

# Valid Veeam VMCE\_v12 Questions - Pass Exam And Advance Your Career

BONUS!!! Download part of DumpsTests VMCE\_v12 dumps for free: <https://drive.google.com/open?id=1pp8msnUEX5SqFQFk71UJ7xlASpX5J5kF>

The objective of DumpsTests is help customer get the certification with Veeam latest dumps pdf. As long as you remember the key points of VMCE\_v12 test answers and practice exam pdf skillfully, you have no problem to pass the exam. If you lose exam with our VMCE\_v12 Dumps Torrent, we promise you full refund to reduce your loss.

## Veeam VMCE\_v12 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>Transport modes: This section aims to analyze different methods to collect and read data from the production environment.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>Virtual machine backup: This section of the exam covers protecting the VMware and Hyper V to safeguard VMware that follows SLAs.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>Veeam Backup Enterprise Manager: The section describes the use cases for Veeam Backup Enterprise Manager.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>Backup copies: This section ensures the process of recoverability and adheres to the 3-2-1 Rule with backup copy processes.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Data protection strategies: This section of the exam covers an overview of data protection strategies.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>Initial security considerations: This section defines ways and tools to secure the Veeam backup server.</li> </ul>
Topic 7	<ul style="list-style-type: none"> <li>Unstructured data backup: This section is about highlighting vital features required to protect unstructured data.</li> </ul>
Topic 8	<ul style="list-style-type: none"> <li>Verifying recoverability: This section of the exam covers the creation of automated tests to ensure recoverability from backups and replicas.</li> </ul>
Topic 9	<ul style="list-style-type: none"> <li>Recovery scenarios and features: This section covers the impact of various recovery procedures and choosing the most viable recovery technique.</li> </ul>
Topic 10	<ul style="list-style-type: none"> <li>Scale-out Backup Repository: This section of the exam covers the description of the architecture, placement policies, and data tiers.</li> </ul>
Topic 11	<ul style="list-style-type: none"> <li>Core components: This section of the exam covers exploring the functionality of Veeam Backup &amp; Replication and system requirements.</li> </ul>
Topic 12	<ul style="list-style-type: none"> <li>Veeam Data Platform: This section deals with the identification and description of the goal of each major product in the Veeam Data Platform.</li> </ul>

- Incident Response Planning: This section of the exam covers integrating Veeam Backup and Replication into the incident response strategy.

## 100% Pass Quiz 2026 Veeam VMCE\_v12: Newest Veeam Certified Engineer v12 Official Practice Test

We all know that the major problem in the IT industry is a lack of quality and practicality. DumpsTests Veeam VMCE\_v12 questions and answers to prepare for your exam training materials you need. Like actual certification exams, multiple-choice questions (multiple-choice questions) to help you pass the exam. The our DumpsTests Veeam VMCE\_v12 Exam Training materials, the verified exam, these questions and answers reflect the professional and practical experience of DumpsTests.

### Veeam Certified Engineer v12 Sample Questions (Q112-Q117):

#### NEW QUESTION # 112

Veeam Agent for Linux has been installed in standalone mode on a Linux physical server. The backup job is configured to write to a Veeam repository. Which of the following media types is available as a recovery media?

- A. Tape
- **B. USB drive**
- C. Object storage
- D. Veeam Backup & Replication repository

**Answer: B**

Explanation:

Explanation

According to the Veeam Agent for Linux User Guide<sup>1</sup>, Veeam Agent for Linux lets you use the Veeam Recovery Media - a recovery image of the Linux OS that provides an alternative way to boot your computer.

The recovery image is an ISO file that you can burn to a CD/DVD or write to a USB flash drive.

#### NEW QUESTION # 113

A new Microsoft SQL database has been created on a new virtual server. A virtual machine backup job was created and executed. After testing, it was found that the database could not be recovered to a fine-tuned point in time.

What must be changed on the backup job to perform the recovery?

- A. Make sure the server is selected in the Virtual Machines tab, then select the database using the Add Objects selection screen.
- B. Make sure to set the advanced option to the incremental backup mode in the storage section of the backup wizard and schedule the job to run every 15 minutes.
- C. Use the guest interaction proxy setting to complete the database backup Disable application-aware processing and schedule the job to run every 15 minutes
- **D. Enable application-aware processing in the guest processing section of the job. Configure database-specific settings and set the log options to capture the logs to the desired interval.**

**Answer: D**

Explanation:

You need to enable SQL-aware processing so Veeam will truncate and back up transaction logs at the interval you specify, allowing point-in-time restores. In your VM backup job's Guest Processing settings:

- Enable application-aware processing

- Go into the SQL database settings and configure the log backup options for your desired interval (e.g., every 15 minutes) This will capture the log tail and give you fine-grained recovery points for your new database.

#### NEW QUESTION # 114

Company security policy states that backups must be copied to a remote location within 8 hours.

What step can a backup administrator take to receive an alert automatically if the backup copy job violates the company's policy?

- A. Set a backup copy window alert on the repository
- B. Set up post-thaw scripts to send an email
- C. Set a Data Protection alert in Enterprise Manager
- **D. Enable the appropriate RPO monitor**

**Answer: D**

Explanation:

To receive an automatic alert if the backup copy job violates the company's 8-hour policy for copying backups to a remote location, the backup administrator should enable the appropriate Recovery Point Objective (RPO) monitor. This feature tracks the age of the latest backup and alerts when it exceeds the defined RPO. References: Veeam Backup & Replication Documentation, Veeam RPO Monitoring and Reporting Guide

#### NEW QUESTION # 115

Which of the following backup types are valid for both Veeam Agent for Microsoft Windows and Veeam Agent for Linux? (Choose two.)

- **A. File-level backup**
- **B. Volume-level backup**
- C. Snapshot-level backup
- D. OS-level backup
- E. Personal files backup

**Answer: A,B**

Explanation:

Explanation

[https://helpcenter.veeam.com/docs/agentforwindows/userguide/backup\\_job\\_mode.html?ver=60](https://helpcenter.veeam.com/docs/agentforwindows/userguide/backup_job_mode.html?ver=60)

#### NEW QUESTION # 116

A company is running nightly backups to satisfy their 24-hour RPO. There are two critical applications that cannot be offline more than 4 hours with no more than an hour of data loss.

How can this be accomplished?

- A. Enable Continuous Backup Replication
- B. A local SOBR with AWS Object storage
- **C. Backup copy jobs with hourly VM replication**
- D. Linux hardened repository with immutability

**Answer: C**

Explanation:

To meet the stringent Recovery Time Objective (RTO) of 4 hours and Recovery Point Objective (RPO) of 1 hour for the two critical applications, the most suitable approach is to use a combination of backup copy jobs and hourly VM replication, which corresponds to answer C. Backup copy jobs can ensure that backups are available offsite for disaster recovery purposes, while VM replication provides the ability to quickly failover to a replica VM in case of a primary VM failure, thereby minimizing downtime. Veeam's replication capabilities are designed to create exact copies of VMs at regular intervals, which can then be rapidly activated in case of a failure. This strategy ensures that the applications can be brought back online within the 4-hour RTO, with data loss not exceeding the 1-hour RPO, thus meeting the company's stringent data protection requirements for these critical applications.

#### NEW QUESTION # 117

.....

Education degree does not equal strength, and it does not mean ability. Education degree just mean that you have this learning

experience only. And the real ability is exercised in practice, it is not necessarily linked with the academic qualifications. Do not feel that you have no ability, and don't doubt yourself. When you choose to participate in the Veeam VMCE\_v12 Exam, it is necessary to pass it. If you are concerned about the test, however, you can choose DumpsTests's Veeam VMCE\_v12 exam training materials. No matter how low your qualifications, you can easily understand the content of the training materials. And you can pass the exam successfully.
