#### NEW QUESTION # 156

You are a functional consultant working on purchase returns in Dynamics 365 Business Central.

A customer orders 100 pieces of an item from a vendor. After receiving them into inventory and posting the invoice, the customer determines that only 50 pieces are needed.

You create a purchase return order to return 50 pieces of the item. The vendor has authorized the return.

You need to apply the return to the original purchase.

Which five actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Actions	Answer Area
Post the purchase return order	
Set the purchase return order's item line <b>Quantity</b> to 50 pieces	
Set the <b>Document Type</b> filter to <b>Posted Invoices</b> and select the correct line	
Run the <b>Copy Document...</b> function	 
Run the <b>Get Posted Doc... to Reverse...</b> function	
Enable the <b>Return Original Quantity</b> option	
Enable the <b>Show Reversible Lines Only</b> option	

Answer:

Explanation:

**Answer Area**

Run the Get Posted Doc....

Enable the Show Reversible Lines Only option

Set the Document Type filter ...

Set the purchase return order's...

Post the purchase return order

1 - Run the Get Posted Doc....

2 - Enable the Show Reversible Lines Only option

3 - Set the Document Type filter ...

4 - Set the purchase return order's...

5 - Post the purchase return order

Configure shortcut dimensions

Choose a shortcut dimension code on General Ledger Setup
Assign a dimension value of Shortcut to Dimensions
Add default dimensions to Master Records
Choose dimensions on an Analysis View

Explanation:

## Requirement

Set up dimensions

## Action

Create a new entry on Dimensions
Select a dimension on Sales & Receivables Setup
Choose a code in the Dimensions FastTab on General Ledger Setup
Add default dimensions to General Ledger Accounts

Configure global dimensions

Change global dimensions on General Ledger Setup
Add a global dimension on General Ledger Setup
Assign a dimension value of Global to Dimensions
Select Global Dimensions on all Setup pages

Configure shortcut dimensions

Choose a shortcut dimension code on General Ledger Setup
Assign a dimension value of Shortcut to Dimensions
Add default dimensions to Master Records
Choose dimensions on an Analysis View

## Comprehensive Detailed Explanation

The company's reporting requirements are:

- \* They need to analyze which customers are buying which items.
- \* They need to analyze which salespeople are selling in which regions.
- \* They also need consistent reporting for Customer Groups, Item Groups, Salesperson, and Region.

In Business Central, dimensions are the mechanism to capture these classifications (customer groups, item groups, salesperson, region). To configure reporting dimensions properly, the following steps are required:

- \* Set up dimensions
- \* Before using any dimensions, you must define them in the Dimensions page. This is where new entries such as Customer Group, Item Group, Salesperson, and Region are created.
- \* Correct action: Create a new entry on Dimensions.
- \* Configure global dimensions
- \* Business Central allows two global dimensions that become available on all transaction lines and entries. These are the most used reporting breakdowns.
- \* Since the company must always report sales by customer and item, these should be set as global dimensions.
- \* Correct action: Change global dimensions on General Ledger Setup.
- \* Configure shortcut dimensions
- \* Shortcut dimensions (up to 8) are additional reporting dimensions that can be made available for entry on journals, documents, and transactions. These are perfect for Region and Salesperson requirements.
- \* Correct action: Choose a shortcut dimension code on General Ledger Setup.

This setup ensures reporting can directly answer the business questions in financial results and enable analysis across Customer

## Groups, Item Groups, Salespeople, and Regions.

## Microsoft Learn References

- \* Work with Dimensions
- \* Set Up Dimensions
- \* General Ledger Setup - Global and Shortcut Dimensions
- \* Analysis by Dimensions
