Advancement in Plat-101 information and communications technology generates huge potential for moving business and production up the value-chain, and improving the quality of life of citizens. And there is no doubt that you can get all kinds of information in cyber space now, Plat-101 Latest Torrent is not an exception. I strongly recommend the study materials compiled by our company for you, the advantages of our Plat-101 exam questions are too many to enumerate; I will just list three of them for your reference.

Salesforce Plat-101 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">• Salesforce Ecosystem: This section of the exam measures skills of Marketing Cloud Administrators and covers the overall Salesforce ecosystem. It focuses on understanding the different resources available for learning and skill development, recognizing how Salesforce Customer 360 products can be applied in real business use cases, and explaining how organizations make use of Salesforce in daily operations. It also highlights awareness of job roles and career opportunities within the Salesforce ecosystem.
Topic 2	<ul style="list-style-type: none">• Navigation: This section of the exam measures the skills of Marketing Specialists and covers how users navigate Salesforce. It tests the ability to locate and access necessary information in given scenarios and to identify where different types of Salesforce customizations take place. The emphasis is on practical system navigation that supports marketing operations.
Topic 3	<ul style="list-style-type: none">• Data Model: This section of the exam measures skills of Marketing Cloud Administrators and covers Salesforce's data model. It involves understanding the relationship between core standard objects such as Accounts, Contacts, Leads, Opportunities, and Cases. The section also evaluates knowledge of ensuring data visibility through features and maintaining data integrity using the right tools in different business scenarios.
Topic 4	<ul style="list-style-type: none">• Reports & Dashboards: This section of the exam measures skills of Marketing Specialists and covers reporting and visualization in Salesforce. It includes describing how reports are built, how dashboards present insights, and how these tools help organizations monitor performance and make informed marketing decisions.

Marvelous Certification Plat-101 Book Torrent Provide Prefect Assistance in Plat-101 Preparation

Practicing under these situations helps to kill Salesforce Certified Platform Foundations (Plat-101) exam anxiety. Questions in desktop-based mock exams are identical to the real ones. Our practice exams give you options to change their durations and questions' numbers to polish your skills. You can easily assess your readiness with the assistance of results produced by the practice exam.

Salesforce Certified Platform Foundations Sample Questions (Q88-Q93):

NEW QUESTION # 88

What should the account owner at Get Cloudy Consulting use to learn the sum of the amount for each opportunity?

- A. A custom report type
- B. The Opportunity related list
- C. A Roll-Up Summary field

Answer: C

Explanation:

A roll-up summary field is a field on the parent object that calculates the sum, average, min, or max of a field on the child records. It can be used to learn the sum of the amount for each opportunity related to an account.

NEW QUESTION # 89

Get Cloudy Consulting wants to implement AI Agents to assist with customer service.

Where can Agents be deployed?

- A. Slack
- B. Queues
- C. Chatter

Answer: A

Explanation:

Salesforce offers AI-powered tools like Einstein Bots and AI-powered agents to assist with customer service.

These tools can integrate into communication platforms to enhance user interactions. Slack, a Salesforce product, allows businesses to deploy AI Agents to streamline communication and provide instant support within customer workflows. This integration leverages Slack's powerful collaboration features combined with Salesforce's AI capabilities to resolve issues more efficiently.

Here is how the other options are incorrect:

* A. Queues: While Salesforce Queues manage workloads and assign cases, they are not a place where AI Agents can be deployed. Queues are primarily for task or case assignments.

* B. Chatter: Salesforce Chatter is a collaboration tool within Salesforce for internal communication. It does not support the deployment of AI Agents for customer service purposes.

NEW QUESTION # 90

Get Cloudy Consulting (GCC) will show its data on a dashboard where the data is visualized within a range.

Which dashboard component type should GCC use?

- A. Gauge
- B. Metric
- C. Chart

Answer: A

Explanation:

A gauge is a dashboard component type that shows a single value within a range of custom values. A gauge is useful for showing whether a metric, such as revenue or customer satisfaction, is within a desired range. For example, a gauge could show the current revenue as a needle pointing to a green, yellow, or red zone, indicating whether the revenue is above, below, or on target. A metric

is a dashboard component type that shows a single value, such as the total number of accounts or the average deal size. A metric does not show a range of values. A chart is a dashboard component type that shows data in a graphical format, such as a pie chart, a bar chart, or a line chart. A chart is useful for showing the distribution or trend of data, but not a single value within a range.

NEW QUESTION # 91

Get Cloud Consulting (GCC) has started to use Salesforce for its sales and service divisions. GCC would like to automate a process and understands this can be done through declarative and programmatic solutions.

Which approach should GCC explore first?

- A. A programmatic approach, as it is more customizable.
- B. A programmatic approach, unless there is a lack of resources
- C. A declarative approach, as it allows for quicker and simpler problem resolution

Answer: C

Explanation:

The approach that GCC should explore first to automate a process is a declarative approach, as it allows for quicker and simpler problem resolution. A declarative approach means that GCC can use point-and-click tools and drag-and-drop interfaces to create and modify applications, workflows, rules, and logic, without writing any code. This makes it easier and faster for GCC to build and customize solutions that meet its business needs, without requiring any programming skills or resources.

NEW QUESTION # 92

What is one aspect of multi-tenant architecture?

- A. Reserves resources per tenant
- B. Costs more than single-tenant architecture
- C. Shares resources with other tenants

Answer: C

Explanation:

Salesforce operates on a multi-tenant architecture, where a single instance of the platform serves multiple customers (tenants). Each tenant's data is securely isolated, but they share common resources, such as server space, database instances, and updates. This approach ensures cost efficiency and scalability.

* A. Costs more than single-tenant architecture: Multi-tenancy reduces costs due to shared resources.

* B. Reserves resources per tenant: Resources are shared rather than reserved individually.
