (OSPF Packet Transmission on Point-to-Point Links):
OSPF uses IP protocol number 89 directly (not UDP or TCP).
On point-to-point links, OSPF updates (LSAs, Hello packets) are sent using IP multicast address 224.0.0.5 (AllSPFRouters).
Ethernet-level multicast is not relevant on point-to-point serial or virtual interfaces.
Thus, correct answer: A.
-

NEW QUESTION # 87
......

Someone around you must be using our 4A0-113 exam questions. The users of our 4A0-113 exam materials are really very extensive. Or, you can consult someone who has participated in the 4A0-113 exam. They must know or use our products. We can confidently say that our products are leading in the products of the same industry. The richness and authority of 4A0-113 Exam Materials are officially certified.
