ABPMP International Certified Business Process Associate (CBPA) Exam Sample Questions (Q26-Q31):

NEW QUESTION # 26
What team should be created for process design?

- A. Notation specialists, programmers, designers, and others involved with the project
- B. Stakeholders representing a cross-functional team
- C. Executive management, process owners, external consultants, and clients who believe in process
- D. Stakeholders, subject matter experts, and individuals who interact with the process

Answer: D

Explanation:
An effective process design team should include:
* Stakeholders (to align with business needs)
* Subject Matter Experts (SMEs) (for technical accuracy)
* Frontline users and participants (for practical execution insights)
This ensures that the process is not only technically sound but also usable and adopted by those who execute it.
"Successful process design requires the collaboration of stakeholders, SMEs, and those involved in day-to- day operations. Their combined input ensures the process meets business objectives and operational practicality."
