

GICSP PDF Download & Test GICSP Cram Pdf

Passing the GICSP exam with least time while achieving aims effortlessly is like a huge dream for some exam candidates. Actually, it is possible with our proper GICSP learning materials. To discern what ways are favorable for you to practice and what is essential for exam syllabus, our experts made great contributions to them. All GICSP Practice Engine is highly interrelated with the exam. You will figure out this is great opportunity for you.

It is universally accepted that the exam is a tough nut to crack for the majority of candidates, but the related GICSP certification is of great significance for workers in this field so that many workers have to meet the challenge. Fortunately, you need not to worry about this sort of question any more, since you can find the best solution in this website--our GICSP Training Materials. With our continued investment in technology, people and facilities, the future of our company has never looked so bright. There are so many advantages of our GICSP practice test and I would like to give you a brief introduction now.

Test GICSP Cram Pdf, Valid Exam GICSP Blueprint

If your job is very busy and there is not much time to specialize, and you are very eager to get a GICSP certificate to prove yourself, it is very important to choose a very high GICSP learning materials like ours that passes the rate. I know that the 99% pass rate of our GICSP Exam simulating must have attracted you. Do not hesitate anymore. You will never regret buying our GICSP study engine!

GIAC Global Industrial Cyber Security Professional (GICSP) Sample Questions (Q90-Q95):

NEW QUESTION # 90

Which of the following is a common risk associated with Bluetooth Low Energy (BLE) communication in ICS environments?

Response:

- A. Limited range for communication
- **B. Vulnerability to replay attacks**
- C. Lack of support for encryption
- D. High power consumption

Answer: B

NEW QUESTION # 91

What is the primary objective of disaster recovery planning in an ICS environment?

Response:

- **A. To quickly restore critical functions after an incident**
- B. To improve system performance
- C. To increase system efficiency
- D. To manage physical security of the ICS

Answer: A

NEW QUESTION # 92

Which of the following is a facilitated tabletop exercise that is run in odd years and provides an overall public Lessons Learned report each year it is run?

- A. CRPA
- **B. GridEx**
- C. CTEP
- D. E-ISAC

Answer: B

Explanation:

GridEx (C) is a major, biennial cybersecurity exercise coordinated by the North American Electric Reliability Corporation (NERC) and other stakeholders. It typically occurs in odd years and involves multiple entities from across the grid, simulating large-scale cyber and physical attacks.

GridEx exercises culminate in a public Lessons Learned report to improve preparedness.

CRPA (A) and CTEP (D) are different programs/exercises, and E-ISAC (B) is the Electricity Information Sharing and Analysis Center, not an exercise.

GICSP recognizes GridEx as a critical event for testing incident response capabilities in ICS sectors.

NEW QUESTION # 93

What is a common vulnerability of PLCs at Level 1 in ICS environments?

Response:

- A. Lack of real-time processing capabilities
- B. Limited internet connectivity
- C. Weak password policies
- **D. Lack of robust encryption mechanisms**

Answer: D

NEW QUESTION # 94

Which of the following is part of the Respond function of the NIST CSF (cybersecurity framework)?

- A. Restoring from backup a system that had been compromised
- B. Limiting user access to only those network resources necessary for them to do their jobs
- **C. Performing forensics analysis on a system and eradicating malware**
- D. Discovering malicious activity on the network using multiple sensors

Answer: C

Explanation:

The Respond function of the NIST Cybersecurity Framework (CSF) focuses on activities to contain, mitigate, and eradicate incidents once detected.

Performing forensic analysis and eradicating malware (B) falls clearly within the Respond function.

(A) Discovering malicious activity is part of the Detect function.

(C) Restoring from backup is part of the Recover function.

(D) Limiting user access is a Preventive control under the Protect function.

GICSP training maps ICS security activities to the NIST CSF to guide structured incident response.
