

# 2V0-32.24 Reliable Dumps Questions - 2V0-32.24 Learning Mode

BTW, DOWNLOAD part of PassSureExam 2V0-32.24 dumps from Cloud Storage: <https://drive.google.com/open?id=1bZaRW67nRwXTHb5vOD26og5-6RbK0T34>

And you can also use the VMware 2V0-32.24 PDF on smart devices like smartphones, laptops, and tablets. The second one is the web-based VMware 2V0-32.24 practice exam which can be accessed through the browsers like Firefox, Safari, and Google Chrome. The customers don't need to download or install excessive plugins or software to get the full advantage from web-based 2V0-32.24 Practice Tests.

## VMware 2V0-32.24 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>Performance-tuning, Optimization, and Upgrades: This section has no testable objectives and therefore is not directly assessed in the exam.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>VMware Products and Solutions: This section of the exam measures the skills of Cloud Engineers and covers the components, integrations, and use cases for various VMware Cloud Management solutions. It includes tools like vRealize True Visibility Suite, Skyline, Federated Analytics, vRealize AI Cloud, and Log Insight Cloud. Candidates also explore deployment tools such as Remote Collectors and Cloud Proxies to understand their role in scalable cloud operations.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>Troubleshooting and Repairing: This section of the exam measures skills of Support Engineers and covers the diagnosis and resolution of common performance and configuration issues in vRealize Operations, Log Insight, and Lifecycle Manager. It also includes cluster management options, log bundle generation, password handling, and changing authentication settings, equipping professionals to ensure system reliability.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>Planning and Designing: This section of the exam measures the skills of Cloud Architects and covers the architectural models and sizing requirements for vRealize Operations and vRealize Log Insight. It evaluates the ability to choose between standalone, clustered, and high-availability setups, and to plan appropriately based on scenario-based requirements for capacity and deployment type, ensuring well-designed cloud solutions.</li> </ul>

Topic 5	<ul style="list-style-type: none"> <li>• <b>Administrative and Operational Tasks:</b> This section of the exam measures skills of Cloud Administrators and covers daily operational tasks such as content and environment management in vRealize Suite Lifecycle Manager. It also includes managing licensing, alert systems, dashboards, metrics, cost assessments, capacity optimization, workload planning, and system monitoring. Additionally, it explores access control, patching, and retention settings in vRealize Log Insight, ensuring ongoing operational excellence across VMware tools.</li> </ul>

## VMware 2V0-32.24 Learning Mode - Valid Dumps 2V0-32.24 Ebook

Of course, we also need to realize that it is very difficult for a lot of people to pass the exam without valid 2V0-32.24 study materials in a short time, especially these people who have not enough time to prepare for the exam, that is why many people need to choose the best and most suitable 2V0-32.24 Study Materials as their study tool. We believe that if you have the good 2V0-32.24 study materials when you are preparing for the exam, it will be very useful and helpful for you to pass exam and gain the related certification successfully.

## VMware Cloud Operations 8.x Professional V2 Sample Questions (Q40-Q45):

### NEW QUESTION # 40

An administrator has been tasked with deploying VMware vRealize Suite Lifecycle Manager (vRSLCM) so that components of the vRealize Suite can be deployed.

The high level steps already completed by the administrator are listed below:

1. Download the vRealize Suite Lifecycle Manager Easy Installer executable file from the My VMware download page.
2. Locate the relevant installer file to start the vRealize Suite Lifecycle Manager Easy Installer UI.

Which three additional high level steps must the administrator take to complete the task? (Choose three.)

- **A. Specify the Appliance Network Configuration**
- B. Specify the vRSLCM configuration settings
- **C. Specify vCenter Server details**
- D. Specify the vRSLCM cluster configuration
- E. Deploy VMware Identity Manager
- **F. Create an Environment**

**Answer: A,C,F**

Explanation:

Create an Environment: You need to create an environment in vRSLCM that will define the infrastructure (e.g., vCenter, ESXi hosts) where vRealize Suite components will be deployed.

Specify vCenter Server details: vRSLCM requires details about the vCenter Server, which will be used to manage and deploy the vRealize Suite components.

Specify the Appliance Network Configuration: During the deployment process, you will need to configure network settings for the vRSLCM appliance (e.g., IP address, subnet, gateway, DNS) to ensure proper communication within the environment.

### NEW QUESTION # 41

Which two support bundle types are available in vRealize Log Insight? (Choose two.)

- **A. Light Support Bundle**
- B. Static Support Bundle
- **C. Full Support Bundle**
- D. Standard Support Bundle
- E. Streaming Support Bundle

**Answer: A,C**

Explanation:

In vRealize Log Insight, two types of support bundles are commonly used:

Light Support Bundle: This bundle contains essential logs and configuration information that can be used for a quick analysis of common issues without including all the detailed data.

Full Support Bundle: This bundle includes a complete set of logs, configuration files, and other diagnostic data, providing a more comprehensive overview for detailed troubleshooting.

**NEW QUESTION # 42**

An administrator is updating a Content Pack within vRealize Log Insight which has user modifications. What step should the administrator take to ensure the user modifications persist after the update?

- A. Update the content pack as per the standard procedure.

- B. Persist user modifications is not available when updating the Content Pack.
- C. Export the modifications as a Content Pack and import the changes to the user profile after the update is completed.
- **D. Export the modifications as a Content Pack and import the changes to the system profile after the update is completed.**

**Answer: D**

Explanation:

When updating a Content Pack in vRealize Log Insight that has user modifications, it is essential to export the custom changes (such as modified queries, dashboards, etc.) as a separate Content Pack. After the update is completed, the exported Content Pack containing the user modifications can be imported back into the system profile to ensure that the customizations persist and are not lost during the update process.

#### NEW QUESTION # 43

In vRealize Operations, a user applies a CPU License to a custom group which has existing hosts. How will the Virtual Machines (VMs) on the existing hosts be affected?

- A. The VMs running on the hosts show a 'License is Invalid' watermark.
- **B. The VMs running on the hosts are not affected.**
- C. vRealize Operations prompts the user to apply a VM license key to the VMs running.
- D. The CPU license gets converted to a CPU and VM license.

**Answer: B**

Explanation:

When a CPU license is applied to a custom group in vRealize Operations, it impacts the hosts but does not directly affect the Virtual Machines (VMs) running on those hosts. The license is applied at the host level, and the VMs are not impacted by this change. The VMs will continue to run as they were, and no additional VM licenses are required.

#### NEW QUESTION # 44

An administrator has been tasked with optimizing capacity and overall performance in their existing virtual infrastructure. How can the capabilities of vRealize Operations help complete this task?

- **A. It determines recommendations for oversized and undersized virtual machines.**
- B. It enforces IT regulatory standards, integrated compliance, and automated drift remediation.
- C. It automatically migrates virtual machines into a public cloud.
- D. It adjusts the queue depth for datastores presented by storage arrays.

**Answer: A**

Explanation:

vRealize Operations provides capacity optimization by analyzing the performance of virtual machines (VMs) in the environment. It identifies recommendations for resizing VMs that are either oversized (underutilized resources) or undersized (resources being overutilized), ensuring more efficient resource allocation. This helps optimize overall capacity and performance in the virtual infrastructure.

#### NEW QUESTION # 45

.....

This format of VMware 2V0-32.24 exam preparation material is compatible with smartphones and tablets, providing you with the convenience and flexibility to study on the go, wherever you are. Our 2V0-32.24 PDF questions format is portable, allowing you to study anywhere, anytime, without worrying about internet connectivity issues or needing access to a desktop computer. Actual VMware 2V0-32.24 Questions in the VMware 2V0-32.24 PDF are printable, enabling you to study via hard copy.
