최신 TOGAF Business Architecture Foundation OGBA-101 무료샘플문제 (Q66-Q71):

질문 # 66

Consider the following statements;

1. A whole corporation or a division of a corporation
2. A government agency or a single government department
3. Partnerships and alliances of businesses working together, such as a consortium or supply chain What are those examples of according to the TOGAF Standard?

- A. Enterprises
- B. Organizations
- C. Architectures Scopes
- D. Business Units

정답: A

설명:

According to the TOGAF Standard, an enterprise is defined as any collection of organizations that has a common set of goals and/or a single bottom line. The examples given in the question are all types of enterprises that can be the subject of enterprise architecture.

In the context of TOGAF, the term 'enterprise' encompasses more than just a single organization. It refers to any collection of organizations that has a common set of goals. This can include, as described in the statements provided, entire corporations or their divisions, government agencies or departments, as well as business partnerships such as consortia or supply chains. TOGAF uses the term 'enterprise' to define the full scope of the entity that is the subject of planning, design, implementation, and operation of an Enterprise Architecture.

질문 # 67

In what TOGAF ADM phase is the information map linked to other business blueprints?

- A. Phase B
- B. Phase A
- C. Preliminary Phase
- D. Phase E

정답: A

설명:

In the TOGAF ADM (Architecture Development Method), Phase B is the Business Architecture phase.

During this phase, the information map, which represents the relationships and flow of information within the business, is linked to other business blueprints. This linkage is crucial to ensure that the business architecture is aligned with the data and information needs of the organization, providing a foundation for the development of subsequent architecture domains (Data, Application, and Technology Architectures).

질문 # 68

Consider the following statements:

Groups of countries, governments, or governmental organizations (such as militaries) working together to create common or shareable deliverables or infrastructures Partnerships and alliances of businesses working together, such as a consortium or supply chain What are those examples of according to the TOGAF Standard?

- A. Enterprises
- B. Organizations
- C. Architectures Scopes
- D. Business Units

정답: A

설명:

TOGAF defines an "Enterprise" as any collection of organizations or alliances working toward shared goals, such as in consortiums or partnerships. This scope allows the architecture to address cross-organization processes and infrastructures for collaborative endeavors.

Reference:

TOGAF defines an Enterprise as any collection of organizations that has a common set of goals. This definition is intentionally broad and can encompass various types of entities, including:

Single organizations: A traditional company or corporation with a unified structure and goals.

Groups of organizations: This could include:

Public sector: Government agencies, military branches, or international collaborations like the United Nations.

Private sector: Consortiums, industry alliances, supply chains, or joint ventures where multiple businesses work together towards shared objectives.

The key characteristic of an enterprise is the shared set of goals that drives its activities and architecture.

질문 # 69

What can be introduced to formalize a joint agreement between development partners and sponsors on the deliverables, quality, and fitness-for-purpose of an architecture?

- A. Non-disclosure Agreement
- B. Architecture Contracts
- C. The Statement of Architecture Work
- D. Service Level Agreements

정답: A

질문 # 70

Where are business scenarios used most prominently in the TOGAF ADM?

- A. They are used in the Phase A to discover and document business requirements.
- B. They are used as part of a business transformation readiness assessment in Phase E.
- C. They are used as part of the lessons learned activity at the end of Phase F.
- D. They are used to resolve impacts across the Architecture Landscape in Phases B, C, and D.

정답: A

설명:

Business scenarios are most prominently used in Phase A (Architecture Vision) of the TOGAF ADM. In this phase, they help in discovering and documenting business requirements by providing detailed and realistic descriptions of business situations. Business scenarios help in identifying the key business drivers, goals, and challenges, ensuring that the architecture development is aligned with the actual needs of the business.

질문 # 71
