If you own the certification it proves you master the NSE6\_FSR-7.3 quiz torrent well and you own excellent competences and you will be respected in your company or your factory. If you want to change your job it is also good for you.

## Fortinet NSE 6 - FortiSOAR 7.3 Administrator Sample Questions (Q73-Q78):

### NEW QUESTION # 73

Which stage of the SOC maturity model involves optimizing productivity?

- A. Establishing
- **B. Forward Leaning**
- C. Greenfield
- D. Established

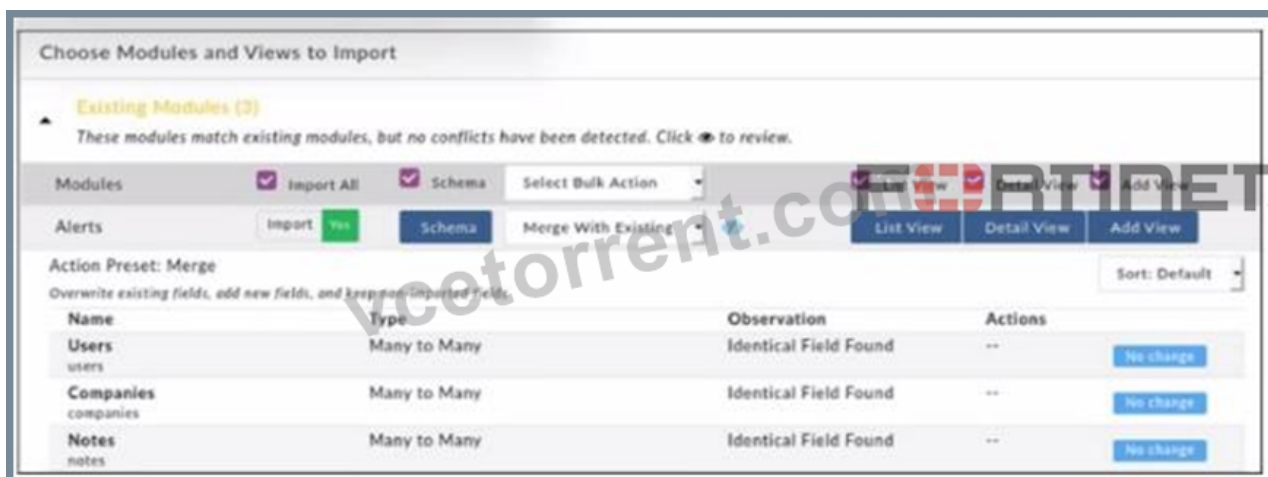

**Answer: B**

Explanation:

The Forward Leaning stage focuses on enhancing efficiency and optimizing productivity through increased automation, orchestration, and process refinement.

### NEW QUESTION # 74

Refer to the exhibit.

When importing modules to FortiSOAR using the configuration wizard, what actions are applied to fields if you select Merge with Existing as the Bulk action?

- A. Existing fields are overwritten, new fields are added, and non-Imported fields are kept.
- B. Existing Holds are overwritten, now fields are added, and non-imported fields are deleted.
- C. Existing fields are kept, new fields are added, and non-imported fields are kept.
- D. Existing fields are kept, new fields are added, and non-imported fields are deleted.

**Answer: A**

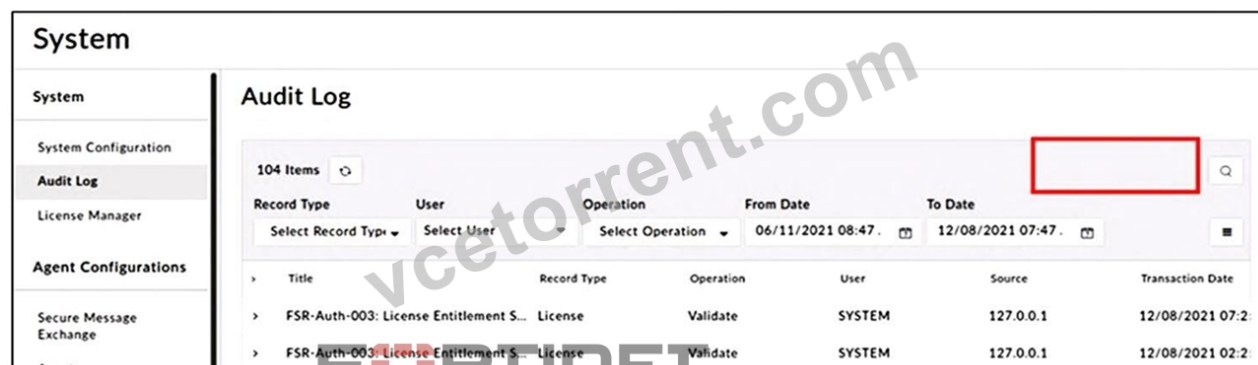

Explanation:

When importing modules into FortiSOAR using the configuration wizard and selecting "Merge with Existing" as the bulk action, the behavior for field handling is as follows: any fields that already exist in the system are overwritten with the imported values. New fields from the imported module are added to the system, while fields that are not part of the imported module remain unaffected and are retained in the system. This option ensures that existing data structures are updated with new information without losing existing, but non-imported, fields.

## NEW QUESTION # 75

Refer to the exhibit. Why is the Purge Logs option missing?

**Audit log**

- A. Delete permission on the Security module is not selected.
- B. Delete permission on the Audit Log Activities module is not selected.
- C. Delete permission on the People module is not selected.
- D. Delete permission on the Users module is not selected.

**Answer: B**

Explanation:

The Purge Logs option is controlled by delete permissions on the Audit Log Activities module, and if this permission is not granted, the option will not be visible in the interface.

### NEW QUESTION # 76

Which three actions can be performed from within the war room? (Choose three)

- A. Integrate a third-party instant messenger directly into the collaboration workspace.
- **B. Use the Task Manager tab to create, manage, assign, and track tasks.**
- **C. View graphical representation of all records linked to an incident in the Artifacts lab**
- **D. Investigate issues by tagging results as evidence.**
- E. Change the room's status to Escalated to enforce hourly updates.

**Answer: B,C,D**

Explanation:

In FortiSOAR's War Room, users can perform several actions to manage incidents effectively. They can view a graphical representation of records linked to an incident in the Artifacts lab, which helps visualize connections and dependencies. Additionally, the War Room supports tagging investigation results as evidence, allowing for a structured approach to incident documentation. Users can also manage tasks via the Task Manager tab, facilitating task creation, assignment, and tracking within the incident response workflow.

### NEW QUESTION # 77

View the exhibit:

What does the command output mean?

- **A. The configuration to enable database externalization has not been completed.**
- B. There is no connectivity between the PostgreSQL databases of the primary and secondary FortiSOAR instances.
- C. The local PostgreSQL database is disabled on the FortiSOAR instance.
- D. The local PostgreSQL database is configured on the FortiSOAR instance.

**Answer: A**

### NEW QUESTION # 78

.....
