

Customizable Practice Test for Improved Success in Zscaler ZDTA Certification Exam

BONUS!!! Download part of TorrentValid ZDTA dumps for free: <https://drive.google.com/open?id=1EC3LEXU6RDh3Fzp36uivmnIHo80JDxH>

With the help of the Zscaler ZDTA brain dumps and preparation material provided by TorrentValid, you will be able to get Zscaler Digital Transformation Administrator certified at the first attempt. Our Zscaler experts have curated an amazing ZDTA exam guide for passing the ZDTA Exam. You can get the desired outcome by preparing yourself from the ZDTA exam dumps material provided by TorrentValid. We frequently update our ZDTA exam preparation material to reflect the latest changes in the ZDTA exam syllabus.

Zscaler ZDTA Exam Syllabus Topics:

Topic	Details
Topic 1	Platform Services: This section measures skills of Cloud Infrastructure Engineers and focuses on the suite of Zscaler platform services. Key topics include advanced device posture assessments, TLS inspection mechanics, and the application of policy frameworks governing internet, private access, and digital experience services.

Topic 2	• Cyberthreat Protection Services: This domain targets Cybersecurity Analysts and covers broad cybersecurity fundamentals and advanced threat protection capabilities. Candidates must know about malware protection, intrusion prevention systems, command and control channel detection, deception technologies, identity threat detection and response, browser isolation, and incident detection and response. • Data Protection Services
Topic 3	• Zscaler Digital Experience: This section evaluates Network Performance Analysts on their knowledge of Zscaler Digital Experience (ZDX), including understanding the ZDX score, architectural overview, features, functionalities, and practical use cases to optimize digital user experiences.
Topic 4	• Risk Management: This domain measures skills of Risk Managers and Security Architects in using Zscaler's comprehensive risk management suite. Candidates are expected to understand risk capabilities, dashboards, asset and financial risk insights, vulnerability management, deception tactics, identity protection, and breach prediction analytics.
Topic 5	• This section assesses Data Protection Officers on techniques to secure data across motion, SaaS, cloud, and endpoints using Zscaler's AI-driven data discovery and data protection technologies. It involves securing BYOD environments and understanding risk management to protect sensitive information.
Topic 6	• Identity Services: This section of the exam measures skills of Identity and Access Management Engineers and covers foundational identity services including authentication and authorization protocols such as SAML, SCIM, and OIDC. Candidates should understand identity administration tasks and how to manage policies and audit logs within the Zscaler platform.

ZDTA Testing Center & Reliable ZDTA Test Notes

In order to cater to meet different needs of our customers, three versions of ZDTA exam bootcamp are available. Each version has its own advantages, and you can choose the most suitable one in accordance with your needs. Furthermore, ZDTA exam bootcamp is compiled by outstanding experts, therefore the quality and the accuracy can be guaranteed. Besides, we have the professional technicians to examine the website on a regular basis, hence a clean and safe shopping environment will be provided to you. You just need to buy the ZDTA Exam Dumps with ease.

Zscaler Digital Transformation Administrator Sample Questions (Q19-Q24):

NEW QUESTION # 19

What can Zscaler Client Connector evaluate that provides the most thorough determination of the trust level of a device as criteria for an access policy enabling remote access to sensitive private applications?

- A. Client Type
- **B. Posture Profiles**
- C. Trusted Network
- D. SCIM User Attributes

Answer: B

Explanation:

Posture Profiles give a comprehensive view of a device's security state - checking OS version, patch level, antivirus status, disk encryption, and more - making them the richest criteria for trust decisions in access policies for sensitive private apps.

NEW QUESTION # 20

What is the ZIA feature that ensures certain SaaS applications cannot be accessed from an unmanaged device?

- A. Out-of-band Application Access
- **B. Tenant Restriction**

- C. Identity Proxy
- D. SaaS Application Access

Answer: B

Explanation:

Tenant Restriction is the ZIA feature that enforces access control policies to prevent access to certain SaaS applications from unmanaged or non-compliant devices. This ensures that only authorized and managed devices can access sensitive corporate SaaS resources, enhancing security posture.

The study guide highlights Tenant Restriction as an essential control for enforcing device compliance in SaaS access policies.

NEW QUESTION # 21

Is SCIM required for ZIA?

- A. No
- B. Yes
- C. Depends
- D. Maybe

Answer: A

Explanation:

SCIM is optional for ZIA user provisioning - you can onboard users via manual CSV import, SAML attributes, or other identity integrations without implementing SCIM.

NEW QUESTION # 22

An administrator needs to SSL inspect all traffic but one specific URL category. The administrator decides to create two policies, one to inspect all traffic and another one to bypass the specific category. What is the logical sequence in which they have to appear in the list?

- A. First the policy for the exception Category, then further down the list the policy for the generic "inspect all."
- B. All policies both generic and specific will be evaluated so no specific order is required.
- C. Both policies are incompatible, so it is not possible to have them together.
- D. First the policy for the generic "inspect all", then further down the list the policy for the exception Category.

Answer: A

Explanation:

When creating SSL inspection policies, the exception policy for the specific URL category must appear first in the policy list, followed by the more generic "inspect all" policy further down. Zscaler evaluates policies in order, so placing the exception first ensures that traffic matching that category bypasses inspection before the generic policy is applied.

The study guide emphasizes the importance of policy order to ensure correct application of exceptions and general rules.

NEW QUESTION # 23

If you're migrating from an on-premises proxy, you will already have a proxy setting configured within the browser or within the system. With Tunnel Mode, the best practice is to configure what type of proxy configuration?

- A. Use Web Proxy Auto Discovery (WPAD) to auto-configure the proxy.
- B. Use an automatic configuration script (forwarding PAC file).
- C. Execute a GPO update to retrieve the proxy settings from AD.
- D. Enforce no Proxy Configuration.

Answer: D

NEW QUESTION # 24

.....

Learning at electronic devices does go against touching the actual study. Although our ZDTA exam dumps have been known as one of the world's leading providers of ZDTA exam materials. For your convenience, we especially provide several demos for future reference and we promise not to charge you of any fee for those downloading. Therefore, we welcome you to download to try our ZDTA Exam. Then you will know whether it is suitable for you to use our ZDTA test questions. We are sure to be at your service if you have any downloading problems.
