CIPS L5M10 Exam Book - L5M10 Dumps Torrent
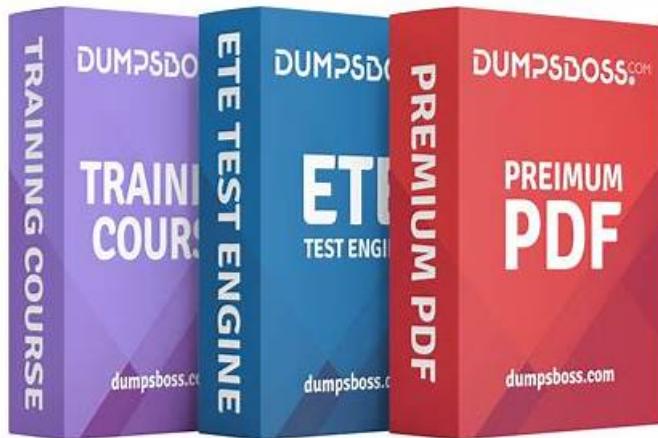

The price for Logistics Management L5M10 study materials is quite reasonable, and no matter you are a student or you are an employee, you can afford the expense. Besides, CIPS L5M10 exam materials are compiled by skilled professionals, therefore quality can be guaranteed. L5M10 Study Materials cover most knowledge points for the exam, and you can learn lots of professional knowledge in the process of trainning.

CIPS L5M10 Exam Syllabus Topics:

Topic	Details
Topic 1	• Understand Capacity Planning and Control in Logistics Management: This section of the exam measures the skills of Operations Planners and focuses on the techniques and systems used to manage capacity, demand, and resource planning across logistics activities. It explains how organizations balance planning with real-time control, adjust to fluctuating demand, and schedule workloads effectively. Candidates are expected to understand capacity concepts, constraints, demand forecasting, capacity measurement, and different planning approaches such as level planning, chase demand strategies, and demand management methods. The section also examines the use of technology in capacity planning, particularly Materials Requirements Planning (MRP), MRP II, ERP systems, master production scheduling, inventory data, and bills of materials, while recognizing the limitations of these tools. Finally, it covers the role of reverse logistics, emphasizing the handling of customer returns, the development of return policies, and how returned items are reintegrated into the supply chain.

Topic 2	• Analyse the Role and Activities of Logistics Management: This section of the exam measures the skills of Logistics Managers and covers the essential concepts, functions, and strategic importance of logistics within modern supply chains. It explains what logistics is, how its key elements work together—such as transportation, warehousing, inventory, packaging, information flow, and security—and how these components support procurement, production, distribution, after-sales processes, and product disposal. The section explores how logistics integrates with broader supply chain management and introduces the idea of total logistics and total cost thinking, showing how multimodal transport and pipeline inventory contribute to efficiency. Candidates must understand how logistics creates competitive advantage by aligning operations with business strategy, managing customer service levels, measuring service quality, and recognizing its financial impact. This heading also evaluates the increasing role of technology in logistics, including barcoding, RFID, e-fulfilment systems, warehouse management systems, automated data capture, and the integration of digital tools across the logistics network.

L5M10 Dumps Torrent & New L5M10 Learning Materials

All Of CIPS staff knows it is very difficult to get CIPS certificate. But taking CIPS certification exam and getting the certificate are a way to upgrade your ability and prove self-worth, so you have to choose to get the certificate. Isn't there an easy way to help all candidates pass their exam successfully? Of course there is. L5M10 Exam Dumps are the best way. itPass4sure has everything you need and can absolutely satisfy your demands. You can visit itPass4sure.com to know more details and find the exam materials you want to.

CIPS Logistics Management Sample Questions (Q76-Q81):

NEW QUESTION # 76
RFID tags are commonly used in warehousing to improve speed and accuracy. Which of the following functions can RFID technology complete?

- A. Track and trace
- B. Storage
- C. Logistics
- D. Demand planning

Answer: A

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
RFID enables real-time tracking and tracing of goods through automated scanning. Active tags continuously transmit location; passive tags activate upon scanning.
(Reference: CIPS L5M10 Study Guide, RFID applications in warehousing, p. 84)

NEW QUESTION # 77
In which of the following examples is capacity expressed as an input capacity measure?

- A. An oil refinery processes 800 barrels of crude oil per day
- B. A factory makes 1,000 cupcakes a day
- C. A worker sews 10 buttons per hour
- D. A machine produces 100 widgets per day

Answer: A

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
Capacity can be measured as input (amount of input resource the system can accept) or output (units produced).
Refinery throughput stated in barrels of crude oil is an input-based expression; the other options express output. (CIPS L5M10 Study Guide, p. 107)

NEW QUESTION # 78

Apart from customers, which of the following are external stakeholders involved in reverse logistics operations? Select TWO.

- A. Suppliers
- B. Government agencies
- C. Banks and creditors
- D. Drivers of logistics vehicles

Answer: A,B

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
External stakeholders in reverse logistics include suppliers, who may receive returned goods or components, and government agencies, who regulate waste handling, recycling, and environmental compliance. Banks and creditors are financial stakeholders, not operational ones, and logistics drivers are internal or connected stakeholders.
(Reference: CIPS L5M10 Study Guide, Reverse logistics stakeholders, p. 192)

NEW QUESTION # 79

What is the name of the common indicator, often expressed as a percentage of time when an organisation's core resource (equipment or people) is engaged in production or transformation activities?

- A. Utilisation rate
- B. Production rate
- C. Downtime rate
- D. Waiting rate

Answer: A

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
Utilisation rate measures the proportion of available capacity that is actually used for productive activity. It is calculated as:
This indicator helps managers understand how efficiently facilities or resources are being used. High utilisation may indicate efficiency but could also suggest limited flexibility. (Reference: CIPS L5M10 Study Guide, Capacity utilisation and performance measures, p. 132)

NEW QUESTION # 80

Which of the following are advantages of using an ERP system over an MRP system? Select TWO.

- A. System is multi-lingual
- B. Cheaper to implement
- C. Centralised databases
- D. No inputs are required

Answer: A,C

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
ERP extends the MRP concept across the whole enterprise. It centralises data (reducing duplication and error) and supports multiple languages and currencies for global operations. It is, however, more complex and costly to implement than MRP.
(Reference: CIPS L5M10 Study Guide, ERP evolution from MRP, pp. 175-176)

NEW QUESTION # 81

......

Are you planning to attempt the Logistics Management (L5M10) exam of the L5M10 certification? The first hurdle you face while preparing for the Logistics Management (L5M10) exam is not finding the trusted brand of accurate and updated L5M10 exam

questions. If you don't want to face this issue then you are at the trusted itPass4sure is offering actual and latest Logistics Management (L5M10) Exam Questions that ensure your success in the Logistics Management (L5M10) certification exam on your maiden attempt.
