1Y0-205 Certification Exam Dumps | Test 1Y0-205 Preparation

You will stand at a higher starting point than others if you buy our 1Y0-205 exam braindumps. Why are 1Y0-205 practice questions worth your choice? I hope you can spend a little time reading the following content on the website, I will tell you some of the advantages of our 1Y0-205 Study Materials. Firstly, our pass rate for 1Y0-205 training guide is unmatched high as 98% to 100%. Secondly, we have been in this career for years and became a famous brand.

Citrix Virtual Apps and Desktops Administration Sample Questions (Q43-

Q48):

NEW QUESTION # 43
Scenario: A Citrix Administrator needs to power-manage a group of Server OS Virtual Delivery Agent (VDA) machines that are all in the same Delivery Group. The administrator needs all the machines to be restarted once a week during the weekend. Additionally, a subset of the machines should be restarted every day during non-peak hours. Which feature must the administrator change from the default values in order to fulfill the requirements?

- A. Tag restrictions
- B. Peak and non-peak hours
- C. Weekday and weekend hours
- D. Restart duration

Answer: A

Explanation:
Tag restrictions allow administrators to apply different power management schedules to subsets of machines within the same Delivery Group. By tagging certain Server OS VDAs, the administrator can configure weekly restarts for all machines and daily restarts for only the tagged subset during non-peak hours.

NEW QUESTION # 44
Which type of certificate should a Citrix Administrator request so that a client endpoint can communicate with StoreFront over an encrypted connection?

- A. Intermediate
- B. Client
- C. Root
- D. Server

Answer: D

Explanation:
A server certificate must be installed on the StoreFront server to enable secure HTTPS communication. The client endpoint relies on this certificate to establish an encrypted TLS connection with StoreFront.

NEW QUESTION # 45
Scenario: A user is working on a document in an HDX session and saves data on the desktop.
The Virtual Delivery Agent (VDA) session abruptly crashes, causing the saved data to be lost.
Which Citrix Profile Management policy can a Citrix Administrator enable to prevent data loss?

- A. Profile Caching
- B. Profile Streaming
- C. Delay Cached Profile Deletion
- D. Active Write Back

Answer: D

Explanation:
Active Write Back ensures that changes made during the session, such as saving files to the desktop, are written back to the user profile in real time. This prevents data loss if the VDA session crashes unexpectedly.

NEW QUESTION # 46
Which feature can a Citrix Administrator use to publish applications from an Application Group, considering only a subset of the machines in the selected Delivery Group?

- A. Limit Visibility
- B. Application Lingering
- C. Session Sharing

- D. Tag restriction

Answer: D

Explanation:
Tag restriction allows an administrator to publish applications from an Application Group but restrict them to run only on a subset of machines within the associated Delivery Group. This provides flexibility in controlling which resources are used for specific applications.

NEW QUESTION # 47
A Citrix Administrator is configuring a Citrix Virtual Desktops Site for use with a mirrored SQL Server database. Which setting In SQL is important that the administrator configure manually when creating an empty database on the principal SQL Server?

- A. Collation Setting
- B. SQL Mirroring Version
- C. Database Type Setting
- D. SQL Version Number

Answer: A

Explanation:
When configuring a Citrix Virtual Desktops Site with a mirrored SQL Server database, the collation setting must be configured manually and must match across all SQL Servers in the mirroring setup. Citrix relies on consistent collation to ensure proper database functionality.

NEW QUESTION # 48
......

It is a popular belief that only processional experts can be the leading one to do some adept job. And similarly, only high quality and high accuracy 1Y0-205 Exam Questions like ours can give you confidence and reliable backup to get the certificate smoothly because our experts have extracted the most frequent-tested points for your reference.
