## Free PDF 2026 High Pass-Rate Fortinet EMEA-Advanced-Support: Fortinet EMEA Advanced Support Exam Valid Exam Simulator

The EMEA-Advanced-Support PDF questions file is the third format of Fortinet EMEA Advanced Support Exam (EMEA-Advanced-Support) exam practice questions. This format contains the real, valid, and updated Fortinet EMEA-Advanced-Support exam questions. You can download Exam-Killer exam questions PDF on your desktop computer, laptop, tabs, or even on your smartphones. The EMEA-Advanced-Support Questions Pdf file is very easy to use and compatible with all smart devices. Download the Exam-Killer exam questions after paying affordable price and start preparation without wasting further time.

## Fortinet EMEA Advanced Support Exam Sample Questions (Q34-Q39):

### NEW QUESTION # 34

In FortiGate, what is the purpose of a Virtual IP (VIP)?

- A. To enable load balancing for VPN tunnels
- B. To map an external IP to an internal IP for NAT
- C. To create a virtual interface for VLANs

- D. To assign a secondary IP to a physical interface

**Answer: B**

Explanation:

A Virtual IP (VIP) in FortiGate maps an external IP address to an internal IP for Destination NAT (DNAT), commonly used for accessing internal servers from external networks. It is not for VLANs (B), secondary IPs (C), or VPN load balancing (D). Exact extract: "Virtual IPs (VIPs) are used for Destination NAT, mapping an external IP address to an internal IP to allow external access to internal resources, such as servers."

### NEW QUESTION # 35

Which FortiGate feature allows for policy-based routing?

- A. SD-WAN Rules
- B. Static Routes
- C. Dynamic Routes
- **D. Policy Routes**

**Answer: D**

Explanation:

Policy Routes in FortiGate allow routing decisions based on criteria like source, destination, or service, overriding the default routing table. SD-WAN Rules (A) are for WAN optimization, Static Routes (C) are fixed, and Dynamic Routes (D) are protocol-based, not policy-based. Exact extract: "Policy Routes allow FortiGate to make routing decisions based on user-defined criteria, such as source/destination IPs or services, overriding standard routing."

### NEW QUESTION # 36

Which FortiGate log type records denied traffic events?

- **A. Traffic Log**
- B. Event Log
- C. Security Log
- D. System Log

**Answer: A**

Explanation:

Traffic Logs in FortiGate record all traffic events, including denied packets, with details like source, destination, and policy ID. Security Logs (B) cover UTM events, Event Logs (C) system events, and System Logs (D) hardware or system status, not specifically denied traffic. Exact extract: "Traffic Logs record all packet activity, including allowed and denied traffic, with details such as source/destination IPs, ports, and the firewall policy applied."

### NEW QUESTION # 37

Which of the following protocols operates at Layer 4

- A. OSPF
- B. ARP
- C. BGP
- **D. IPSEC**

**Answer: D**

Explanation:

IPsec operates at Layer 4 (Transport Layer) in the OSI model, providing secure communication via protocols like ESP and AH, which work with TCP or UDP. BGP and OSPF are Layer 3 (Network Layer) routing protocols, and ARP operates at Layer 2 (Data Link Layer). Fortinet's FortiGate uses IPsec for VPNs at Layer 4. Exact extract: "IPsec operates at the Transport Layer (Layer 4) to secure communications, encapsulating TCP or UDP packets... BGP and OSPF function at the Network Layer, while ARP resolves IP to MAC addresses at the Data Link Layer."

### NEW QUESTION # 38

What is the default FortiGate behavior when a packet matches no firewall policy?

- A. The packet is dropped
- B. The packet is logged and allowed
- C. The packet is sent to the IPS engine
- D. The packet is forwarded to the default gateway

**Answer: A**

Explanation:

FortiGate operates on a default-deny principle; if a packet does not match any firewall policy, it is dropped to ensure security. No forwarding (A), IPS processing (C), or automatic allowing (D) occurs without a matching policy. Exact extract: "FortiGate uses a default-deny approach; packets that do not match any configured firewall policy are dropped to prevent unauthorized traffic."

### NEW QUESTION # 39

.....

The Exam-Killer Fortinet EMEA-Advanced-Support practice test software is offered in two different types which are Fortinet EMEA Advanced Support Exam (EMEA-Advanced-Support) desktop practice test software and web-based practice test software. Both are the Prepare for your EMEA-Advanced-Support practice exams that will give you a real-time Fortinet EMEA Advanced Support Exam (EMEA-Advanced-Support) exam environment for quick EMEA-Advanced-Support exam preparation.
