Exam F5CAB4 Cram Questions - F5CAB4 Latest Test Cost

For the peace of your mind, you can also try a free demo of F5 F5CAB4 Dumps practice material. You will not find such affordable and latest material for F5 certification exam anywhere else. Don't miss these incredible offers. Order real F5 F5CAB4 Exam Questions today and start preparation for the certification exam.

To prepare for F5CAB4 exam, you do not need read a pile of reference books or take more time to join in related training courses, what you need to do is to make use of our GetValidTest exam software, and you can pass the exam with ease. Our exam dumps can not only help you reduce your pressure from F5CAB4 Exam Preparation, but also eliminate your worry about money waste. We guarantee to give you a full refund of the cost you purchased our dump if you fail F5CAB4 exam for the first time after you purchased and used our exam dumps. So please be rest assured the purchase of our dumps.

F5CAB4 Latest Test Cost | Study Materials F5CAB4 Review

Our F5CAB4 study practice materials have so many advantages that basically meet all the requirements of the user. If you have a good comments or suggestions during the trial period, you can also give us feedback in a timely manner. Our F5CAB4 study materials will give you a benefit, we do it all for the benefits of the user. Our pass rate for F5CAB4 Training Material is as high as 99% to 100%, which is proved from our loayl customers, and you will be the next to benefit from it. Our F5CAB4 practice files look forward to your joining in.

F5 BIG-IP Administration Control Plane Administration Sample Questions (Q49-Q54):

NEW QUESTION # 49
A BIG-IP Administrator is unable to connect to the management interface via HTTPS. What is a possible reason for this issue?

- A. The port lockdown setting is configured to Allow None.
- B. The IP address of the device used to access the management interface is NOT included in the "P Allow" list in the Configuration Utility.
- C. An incorrect management route is specified.
- D. The IP address of the device used to access the management interface is NOT included in the "httpd Allow" list in the CLI.

Answer: D

Explanation:
Comprehensive and Detailed Explanation From BIG-IP Administration Control Plane Administration documents: Management connectivity is protected by an allowed access list for the httpd daemon. Unlike TMM data ports which use 'Port Lockdown' settings, the management port's access is controlled by a specific 'Allow' list323232. If an administrator's IP is not explicitly included in this list, the Control Plane will reject HTTPS connection attempts to the management utility33.

NEW QUESTION # 50
New Syslog servers have been deployed in an organization. The BIG-IP Administrator must reconfigure the BIG-IP system to send log messages to these servers.
In which location in the Configuration Utility can the BIG-IP Administrator make the needed configuration changes to accomplish this? (Choose one answer)

- A. System > Logs > Audit
- B. System > Configuration > Local Traffic
- C. System > Logs > Configuration
- D. System > Configuration > Device

Answer: C

Explanation:
On a BIG-IP system, remote syslog server configuration is managed through the logging configuration framework. In the Configuration Utility, this is accessed via:
System > Logs > Configuration
This section allows the administrator to:
* Define remote syslog destinations
* Configure log publishers
* Control which log types (system, audit, LTM, ASM, etc.) are forwarded to external syslog servers Why the other options are incorrect:
* A. System > Configuration > Local TrafficUsed for traffic management settings, not logging.
* C. System > Logs > AuditDisplays audit log settings and content but does not configure remote syslog destinations.
* D. System > Configuration > DeviceUsed for device-level settings such as hostname and platform configuration, not logging.
Therefore, the correct location to reconfigure BIG-IP to send logs to new syslog servers is System > Logs > Configuration.

NEW QUESTION # 51
The BIG-IP Administrator has modified an iRule on one device of an HA pair. The BIG-IP Administrator notices there is NO traffic on the BIG-IP device in which they are logged into. What should the BIG-IP Administrator do to verify if the iRule works correctly?

- A. Push configuration from this device to the group and start to monitor traffic on this device
- B. Log in to the other device in the cluster, push configuration from it, and start to monitor traffic on that device
- C. Pull configuration to this device to the cluster and start to monitor traffic on this device
- D. Log in to the other device in the cluster, pull configuration to it, and start to monitor traffic on that device

Answer: D

Explanation:

Comprehensive and Detailed Explanation From BIG-IP Administration Control Plane Adminis44tration documents: In a45n Active/Standby HA pair, application traffic only flows through the Active device. If an administrator makes a change on the Standby device (which has no traffic), they must synchronize the configuration to the Active device to test it. The procedural step is to log into the Active device and "pull" the configuration from the Standby device (or push from Standby) so the Active device can process traffic using the new iRule

NEW QUESTION # 52

One of the two members of a device group has been decommissioned. The BIG-IP Administrator tries to delete the device group, but is unsuccessful. Prior to removing the device group, which action should be performed?

- A. Remove all members from the device group
- B. Make sure all members of the device group are in sync
- C. Remove the decommissioned device from the device group
- D. Disable the device group

Answer: A

Explanation:
To maintain integrity in a High Availability environment, TMOS prevents the deletion of active Devic28e Groups. Procedurally, a device group is a container for synchronization; the Control Plane requires that you first strip the group of all associated members (devices) before the group object itself can be removed from the configuration.

NEW QUESTION # 53

When looking at this BIG-IP prompt: root@virtual-bigip1] Peer Time Out of Sync What does the message indicate? (Choose one answer)

- A. That there was a time synchronization issue between the BIG-IP device and its peer
- B. That the peer BIG-IP is unreachable for the device group
- C. That the local time is correct, but the remote time is incorrect
- D. That one of the NTP sources has a skewed clock

Answer: A

Explanation:
On BIG-IP systems that participate in a Device Service Cluster (DSC), each device compares the remote device's system time to its own system time. If the difference is outside the ConfigSync time threshold (commonly referenced as 3 seconds by default), BIG-IP updates the shell prompt to show "Peer Time Out of Sync", and ConfigSync operations may fail until time is corrected (typically by fixing NTP reachability
/configuration, or in some cases adjusting the threshold). (cdn.studio.f5.com) This message is specifically about time drift between peers in the trust domain/DSC-not basic reachability (so B is not what it means), and it does not prove which side is "correct" (so C is too specific). It also doesn't directly mean an NTP source is "skewed" (A can be a cause, but the prompt message itself indicates the peer- to-peer time mismatch condition). (cdn.studio.f5.com)

NEW QUESTION # 54

......

Most of the F5CAB4 exam dumps on the platform are out of reach for most users due to their high price. Visit the F5 F5CAB4 exam dumps if you want to buy real F5 F5CAB4 Exam Questions at a good price. Start your F5 F5CAB4 exam preparation with our exam practice questions.

F5CAB4 Latest Test Cost: https://www.getvalidtest.com/F5CAB4-exam.html

Our F5CAB4 practice test can help you pass exam easily, If you are afraid of failure please rest assured to purchase our exam questions, I am sure that our F5CAB4 actual test will help you pass exam, F5 Exam F5CAB4 Cram Questions With it, what do you worry about, F5 Exam F5CAB4 Cram Questions We believe that you will definitely make a decision immediately after use, F5 Exam F5CAB4 Cram Questions We will be your best friend to help you achieve success!

So I put a note to that effect, copied the F5CAB4 quality assurance people, the service people, the marketing people, everybody

else, If it is not possible to describe precisely F5CAB4 Latest Test Cost what a function does, then perhaps the function itself should be changed.

100% Pass F5 - High Hit-Rate Exam F5CAB4 Cram Questions

Our F5CAB4 Practice Test can help you pass exam easily, If you are afraid of failure please rest assured to purchase our exam questions, I am sure that our F5CAB4 actual test will help you pass exam.

With it, what do you worry about, We believe that you will Exam F5CAB4 Cram Questions definitely make a decision immediately after use, We will be your best friend to help you achieve success!
