Answer: D

NEW QUESTION # 21

When you are facing a technical problem and you need help, what resource is recommended for all technical information about Check Point products?

- A. You can use any infosec-related online sources.
- B. Press F1 in the SmartConsole and write down the problem.
- C. You can use an online search engine like Google and you will find the answer in the first results.
- **D. Check Point SecureKnowledge, CheckMates, and Check Point Customer Support.**

Answer: D

Explanation:

When facing a technical problem with Check Point products, the recommended resources for accurate and comprehensive technical information are Check Point SecureKnowledge, CheckMates, and Check Point Customer Support. The administration guide highlights the importance of official resources on page 3 under

"Important Information," where it references the R81.20 home page and encourages feedback to improve documentation, implying a structured support ecosystem. SecureKnowledge is Check Point's technical knowledge base, CheckMates is the official community forum, and Customer Support offers direct assistance.

Options like Google (A) or generic infosec sources (C) may provide unverified or incomplete information, while pressing F1 in SmartConsole (D) is not a documented support method in the guide.

NEW QUESTION # 22

How can an administrator tell when the macOS Harmony Endpoint client is successfully installed?

- A. The Harmony management portal will generate a pop-up in the portal to notify the administrator.
- **B. When the client is successfully installed, the Endpoint icon will appear in the computer's menu bar.**
- C. The macOS will generate a pop-up message to notify the administrator.
- D. The Apple device will automatically reboot when the installation is complete. This is confirmation that the client is installed.

Answer: B

Explanation:

An administrator can confirm a successful macOS Harmony Endpoint client installation when the Endpoint icon appears in the computer's menu bar. This is stated on page 151 under "Deploying Mac Clients," noting that "After installation, the Endpoint Security icon appears in the menu bar." Options like automatic reboot (A) or pop-up messages (B, D) are not documented as standard indicators of successful installation in the guide.
