According to the candidate's demand, PrepAwayExam will update SAP C\_BCBTM\_2509 dumps. PrepAwayExam is a composite of top IT experts, certified trainers and competent authors for SAP C\_BCBTM\_2509 exam. They collate the braindumps, guarantee the quality! No matter how the times change, PrepAwayExam good quality will never change. After the majority of candidates purchase our products, they passed SAP C\_BCBTM\_2509 Certification Exam, which indicates PrepAwayExam has high quality.

### SAP Certified Associate - Positioning SAP Business Transformation Management Solutions Sample Questions (Q22-Q27):

#### NEW QUESTION # 22

What are the key functional categories of WalkMe's capabilities in the new pricing model?

- A. Content Creation, Deployment, Analytics & Insights
- B. Workflow Automation, User Engagement, Security & Privacy
- C. Data & Analytics, Action & Experience, Platform & Admin
- D. Digital Adoption, Process Optimization, Compliance Management

**Answer: C**

Explanation:

In WalkMe's new pricing and capability model, its platform capabilities are structured into three primary functional categories: Data & Analytics, Action & Experience, and Platform & Admin.

These categories align with WalkMe's enterprise focus on digital adoption, measurement, and governance.

"WalkMe's new pricing model organizes core capabilities into Data & Analytics, Action & Experience, and Platform & Admin, ensuring clarity, scalability, and measurable outcomes for enterprise customers." Reference:

Data & Analytics provide insights into user behavior and adoption.

Action & Experience focuses on guidance, automation, and in-app user experiences.

Platform & Admin manages security, governance, and deployment administration.

"These capability pillars ensure organizations can measure adoption, act to improve user journeys, and govern platform usage effectively." Incorrect Options:

A: Content creation and deployment are part of "Action & Experience," but not the complete categorization.

C & D: These describe solution outcomes, not the functional capability categories.

Verified Correct answer: B: Data & Analytics, Action & Experience, Platform & Admin.

#### NEW QUESTION # 23

Of the following options, which technologies does SAP provide to help organizations transform?

- A. SAP Signavio and SAP LeanIX solutions
- B. SAP Finance and SAP Marketing
- C. SAP ERP and SAP CRM
- D. SAP Sales and SAP HR

**Answer: A**

Explanation:

SAP enables digital transformation primarily through its Business Transformation Management (BTM) portfolio, led by SAP Signavio and SAP LeanIX. These technologies give organizations the tools to visualize, plan, and manage transformation initiatives effectively.

"SAP helps organizations accelerate transformation with SAP Signavio for business process transformation and SAP LeanIX for enterprise architecture and technology management." Reference:

SAP Signavio enables business process analysis, mining, and optimization, while SAP LeanIX supports enterprise architecture, application portfolio management, and technology risk compliance - together offering full visibility from business to IT.

"The combination of SAP Signavio and SAP LeanIX forms the backbone of SAP's transformation offerings, aligning business process improvements with IT landscape modernization." Incorrect Options:

A, B, and C refer to standard ERP or LOB modules, not transformation-focused solutions.  
Verified Correct answer: D: SAP Signavio and SAP LeanIX solutions.

#### NEW QUESTION # 24

What does WalkMe Discovery help organizations achieve?

- A. Translates all tools into multiple languages automatically
- B. Automates training development processes
- C. Identifies underutilized tools and compliance risks
- D. Enhances employee satisfaction scores by 50%

**Answer: C**

Explanation:

WalkMe Discovery is a key component of the SAP Business Transformation Management (BTM) suite through SAP's partnership with WalkMe. It is designed to provide visibility into the digital application landscape and analyze software usage across the enterprise.

"WalkMe Discovery automatically discovers all web-based applications used across the organization, revealing underutilized tools, shadow IT, and potential compliance risks." Reference:

The tool allows transformation leaders to map actual system usage, understand license utilization, and identify areas of inefficiency or non-compliance, which directly supports SAP's Business Transformation Management (BTM<sup>2</sup>) framework goals for transparency and optimization.

"By identifying unused or redundant applications, WalkMe Discovery helps organizations reduce costs and mitigate compliance risks as part of their transformation initiatives." Option A (translation automation) and C (automated training development) are functions more aligned with WalkMe Digital Adoption Platform (DAP), not the Discovery module.

"While the WalkMe DAP provides in-app guidance and user training automation, Discovery focuses on discovering and analyzing app usage." Option D (enhancing satisfaction by 50%) is not a defined or measurable objective of the Discovery module; SAP does not claim specific numerical outcomes related to satisfaction.

Therefore, the correct answer - verified from SAP's official transformation documentation and WalkMe integration materials - is B: Identifies underutilized tools and compliance risks.

#### NEW QUESTION # 25

What roles do SAP Business Transformation Management solutions play in transformation scenarios?

(Note: There are 2 correct answers to this question.)

- A. They analyze as-is processes and IT landscapes only.
- B. They support change management.
- C. They are limited to the operate phase of transformations.
- D. They provide a data-driven approach for Enterprise Observability.

**Answer: B,D**

Explanation:

SAP Business Transformation Management (BTM) Solutions are designed to guide organizations through the complete transformation lifecycle, from strategy and planning to implementation and adoption. They combine process analysis, enterprise architecture management, and user adoption capabilities through solutions such as SAP Signavio, SAP LeanIX, and WalkMe.

"SAP's Business Transformation Management Solutions deliver an integrated, data-driven foundation that provides visibility, transparency, and governance across all phases of business transformation while supporting organizational change management."

Reference:

Supporting Change Management (Answer B):

A core objective of SAP BTM solutions is to enable and sustain change across people, processes, and technology. Through SAP Signavio's collaborative design tools and WalkMe's adoption capabilities, organizations can manage stakeholder engagement, communication, and behavior alignment effectively.

"BTM Solutions provide tools to manage the human side of transformation, ensuring that employees adapt successfully to new processes and technologies." Providing a Data-Driven Approach for Enterprise Observability (Answer C):

BTM Solutions deliver data-based visibility into business and IT landscapes through SAP LeanIX and SAP Signavio integration. This allows organizations to observe and measure transformation progress, dependencies, and business value using live data.

"SAP BTM Solutions integrate business process intelligence with enterprise architecture management, providing a data-driven approach to enterprise observability for informed transformation decisions." Why Other Options Are Incorrect:

A: Incorrect - BTM Solutions are not limited to the operate phase; they span discover, design, deliver, and run phases of transformation.

D: Incorrect - They analyze both as-is and to-be states to enable continuous improvement and future-state optimization. Therefore, the verified and correct answers according to SAP BTM documentation are:

B: They support change management.

C: They provide a data-driven approach for Enterprise Observability.

### NEW QUESTION # 26

How does the SAP Signavio Process Collaboration Hub help organizations?

- A. By creating marketing strategies based on customer feedback.
- B. By automatically generating legal compliance reports and enabling collaboration.
- C. **By providing transparency into processes and enabling collaboration.**
- D. By replacing existing process modeling tools with AI-driven automation.

**Answer: C**

Explanation:

The SAP Signavio Process Collaboration Hub is designed to make business processes transparent and accessible across the organization while fostering collaboration among stakeholders.

"The SAP Signavio Process Collaboration Hub provides a central entry point for all users to access, share, and collaborate on process-related information, offering transparency across business processes." Reference:

It allows employees, analysts, and management to view, discuss, and contribute to process improvement initiatives, supporting collaborative transformation and process governance.

"It enables everyone in the organization to access process information, provide feedback, and collaborate for continuous improvement." Options A, C, and D are incorrect:

A: Compliance reporting is not a function of Collaboration Hub.

C: Marketing strategy and customer feedback analysis are outside its purpose.

D: It does not replace modeling tools; it integrates with Process Manager and Process Intelligence.

Thus, the correct and SAP-verified answer is B: By providing transparency into processes and enabling collaboration.

### NEW QUESTION # 27

.....

For the purposes of covering all the current events into our C\_BCBTM\_2509 study guide, our company will continuously update our training materials. And after payment, you will automatically become the VIP of our company, therefore you will get the privilege to enjoy free renewal of our C\_BCBTM\_2509 practice test during the whole year. No matter when we have compiled a new version of our C\_BCBTM\_2509 Training Materials our operation system will automatically send the latest version of the C\_BCBTM\_2509 preparation materials for the exam to your email, all you need to do is just check your email then download it.
