The free demos give you a prove-evident and educated guess about the content of our practice materials. As long as you make up your mind on this exam, you can realize their profession is unquestionable. And their profession is expressed in our AgilePM-Foundation training prep thoroughly. They are great help to catch on the real knowledge of AgilePM-Foundation exam and give you an unforgettable experience. Do not miss this little benefit we offer.

APMG-International Agile Project Management (AgilePM) Foundation Exam Sample Questions (Q88-Q93):

NEW QUESTION # 88

Which is a factor used in the 'change formula' (Beckhard and Harris)?

- A. The quality of the leadership.
- B. Elapsed time it will take to achieve the change.
- C. Expected return on investment and benefits.
- **D. Level of dissatisfaction with the status quo.**

Answer: D

Explanation:

* Dissatisfaction with the Status Quo: The change formula includes dissatisfaction as a key driver for change. Without sufficient dissatisfaction, the motivation to change is diminished.

* Other Options:

* B, C, and D: These factors, while important, are not explicitly part of the Beckhard and Harris change formula.

Key AgilePM Concepts Referenced:

* Change Formula Framework: AgilePM Handbook, Chapter 6, Section 6.5.

NEW QUESTION # 89

During which of the project lifecycle phases should deployment activities be added to the plan?

- A. Deployment phase
- B. Delivery phase
- **C. Development phase**
- D. Planning phase

Answer: C

Explanation:

AgilePM's lifecycle comprises Pre-Project, Feasibility, Foundations, Evolutionary Development (Development), Deployment, and Post-Project. Deployment is executed in the Deployment phase, but AgilePM expects deployment planning to be identified early and progressively elaborated as part of ongoing planning during Evolutionary Development. As timeboxes deliver verified increments, the team refines release content, readiness activities, and transition tasks (training, data migration, cutover, support). Embedding deployment activities into the plans during Development ensures that release preparation progresses continuously-not as a late-stage bolt-on-supporting predictable cadence and benefits enablement. While Foundations establishes the initial approach and high-level plans, the detailed, actionable deployment tasks and their scheduling are added and maintained within the Development phase planning cycles so the upcoming Deployment phase can execute smoothly. Hence, from the options provided, the correct choice is Development phase.

NEW QUESTION # 90

What role is responsible for interpreting the needs of the Business Sponsor and communicating these to the team?

- **A. Business Visionary**
- B. Business Analyst
- C. Team Leader
- D. Technical Coordinator

Answer: A

NEW QUESTION # 91

Considering the value statements in the Agile Manifesto which of the following Documents should only be created where they add value to the project Documents can be created but should never be used to form a contract It is vital that any documents created are visible to, and understood by, [stakeholders/team] High-level documents can be created early in a project to help support planning and understanding.

- A. 2, 3, 4
- B. 1, 2, 4
- C. 1, 2, 3
- **D. 1, 3, 4**

Answer: D

Explanation:

The Agile Manifesto values "working software over comprehensive documentation," but does not reject documents; it promotes fit-for-purpose documentation that adds value. AgilePM echoes this with lightweight, high-value artifacts (e.g., Business Case, Foundations summary, acceptance criteria) to support clarity and governance "without excessive bureaucracy." Therefore (1) is true: create documents when they add value. (3) is true: documents must be visible and understood by those who use them to collaborate and decide; transparency is essential. (4) is also true: high-level documents early (vision, scope boundaries, approach) support planning, alignment, and later refinement. (2) is false: agile does not prohibit contracts; it values customer collaboration over contract negotiation, yet recognizes contracts may be necessary and useful when framed to enable change. Consequently, the correct set is 1, 3, and 4, i.e., C.

NEW QUESTION # 92

Which phase in the DSDM process aims to understand the scope of work and, in broad terms, how it will be carried out, by whom, when and where?

- **A. Foundations**
- B. Pre-Project
- C. Feasibility
- D. Evolutionary Development

Answer: A

NEW QUESTION # 93

.....
