Salesforce Certified Experience Cloud Consultant Sample Questions (Q107-Q112):

NEW QUESTION # 107
Bloomington Caregivers (BC) has created a customer Experience site using Experience Cloud that gives customersthe ability to pay this, manage appointments, and open cases with support. BC also has a partner Experience site on Experience Cloud. The company's leadership has now decided to extend access to the customer Experience site to its partners and internal Salesforce users so they can collaborate more effectively.
What is the recommended way to add partners and internal users to the customer Expenence site?

- A. Add the existing partner profiles and internal user profiles to the customer Experience site; this will automatically give usersaccess to the customer site.
- B. Enable the partner accounts and the internal accounts as customers; the users under these accounts will then automatically gam access to the customer site.
- C. Create business accounts for partners and internal users, enable the accounts as customers, and thencreate users under these accounts by creating contacts.
- D. Configure SSO between the partner site and customer site so partners get access. Also configure SSO between internal org and the customer site so internal users get access to the customer site.

Answer: B

Explanation:
To add partners and internal users to the customer Experience site, the recommended way is to enable the partner accounts and the internal accounts as customers; the usersunder these accounts will then automatically gain access to the customer site. A customer account is an account that has the Is Customer checkbox enabled.
This indicates that the account is part of your customer network and can access your customer Experience site. To enable an existing account as a customer, you need to edit the account record and check the Is Customer checkbox. This will automatically grant access to the customer site to all the users under that account, without creating new user recordsor profiles.
