

Need for VMware 2V0-13.24 Exam Questions in Your Preparation

BTW, DOWNLOAD part of BraindumpsPrep 2V0-13.24 dumps from Cloud Storage: https://drive.google.com/open?id=1ptvmY_Q7EM0xCTGcrjII-gmLjGO7azSv

For candidates who need to practice the 2V0-13.24 exam dumps for the exam, know the new changes of the exam center is quite necessary, it will provide you the references for the exam. We will provide you free update for 365 days after purchasing the product of us, so you will know the latest version of 2V0-13.24 Exam Dumps. What's more, our system will send the latest version to your email box automatically. You just need to receive the version.

Have similar features to the desktop-based exam simulator contains actual VMware 2V0-13.24 Practice Test that will help you grasp every topic Compatible with every operating system such as Mac, Linus, iOS, Windows, and Android Works properly on Google chrome, Internet explorer, Microsoft Edge, Opera, etc. Does not require any special plugins to operate creates an exam atmosphere making candidates more confident. Keep track of your progress with self-analysis Points out mistakes at the end of every attempt.

Reliable 2V0-13.24 Test Bootcamp & 2V0-13.24 Reliable Test Pdf

When you try our part of VMware certification 2V0-13.24 exam practice questions and answers, you can make a choice to our BraindumpsPrep. We will be 100% providing you convenience and guarantee. Remember that making you 100% pass VMware Certification 2V0-13.24 Exam is BraindumpsPrep.

VMware Cloud Foundation 5.2 Architect Sample Questions (Q10-Q15):

NEW QUESTION # 10

During the requirements capture workshop, the customer expressed a plan to use Aria Operations Continuous Availability to satisfy the availability requirements for a monitoring solution. They will validate the feature by deploying a Proof of Concept (POC) into an existing low-capacity lab environment. What is the minimum Aria Operations analytics node size the architect can propose for the POC design?

- A. Large
- B. Extra Small
- C. Medium
- D. Small

Answer: D

Explanation:

The customer plans to use Aria Operations Continuous Availability (CA), a feature in VMware Aria Operations (formerly vRealize Operations) introduced in version 8.x and supported in VCF 5.2, to ensure monitoring solution availability. Continuous Availability separates analytics nodes into fault domains (e.g., primary and secondary sites) for high availability, validated here via a POC in a

low-capacity lab. The architect must propose the minimum node size that supports CA in this context. Let's analyze:

Aria Operations Node Sizes: Per the VMware Aria Operations Sizing Guidelines, analytics nodes come in four sizes:

Extra Small: 2 vCPUs, 8 GB RAM (limited to lightweight deployments, no CA support).

Small: 4 vCPUs, 16 GB RAM (entry-level production size).

Medium: 8 vCPUs, 32 GB RAM.

Large: 16 vCPUs, 64 GB RAM.

Continuous Availability Requirements: CA requires at least two analytics nodes (one per fault domain) configured in a split-site topology, with a witness node for quorum. The VMware Aria Operations Administration Guide specifies that CA is supported starting with the Small node size due to resource demands for data replication and failover (e.g., memory for metrics, CPU for processing). Extra Small nodes are restricted to basic standalone or lightweight deployments and lack the capacity for CA's HA features.

POC in Low-Capacity Lab: A low-capacity lab implies limited resources, but the POC must still validate CA functionality. The VCF 5.2 Architectural Guide notes that Small nodes are the minimum for production-like features like CA, balancing resource use with capability. For a POC, two Small nodes (plus a witness) fit a low-capacity environment while meeting CA requirements, unlike Extra Small, which isn't supported.

Option A: Small Small nodes (4 vCPUs, 16 GB RAM) are the minimum size for CA, supporting the POC's goal of validating availability in a lab. This aligns with VMware's sizing recommendations.

Option B: Medium Medium nodes (8 vCPUs, 32 GB RAM) exceed the minimum, suitable for larger deployments but unnecessary for a low-capacity POC.

Option C: Extra Small Extra Small nodes (2 vCPUs, 8 GB RAM) don't support CA, as confirmed by the Aria Operations Sizing Guidelines, due to insufficient resources for replication and failover, making them invalid here.

Option D: Large Large nodes (16 vCPUs, 64 GB RAM) are overkill for a low-capacity POC, designed for high-scale environments.

Conclusion: The minimum Aria Operations analytics node size for the POC is Small (A), enabling Continuous Availability in a low-capacity lab while meeting the customer's validation goal.

NEW QUESTION # 11

When designing for availability across multiple availability zones, which design decision is essential for VMware Cloud Foundation?

Response:

- A. Ensuring high-speed interconnectivity between zones through a dedicated backbone network
- B. Limiting the storage replication to a single data center to minimize overhead
- C. Distributing the network infrastructure across zones for resilience
- D. Using a single vCenter for all availability zones to ensure centralized management

Answer: A

NEW QUESTION # 12

When gathering requirements for a VMware Cloud Foundation deployment, which of the following should be prioritized to ensure a successful deployment?

Response:

- A. The company's cloud preference and security policies
- B. A detailed assessment of current network hardware
- C. The customer's specific use cases and workloads
- D. The storage requirements for the SDDC

Answer: C

NEW QUESTION # 13

Given a disaster recovery scenario, which design decision is best for ensuring minimal downtime of VCF workloads?

Response:

- A. Enabling vSphere HA for all clusters in the environment
- B. Configuring disaster recovery (DR) policies using VMware Site Recovery Manager

- C. Implementing VMware NSX for network segmentation
- D. Sizing the workloads to fit within the available capacity of the primary site

Answer: B

NEW QUESTION # 14

Which two benefits are associated with implementing VMware Cloud Foundation stretched clusters for business-critical applications?

(Choose two)

Response:

- A. Increased latency due to inter-site communication
- B. Seamless failover between sites
- C. Simplified licensing for additional nodes
- D. Enhanced data protection and fault tolerance

Answer: A,B

NEW QUESTION # 15

.....

As the content of the 2V0-13.24 exam is changing from time to time, you may feel anxious that it seems too hard to know the changes. Now, all complicate tasks have been done by our experts. They have rich experience in predicating the 2V0-13.24 exam. Then you are advised to purchase the study materials on our websites. Also, you can begin to prepare the 2V0-13.24 Exam. You are advised to finish all exercises of our 2V0-13.24 preparation questions and pass the exam by the first attempt very easily.

Reliable 2V0-13.24 Test Bootcamp: <https://www.briandumpsprep.com/2V0-13.24-prep-exam-braindumps.html>

We have online and offline service, the staff possess the professional knowledge for 2V0-13.24 exam dumps, if you have any questions, don't hesitate to contact us, In the society, the fact of first-rate importance is the predominant role that certification plays in people's personal profession career (2V0-13.24 quiz torrent: VMware Cloud Foundation 5.2 Architect), What's more, we often have sales promotion regularly, if you are our regular customer, you can get the 2V0-13.24 actual practice with a relatively cheap price.

In contrast, you may repent greatly if you did not choose our 2V0-13.24 updated cram, Composing and Sending Email, We have online and offline service, the staff possess the professional knowledge for 2V0-13.24 Exam Dumps, if you have any questions, don't hesitate to contact us.

Free PDF Quiz VMware - 2V0-13.24 - Perfect VMware Cloud Foundation 5.2 Architect Cert

In the society, the fact of first-rate importance is the predominant role that certification plays in people's personal profession career (2V0-13.24 quiz torrent: VMware Cloud Foundation 5.2 Architect).

What's more, we often have sales promotion regularly, if you are our regular customer, you can get the 2V0-13.24 actual practice with a relatively cheap price, Free update within one year.

There are free demo of 2V0-13.24 pdf torrent in our exam page that you can have a try before purchase.
