ServiceNow Certified Implementation Specialist - Strategic Portfolio Management Sample Questions (Q37-Q42):

NEW QUESTION # 37

The color band at the top of the project card in Project Workspace displays what project attribute?

- A. Status
- B. Risk
- C. State
- D. Issues

Answer: A

Explanation:

Explanation

According to the ServiceNow documentation¹, the color band at the top of the project card in Project Workspace displays the project status. The project status is a calculated field that indicates the health of the project based on the schedule, cost, and scope variance. The color band can be green, yellow, or red, depending on the status value. The other options are incorrect because:

B: Risk: The risk is a potential problem that could affect the project or its outcome. The risk level is displayed as a circle icon on the project card, not as a color band².

C: State: The state is the current phase of the project, such as Draft, Planning, Work in Progress, or Closed. The state is displayed as a text field on the project card, not as a color band³.

D: Issues: The issues are the actual problems that affect the project or its outcome. The number of issues is displayed as a badge icon on the project card, not as a color band⁴.

NEW QUESTION # 38

The project property to update actual effort from time card is controlled at what level?

- A. Portfolio Level
- B. Application Level (Global)
- C. Program Level
- D. Project Level

Answer: D

Explanation:

Explanation

According to the ServiceNow documentation¹, the project property to update actual effort from time card is controlled at the project level. This property is called Update actual effort from time card and it determines if the Actual effort field on the Dates tab should be updated based on the hours entered from time cards for the project. If set to Yes, the Actual effort field is read-only on the Project and Project Task forms. If set to No, the Actual effort field is editable on the Project and Project Task forms.

NEW QUESTION # 39

If the 'Move project for WIP projects' property is enabled, project tasks associated with the project are also moved, except for tasks in which of the following states?

Choose 2 answers

- A. Work in Progress
- B. Open
- C. Pending
- D. Closed

Answer: A,D

Explanation:

According to the Planning Console document, if the 'Move project for WIP projects' property is enabled, project tasks associated with the project are also moved, except for tasks in the Work in Progress or Closed states. The other options are not correct, as tasks in the Pending or Open states are moved along with the project.

NEW QUESTION # 40

What is the default table that stores the idea categories that a user can select from when submitting an idea?

- A. im_category
- B. dmn_demand
- C. im_idea_core
- D. im_module

Answer: A

Explanation:

Explanation

According to the Category Configuration document, the default table that stores the idea categories that a user can select from when submitting an idea is im_category. This table contains the predefined categories for ideas, such as Business Process, Customer Service, or IT Service. The other options are not correct, as they are not the tables that store the idea categories. The dmn_demand table stores the demand records that are created from the approved ideas. The im_module table stores the idea modules that are used to group ideas by different criteria. The im_idea_core table stores the core fields of the idea records.

NEW QUESTION # 41

What is the demand workbench used for?

Choose 2 answers

- A. Comparing and prioritizing demands against other demands
- B. Approving ideas
- C. Approving demands
- D. Comparing demands with portfolios

Answer: A,D

Explanation:

The demand workbench is a feature of ServiceNow Demand Management that allows you to view and assess business demands in a single place. You can use the demand workbench to compare demands with portfolios and see how they align with your strategic goals and objectives. You can also use the demand workbench to compare and prioritize demands against other demands based on their scores, risks, and benefits. You can find more information about the demand workbench in the Product Documentation for ServiceNow.
