Salesforce Certified Experience Cloud Consultant Sample Questions (Q48-Q53):

NEW QUESTION # 48
Universal Containers has implemented Chat, but agents are complaining that they have to capture several pieces of information before being able to service the customer.
What should an administrator do to capture information upfront on the Experience site?

- A. Enable Chat for only authenticated users and pass the user's information on hidden fields.
- B. Create a pre-chat form to fill out before initiating Chat.
- C. Create a flow for customers to fill out before initiating Chat.

- D. Deploy a unique chat per topic.

Answer: B

NEW QUESTION # 49
The mission of No More Homelessness (NMH) is to help every homeless person in the best possible manner through its Experience Cloud site. NMH's site manager wants to set up search engine optimization (SEQ) to ensure NMH's public Experience Cloud site is visible to search engines.
Which two practices does the site manager need to do to ensure SEO is implemented successfully?
Choose 2 answers

- A. Check whether a custom robots.txt file to control indexing has been created.
- B. Check whether the Experience site is public and activated. Pencil & Paper
- C. Check whether the SEO Institute has provided the approval for the site with end date.
- D. Check whether manual sitemap refresh happens on the last day of every month.

Answer: A,B

Explanation:
A robots.txt file is a text file that tells web crawlers which pages or files the crawler can or can't request from your site. This is used mainly to avoid overloading your site with requests; it is not a mechanism for keeping a web page out of Google. You can create a custom robots.txt file for your Experience Cloud site to control how search engines index your site.
To make your Experience Cloud site visible to search engines, you also need to make sure that your site is public and activated. A public site allows anyone on the internet to access your site without logging in. An activated site is live and ready for visitors.

NEW QUESTION # 50
Partners at Universal Containers (UC) have given feedback that it takes too long for administrators to create new users or reset passwords for partner employees.
What should be done to help UC with user management?

- A. Implement a limit on new users and password resets.
- B. Delegate external user administration.
- C. Recommend partners share user credentials.
- D. Create a new user form that automatically triggers a process to create a user.

Answer: D

NEW QUESTION # 51
Universal Containers has recently launched a site for its retailers. Retailers able to collaborates with other retailers around topic; however, retail managers aren't' able to see records owned by their peers and subordinates.
What should be done to resolve the issue?

- A. Retail managers need to be given Super User access.
- B. Retail managers need to be put in the executive role in the Role Hierarchy.
- C. A Sharing Rule needs to be created.
- D. A Sharing Set needs to be created.

Answer: A

NEW QUESTION # 52
Dreamscape Flowers (DF) is evaluating Salesforce Partner Relationship Management (RPM) to help improve its current channel sales performance.
In what two ways can Salesforce PRM help DF accelerate channel sales?
Choose 2 answers

- A. By automating partner entitlement assignment in Channel sales teams

- B. By automating quoting with Salesforce CPQ
- C. By automating partner lead routing
- D. BY automating partner tiering in Channel sales hierarchy

Answer: B,C

NEW QUESTION # 53
......
