SAP Certified Associate - Process Data Analyst - SAP Signavio Sample Questions (Q24-Q29):

NEW QUESTION # 24

How does the Event-based Gateway work?

- A. The token waits for all connected events.
- B. The token waits for all events happening at the same time.
- C. The token waits for the first occurring event.
- D. A token is created for each connected event.

Answer: C

NEW QUESTION # 25

Which of the following areas are part of the lifecycle of a business process?Note: There are 3correct answers to this question.

- A. Process Risk Management
- B. Process Execution
- C. Process Approvals
- D. Process Analysis
- E. Process Documentation

Answer: B,D,E

Explanation:

The lifecycle of a business process encompasses various stages, including Process Documentation, Process Analysis, and Process Execution. Process Documentation involves the detailed recording and description of the process steps, roles, and rules, serving as a foundation for understanding and improving processes. Process Analysis is the examination of processes to identify inefficiencies, bottlenecks, and opportunities for improvement. Process Execution refers to the actual carrying out of the process steps, where the effectiveness of the process is tested in real-world scenarios. These stages are integral to the continuous improvement cycle of business process management, ensuring processes are well-understood, optimized, and effectively executed.

Process Risk Management and Process Approvals, while important aspects of managing processes, are not explicitly listed as stages in the typical lifecycle of a business process as described in BPM literature.

NEW QUESTION # 26

How can KPI's from SAP Signavio Process Intelligence be visualized in the SAP Signavio Process Collaboration Hub?Note: There are 3 correct answers to this question.

Answer:

Explanation:

B.C.E

NEW QUESTION # 27

What is end-to-end process management?

- A. Aligning all processes within a certain business across different departments
- B. Aligning all processes within a certain department
- C. Aligning all business operations to a certain customer need / outcome
- D. Aligning all tasks within a certain process

Answer: C

Explanation:

End-to-end process management in SAP Signavio refers to the alignment of all business operations towards a specific customer need or outcome. This approach involves the complete mapping and management of processes that span the entire organization, covering multiple departments and ensuring that every aspect of the process is directed towards satisfying customer requirements efficiently and effectively.

NEW QUESTION # 28

How can administrator rights be granted to a new user within SAP Signavio Process Manager?

- **A. Create a user account and assign it to the Administrators user group.**
- B. Create a support ticket with SAP to request the full admin rights for a specific user.
- C. Create an Administrators user group and assign the respective person to this group.
- D. Create a user account and assign the access right "administrator".

Answer: A

NEW QUESTION # 29
