NEW QUESTION # 42

A company is implementing the Expense management module in Dynamics 365 Finance. The company has outlined the following business requirements:

- * Standardize expense classifications across all legal entities.
- * Allow each legal entity to define how expenses are handled locally.
- * Ensure financial integration between expense claims and the general ledger.

You need to complete the configurations to meet the business requirements.

Which configurations should you complete? To answer, move the appropriate configurations to the correct business requirements.

You may use each configuration once, more than once, or not at all. You may need to move the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Configurations

- Main account
- Expense policy
- Shared category
- Expense category

Business requirement configurations

Business requirement
 Standardized expense classifications.
 Allow each legal entity to define how expenses are handled.
 Ensure general ledger integration.
