NEW QUESTION # 165

What techniques could the Scrum Master use when the Scrum Team gets caught in an internal disagreement

- A. Ask team members to take the issue up with to the company's Human Resources department.
- B. Use coaching techniques; such as open questions and active listening.
- C. Involve the complete Scrum Team in making a decision.
- D. Ask an external agile coach what they recommend.

Answer: B,C

Explanation:

Two techniques that the Scrum Master could use when the Scrum Team gets caught in an internal disagreement about which agile practices to apply are to involve the complete Scrum Team in making a decision, and to use coaching techniques such as open questions and active listening, as stated in [3]: "The Scrum Master should facilitate a constructive dialogue among the team members and help them reach a consensus on which agile practices to use. The Scrum Master should also use coaching techniques such as open questions and active listening to understand the underlying needs and motivations of each team member and to help them find common ground."

NEW QUESTION # 166

Which statement best describes a Product Owner's responsibility?

- A. Directing the Development Team
- B. Managing the project and ensuring that the work meets the commitments to the stakeholders.
- C. Keep stakeholders from distracting the Development Team
- D. Optimizing the value of the work the Development Team does.

Answer: D

Explanation:

According to the Scrum Guide 1 , ordering Product Backlog items is solely up to the Product Owner's discretion. The Product Owner orders items in the Product Backlog to best achieve goals and missions. To do this, they optimize value by considering various factors such as cost and benefit, risk, dependencies, date needed, etc. The Product Owner is responsible for maximizing the value of the work the Development Team does.
