Oracle 1Z0-1069-24 考試大綱：

主題	簡介
主題 1	Managing General Settings: This section of the exam measures skills of an HR System Administrator and covers the foundational configurations required to set up Oracle Recruiting Cloud. It includes managing basic settings that control the overall system behavior, ensuring alignment with organizational needs.

主題 2	Managing the Candidate: This section of the exam measures the skills of a Recruiting Manager and covers the management of candidates throughout the recruitment process. It includes tracking candidate status, managing candidate pipelines, and ensuring effective communication. This ensures recruiters can maintain organized, up-to-date candidate records and optimize their workflow from application to offer.
主題 3	Using AI Capabilities in Recruiting: This section of the exam measures the skills of a Recruiting Manager and covers how to integrate and utilize Oracle's AI tools within the recruiting process. It focuses on leveraging artificial intelligence to enhance candidate sourcing, screening, and engagement. The section ensures that recruiters can effectively use AI to streamline workflows, improve candidate matching, and make data-driven hiring decisions.
主題 4	Managing the Hire: This section of the exam measures the skills of an HR System Administrator and covers the final steps in the recruitment process, focusing on managing new hires within the Oracle Recruiting Cloud. It involves the setup and management of hiring workflows, ensuring seamless integration with core HR systems. The goal is to ensure that once a candidate is selected, the transition to employee status is smooth and compliant with organizational policies.

問題 #36

A recruiting administrator wants to create a new design for their career site, but is struggling to come up with creative paragraph content for the updated pages. Which feature would best support the administrator in this endeavor?

- A. Transaction Design Studio
- B. AI Assistant
- C. Career Site Create

答案: B

解題說明:

The AI Assistant feature best supports generating creative content for career site pages.

Step-by-Step Solution:

- * Go to Career Site Configuration in Oracle Recruiting Cloud.
- * Activate the AI Assistant feature (if enabled).
- * Enter a prompt (e.g., "Generate a welcoming paragraph for tech job seekers").
- * Use the AI-generated content to enhance the career site pages.

The AI Assistant leverages generative AI to assist with content creation, making it ideal for administrators needing creative text. Career Site Create focuses on design structure, and Transaction Design Studio is for UI customization, not content generation.
