テストの準備に多くの時間を費やし、それでも何度も失敗するのは馬鹿げていますか？一部の受験者は、PECB ISO-14001-Lead-Auditor試験ダンプ問題で簡単に試験に合格しますか？試験に合格し、認定を取得することが目標である場合、ISO-14001-Lead-Auditor試験ダンプは、目標を簡単に達成するのに役立ちます。選択してみませんか？ISO-14001-Lead-Auditor試験ダンプ問題を含むテストの前にわずか数十のお金と20〜35時間の有効な準備で、確実に試験をクリアできます。では、なぜあなたは無駄な努力をするのに多くの時間を無駄にしているのですか？

PECB Certified EMS ISO 14001 Lead Auditor Exam 認定 ISO-14001-Lead-Auditor 試験問題 (Q22-Q27):

質問 # 22

Which one of the following outcomes of an audit does not require the auditee to respond?

- A. An opportunity for improvement.
- **B. A conformity.**
- C. A diverging opinion concerning the audit evidence.
- D. A non-conformity.

正解: B

解説:

According to ISO 19011:2018 Clause 3.11 (Audit findings) and Clause 6.4.10:

Audit findings can be conformity, nonconformity, or opportunity for improvement.

A conformity simply confirms that the requirements have been met no further action is required from the auditee.

Nonconformities require corrective actions.

Opportunities for improvement may trigger voluntary action but not mandatory response.

Diverging opinions are handled during the audit but don't require post-audit response unless linked to nonconformity.

Reference: ISO 19011:2018 Clause 3.11, 6.4.10; ISO 14001 Lead Auditor Guide - Audit Findings.

質問 # 23

You are conducting a Stage 2 certification audit of VitalSpark, a pharmaceutical organisation manufacturing vitamins and other healthcare medicines.

In a separate area in the centre of their large site, a supplier produces oxygen supplies piped directly into the manufacturing processes of VitalSpark. They also deliver oxygen in bulk tankers to other customers. When you review the environmental aspects register, you find that the only environmental aspect recorded for this arrangement relates to the heavy goods vehicles of the supplier transiting the site.

You ask the EMS Manager about the environmental consequences to VitalSpark of this arrangement and are told that they are not significant since the supplier has its own services for water, sewage, waste and energy.

The EMS Manager tried unsuccessfully to communicate with the supplier who is located inside the VitalSpark site and outside the scope of the EMS.

After gathering more evidence, you note down findings against several clauses of ISO 14001. Determine which three of the findings stated are non-conformities.

- **A. The organisation has failed to include in the EMS scope the activities, products and services associated with suppliers and contractors performing their activities in its own site. (Clause 4.3)**
- B. The EMS Manager had some problems communicating with the supplier by mobile phone as an interested party. No other methods of communication were employed. (Clause 7.4.3)
- C. The aspects related to the use of heavy goods trucks was not identified. (Clause 6.1.2)
- D. Evidence was found to indicate that the needs of some interested parties had not been considered by the organisation. A neighbour's interests had not been identified. (Clause 4.2.b)
- E. The contractor's environmental policy is not consistent with the organisation's policy (Clause 5.2)
- **F. Documentation of environmental impacts was missing for the supplier of oxygen. (Clause 6.1.2)**
- G. The Environmental Manager did not visit the oxygen supplier. (Clause 7.4.3)
- **H. The internal audit programme does not include processes for control of subcontractor transport movements. The audit programme does not cover the full environmental management system. (Clause 9.2.2)**

正解: A、F、H

質問 # 24

An audit team leader arrives at a steel fabrication organisation that manufactures fire escape stairs to carry out a Stage 2 certification audit. At a meeting with the EMS Manager, she is told that they have won their biggest contract from a construction organisation to manufacture and install fire escape stairs. They appointed a subcontractor to perform the installation work. The EMS Manager wants the ISO 14001 audit extended to cover the installation site.

Select which one of the options is the correct response by the auditor.

- A. Would you write to my audit programme manager with this request?
- B. Can you arrange to bring the installation team here so that we can include this in the audit?
- C. Do you realise that this involves an extension to the scope of the audit and will require an application process?
- D. We have used all our allocated time in preparation for this audit so how can we extend the audit scope?

正解: C

解説:

According to ISO/IEC 17021-1:2015 Clause 9.3.1 and ISO 19011:2018 Clause 5.4.1:

Any change in scope requires formal review and approval through certification body's application process.

The auditor cannot unilaterally extend the scope during the audit.

The correct course of action is to inform the auditee that scope changes require an application process.

Reference: ISO/IEC 17021-1:2015 Clause 9.3.1; ISO 19011:2018 Clause 5.4.1.

質問 # 25

Which two of the following options are an advantage of using a sampling plan for the audit?

- A. Reduces the audit duration
- B. Prevents conflict within the audit team
- C. Implements the audit plan efficiently
- D. Gives confidence in the audit results
- E. Overrides the auditor's instincts
- F. Use of the plan for consecutive audits

正解: A、D

解説:

According to ISO 19011:2018 Clause 5.3.2 and Annex B (Audit Sampling):

Sampling allows auditors to:

Reduce audit time while still covering sufficient evidence (A),

Provide statistically valid assurance and confidence in the results (C).

Sampling does not replace auditor judgment (D), nor is it intended to prevent conflict (F) or be reused blindly for future audits (E).

Reference: ISO 19011:2018 Clause 5.3.2, Annex B.

質問 # 26

A multi-level shopping centre is open every day to the public from 09:00-21:00 hours. During an external audit of the centre to ISO 14001, you establish that there are 40 vending machines that are permanently switched on. Thirty of them do not sell perishable foodstuffs. You also note that there are eight escalators in the complex that run constantly during public access. When asked about environmental performance improvement objectives, the Centre Manager says that there are plans to increase the natural daylight by installing more skylights thus saving on lighting costs, but the estimated budget for this has not yet been approved by the board.

You: I note that energy consumption is a significant environmental aspect in the centre. How do you mitigate the impacts of this?

EMS Manager: We try to reduce our energy costs by negotiating a better deal from the energy company. We are considering changing to one that only supplies electricity from renewable sources.

You: What steps have you taken to reduce overall consumption?

EMS Manager: We conducted awareness training for staff. For example, turning off lights in staff areas not being used.

You: I see that the escalators account for the highest usage of energy. Are there any objectives to try and reduce this?

EMS Manager: No, it would be too costly to change them.

You: How do you measure electricity consumption?

EMS Manager: We have meters installed in each floor of the centre. We take readings every hour and we plot the consumption graph for every staff shift.

You continue the interview and find that energy consumption has increased steadily over the past five years.

Select the two statements that are true.

- A. The vending machines are switched on permanently.
- B. The organisation should take action to address its energy consumption.
- C. The centre staff are responsible for energy consumption in the staff areas.
- D. The escalators are switched on permanently.
- E. The Centre Manager is trained in energy awareness.
- F. The organisation's energy supplier sources renewable energy.

正解： A、 B
