

AI-901 Training Tools, New AI-901 Dumps Ebook

We have created a number of reports and learning functions for evaluating your proficiency for the AI-901 exam dumps. In preparation, you can optimize AI-901 practice exam time and question type by utilizing our AI-901 Practice Test Lead1Pass. Lead1Pass makes it easy to download AI-901 exam questions immediately after purchase. You will receive a registration code and download instructions via email.

Microsoft AI-901 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Implement AI solutions by using Microsoft Foundry: This domain is hands-on and focuses on building and deploying AI solutions using the Microsoft Foundry platform and its associated tools. It spans generative AI apps, text and speech processing, computer vision, and document intelligence all implemented through the Foundry portal and SDK.
Topic 2	<ul style="list-style-type: none">Identify AI concepts and capabilities: This domain covers the foundational knowledge of AI from ethical principles and responsible design to understanding how AI models work and what kinds of tasks they can perform. It also explores the full range of AI workloads including generative AI, computer vision, speech, and information extraction.

New AI-901 Dumps Ebook - Latest AI-901 Test Labs

If you fail in the exam with our AI-901 quiz prep we will refund you in full at one time immediately. If only you provide the proof which include the exam proof and the scanning copy or the screenshot of the failure marks we will refund you immediately. If any problems or doubts about our AI-901 exam torrent exist, please contact our customer service personnel online or contact us by mails and we will reply you and solve your doubts immediately. The AI-901 Quiz prep we sell boost high passing rate and hit rate so you needn't worry that you can't pass the exam too much. But if you fail in please don't worry we will refund you. Take it easy before you purchase our AI-901 quiz torrent.

Microsoft Azure AI Fundamentals Sample Questions (Q28-Q33):

NEW QUESTION # 28

Select the answer that correctly completes the sentence.

Answer Area

To define an agent's role and behaviors, you must configure a _____ for the agent.

deployment slot
embedding index
fine tuning job
system prompt

Answer:

Explanation:

NEW QUESTION # 29

You have a Microsoft Foundry project that contains a vision-enabled model deployment.

You are developing an application that sends images to the model.

You need to ensure that the model can analyze the images.

In which two formats can you provide the images? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. a JSON document that describes the image content
- B. a publicly accessible URL of the image
- C. a base64 encoded image data string
- D. a UTF-8 encoded text description of the image

Answer: B,C

Explanation:

For vision-enabled Azure OpenAI / Microsoft Foundry model requests, image input can be provided by using an image URL or base64-encoded image data. Microsoft's Azure OpenAI REST API reference states that the image content part URL field can contain either a URL of the image or the base64 encoded image data. It also states that the Responses API input_image.image_url value can be a fully qualified URL or a base64 encoded image in a data URL.

NEW QUESTION # 30

You are developing an application that processes voicemail recordings by using Azure Content Understanding in Foundry Tools.

Which feature does Azure Content Understanding use to convert audio to text?

- A. transcription
- B. Voice Live
- C. key phrase extraction
- D. optical character recognition (OCR)

Answer: A

Explanation:

Azure Content Understanding uses transcription to convert audio content, such as voicemail recordings, into text. Microsoft's Azure Content Understanding audio documentation states that transcription converts conversational audio into searchable and analyzable

text-based transcripts.

Option A. Voice Live is not the feature used by Content Understanding to convert voicemail recordings into text.

Option B. key phrase extraction identifies important phrases after text is available; it is not the audio-to-text conversion step.

Option D. optical character recognition (OCR) is for extracting text from images or documents, not audio.

Therefore, the correct answer is C. transcription.

NEW QUESTION # 31

You have a Microsoft Foundry project that has a generative AI model deployment.

You need to ensure that responses generated by the model minimize costs and remain within a defined length.

Which parameter should you configure?

- A. Top P
- B. Temperature
- C. Max Completion Tokens
- D. Model version settings

Answer: C

NEW QUESTION # 32

Your company has thousands of recorded customer support calls in multiple languages stored as audio files in Azure Storage.

You need to generate text transcripts of all the recordings.

Which Azure Speech in Foundry Tools capability should you use?

- A. speech translation
- B. speech to text real-time transcription
- C. speech to text batch transcription
- D. text to speech

Answer: C

Explanation:

For thousands of recorded support calls stored as audio files in Azure Storage, the correct capability is speech to text batch transcription.

Microsoft states that batch transcription is designed to transcribe a large amount of audio data in storage, including audio files in Azure Blob Storage, and that files can be processed concurrently to reduce turnaround time.

Real-time transcription is for live audio, not large stored batches. Text to speech converts text into audio. Speech translation translates speech between languages, but the requirement is to generate transcripts.

NEW QUESTION # 33

.....

There are Microsoft Azure AI Fundamentals (AI-901) exam questions provided in Microsoft Azure AI Fundamentals (AI-901) PDF questions format which can be viewed on smartphones, laptops, and tablets. So, you can easily study and prepare for your Microsoft Azure AI Fundamentals (AI-901) exam anywhere and anytime. You can also take a printout of these Microsoft PDF Questions for off-screen study.
